PRECAUTIONS AND REMINDERS

High voltages are used in the operation of this television receiver. Do not remove the cabinet back from your set. Refer servicing to qualified service personnel.

To prevent fire or electrical shock hazard, do not expose the television receiver to rain or moisture.

Do not drop or push objects into the television cabinet slots or openings. Never spill any kind of liquid on the television receiver.

Do not block the ventilation holes in the back cover. Adequate ventilation is essential to prevent failure of electrical components.

Do not trap the power supply cord under the television receiver.

If you are going to clean the product, Unplug the TV, use soft fabric, no water, never chemicals.

Never stand on, lean on, or suddenly push the television or its stand. You should pay special attention to children. Serious injury may result if it falls.

Do not place your television on an unstable cart, stand, shelf or table. Serious injury to an individual, and damage to the television, may result if it falls.

When the television receiver is not used for an extended period of time, it is advisable to disconnect the AC power cord from the AC outlet.

Avoid exposing the television receiver to direct sunlight and other sources of heat. Do not stand the television receiver directly on other products which give off heat, e.g. video cassette players and audio amplifiers. Do not place naked flame sources, such as lighted candles on the television.

If the television is to be built into a compartment or similar enclosure, the minimum distances must be maintained. Heat build-up can reduce the service life of your television, and can also be dangerous.

Note: the use of apparatus in moderate climates.

CONNECTION SUGGESTIONS

f HDTV is turned off.

2. Connect the RF cable from your antenna or digital cable to the TV port on the back of your HDTV.
3. Turn on the HDTV.
4. Follow the first time on screen instructions.

Please Note:

Not all broadcasts are in High Definition (HD). Please refer to your local broadcasting stations for more information.

The HDTV's tuner is designed for HDTV therefore requires a stronger signal than normal TVs. If you cannot achieve that signal level with your antenna or cable, your HDTV might lose picture or sound.

sure that you match the (+) and (-) symbols on the batteries with the (+) and (-) symbols inside the battery compartment. Afterwards, re-attach the battery cover.

Please note:

Only use AAA batteries.

Do not mix new and old batteries. This may result in cracking or leakage that may pose a fire risk or lead to personal injury.

Inserting the batteries incorrectly may also result in cracking or leakage that may pose a fire risk or lead to personal injury.

Dispose the batteries in accordance with local laws and regulations.

Keep the batteries away from children and pets.

If the remote control is not used for a long time, remove the batteries.

Keep the remote control away from moisture, sunlight, and high temperatures.

TROUBLESHOOTING

Please make these simple checks before calling service. These tips may save you time and money since charges for receiver installation and adjustments of customer controls are not covered under your warranty.

Symptoms	Items to Check and Actions to Follow
"Ghost" or double image	<ul style="list-style-type: none">• This may be caused by obstruction to the antenna due to high rise buildings or hills. Using a highly directional antenna may improve the picture.
No power	<ul style="list-style-type: none">• Check if the TV's AC power cord is plugged into the outlet.• Unplug the TV, wait for 60 seconds. Then reinsert plug into the outlet and turn on the TV again.
No picture	<ul style="list-style-type: none">• Check antenna connections at the rear of the TV to see if it is properly connected to the TV.• Possible broadcast station trouble. Try another channel.• Adjust the contrast and brightness settings.• Check the Closed Captions control. Some TEXT modes could block the screen.
Good picture but no sound	<ul style="list-style-type: none">• Increase the volume level by pressing the VOL+ button on the remote control or on the TV side control panel.• Press the MUTE button on the remote control to ensure mute is off.
Good sound but poor color	<ul style="list-style-type: none">• Adjust the contrast, color and brightness settings.
Poor picture	<ul style="list-style-type: none">• Poor picture quality may occur when an activated S-VHS camera or camcorder is connected to your TV and other peripherals at the same time. Switch off one of the peripherals.
Snowy picture and noise	<ul style="list-style-type: none">• Check the antenna connection.
Horizontal dotted line	<ul style="list-style-type: none">• This may be caused by electrical interference (e.g. hair dryer, nearby neon lights, etc.) Turn off the equipment.
Television not responding to remote control	<ul style="list-style-type: none">• Check whether the batteries are working. Replace if necessary.• Clean the remote control sensor lens on the TV.• You can still use the buttons on the side of your TV.
Pixels (dots) that are always dark or always lit	<ul style="list-style-type: none">• Your TV is precision-manufactured using an extremely high level of technology. However, sometimes pixels may not display correctly. These types of occurrences are inherent to this type of product and do not constitute a defective product.
