At OxyLED, we strive to provide you with the perfect lighting solutions for every part of your life. Brighten up your living spaces with a range of aesthetically pleasing and functionally useful designs. From touch sensor closet lights, motion sensor lights, cabinet lights, to string lights and solar garden lighting, ranging in style from classic to contemporary. Your home, office, garden or event will never have looked so good as it will with OxyLED!

We deeply appreciate your business and thank you for your purchase of these touch tap closet lights. With 4 brilliant LEDs, each OxyLED touch sensor light has an incredible output of 80 lumens, bright enough to light your way perfectly!

You can even rotate this touch-sensing light by 140° so that you can shine it in the exact direction you want it to go. It works great for stairs, pantries, attics, basements, cupboards, drawers, garages, mailboxes, medicine cabinets and more!

- Make sure to install the batteries correctly

- To ensure that the adhesive tape sticks securely, never install it in damp or high-temperature environments.
- Do not mix new and old batteries. For better performance, AAA alkaline batteries are highly recommended.
- You won't need any hardware to install the 3M sticky pads. Push the light bar to the left and then remove it to change the battery. No need to remove the 3M sticky pads.
- 3M sticky pads cannot be reused. Do not change the installation position of the lamp. Please install it on a smooth, clean and dry surface. If you would like to change the position, you can contact us to get free 3M pads.

DON'T Install the Lights in the Following Situations:

Installed in moist
or damp places

Mounted near
heat sources

Mounted facing
towards air vents

● What if my light is defective?

If you are certain that the light is non-functional, please contact us and we'll provide a FREE replacement.

● Why does the light keep falling down?

Firstly, please make sure that you mount the light on a smooth and dry surface. If you're still having trouble, please contact us and we'll send you a FREE replacement.

● Why do the batteries drain so fast?

The service life of the battery mainly depends on its capacity and daily working time. For better performance, AAA alkaline batteries are highly recommended. If this doesn't meet your expectations, you can ask for a refund.

● Why is it hard to change batteries?

Push the light bar to the left and then remove it to change the battery. There is no need to remove the 3M sticky pads. It is easy to change and install the battery.

● Why is it so hard to remove the 3M sticky pads from where I installed it?

3M sticky pads are strongly sticky to prevent the light bar from falling off. If you want to remove the sticky pads, you can try as below:

1. Apply nail polish or industrial alcohol to the spot and then remove it.
2. Use a hairdryer to heat the spot and then remove it.

Installation Steps

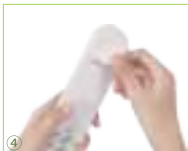

① Push the panel

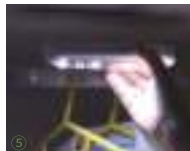

② Remove the panel

③ Install batteries

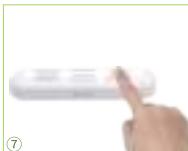

④ Snap the panel back

⑤ Mount the light on a smooth and dry surface

⑥ Push the light bar to the left and then remove it to change batteries

⑦ Turn on:
Touch the 2 metal pins

⑧ Turn off:
Touch the 2 pins again

Features

- 4 white LED bulbs for most favorable lighting environment.
- Light panel can be rotated for desired orientation
- 2 self-adhesive pads allow for easy installation
- Easy operation: simply touch the two metal pins on the front of light panel to switch on/off
- Powered by 3 AAA batteries (NOT INCLUDED)

Warnings

1. When the LED light dims, please replace the batteries for best performance.
2. Use new batteries only. NEVER mix old and new batteries.
3. DO NOT recharge non-rechargeable batteries.
4. Keep this product away from children under 3 years of age.

Specifications

- Tilt Function (180 degrees)
- Touch Operated Battery Cupboard Light
- 4pcs bright white LED
- Powered by 3pcs AAA batteries(not include)
- Detachable Back With 3M Sticky Pads
- Ideal areas to use the OxyLED Touch Light: Attic, Basement, Car, Chicken Cope, Child's room, Closet,
- Cupboard, Drawer, Emergency Supplies Storage Room, Garage, Green House, Hutch, Mailbox, Medicine
- Cabinet, Gun Safe, Storm Cellar, Storage Unit, Tool Shed, Vanity Mirror, Workstation

Tips

1. The OxyLED touch tap light is much brighter than ordinary tap lights, so the runtime is shorter than other dim lights. For very frequent use, powering the light with rechargeable Ni-MH AAA batteries (Not Included) is highly recommended.
2. Please make sure that the anode and cathode of battery has been installed correctly.
3. Do not change the light from one place to another, otherwise it will lose its stickiness.
4. Battery Not Included.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Eigenschaften

- 4 weiße LED-Lampen für günstigste Lichtumgebung.
- Licht Panel kann für die gewünschte Ausrichtung gedreht werden.
- 2 selbstklebende Pads ermöglichen eine einfache Installation.
- Einfache Bedienung: Berühren Sie zum Ein- und Ausschalten einfach die beiden Metallstifte an der Vorderseite des Lichtpanels.
- Angetrieben durch 3 AAA-Batterien (NICHT ENTHALTEN)

Warnungen

1. Wenn das LED-Licht schwächer wird, ersetzen Sie bitte die Batterien, um eine optimale Leistung zu erzielen.
2. Verwenden Sie nur neue Batterien. Mischen Sie NIEMALS alte und neue Batterien.
3. Laden Sie NICHT nicht wiederaufladbare Batterien auf.
4. Halten Sie dieses Produkt von Kindern unter 3 Jahren fern.

Spezifikationen

- Neigungsfunktion (180 Grad)
- Berühren Sie Batterieschrankbeleuchtung
- 4 Stück helle weiße LED
- Angetrieben durch 3pcs AAA-Batterien (nicht enthalten)
- Abnehmbarer Rücken mit 3M Klebe Pads
- Ideale Bereiche für die Verwendung des OxyLED Touch Lights: Dachboden, Keller, Auto, Hühnerstall, Kinderzimmer, Schrank, Schublade, Notvorratsraum, Garage, Gewächshaus, Stall, Briefkasten, Medikamentenschrank, Waffensafe, Gewitterkeller, Aufbewahrungsraum, Geräteschuppen, Kosmetikspiegel, Arbeitsstation

Tipps

1. Das OxyLED-Touch-Tap-Licht ist viel heller als gewöhnliche Touch-Lichter, daher ist die Laufzeit kürzer als bei anderen schwachen Lichtern. Für eine sehr häufige Verwendung wird dringend empfohlen, die Lampe mit wieder aufladbaren Ni-MH-AAA-Batterien (nicht im Lieferumfang enthalten) zu betreiben.
2. Vergewissern Sie sich, dass Anode und Kathode der Batterie korrekt installiert sind.
3. Lampe mit wieder aufladbaren Ni-MH-AAA-Batterien (nicht im Lieferumfang enthalten) zu betreiben.
4. Batterie nicht enthalten.

Caractéristiques

- 4 ampoules à LED blanches pour un environnement d'éclairage le plus favorable.
- Le panneau lumineux peut être pivoté pour l'orientation souhaitée.
- 2 rembourrages auto-adhésifs permettent une installation facile.
- Fonctionnement facile: il suffit de toucher les deux broches métalliques à l'avant du panneau d'éclairage pour allumer / éteindre.
- Alimenté par 3 piles AAA (NON INCLUSES)

Avertissements

1. Lorsque la lumière LED faiblit, veuillez remplacer les piles pour une performance optimale.
2. Utilisez des piles neuves uniquement. NE JAMAIS mélanger des piles anciennes et neuves.
3. NE PAS recharger des piles non rechargeables.
4. Gardez ce produit hors de la portée des enfants de moins de 3 ans.

Caractéristiques

- Fonction d'inclinaison (180 degrés)
- Lumière d'armoire de batterie à commande tactile
- 4pcs LED blanche brillante
- Alimenté par 3 piles AAA (non incluses)
- Dos détachable avec 3M rembourrage auto-adhésifs
- Zones idéales d'utilisation de la lampe tactile OxyLED : mansarde, sous-sol, voiture, poulailler, chambre d'enfant, armoire, placard, tiroir, remise de fournitures d'urgence, garage, serre, bahut, boîte aux lettres, armoire à pharmacie, abri à tempête, unité de rangement, cabane à outils, miroir de la coiffeuse, poste de travail

Conseils

1. La lumière à command tactile OxyLED est beaucoup plus lumineuse que les lumières ordinaires. Son autonomie est donc plus courte que celle des autres lampes faiblement éclairées. Pour une utilisation très fréquente, il est vivement recommandé d'alimenter la lumière avec des piles AAA Ni-MH rechargeables (non fournies).
2. Assurez-vous que l'anode et la cathode de la batterie ont été correctement installées.
3. Ne changez pas la lumière d'un endroit à un autre, sinon elle perdrait sa rigidité
4. Batterie non incluse.

Características

- 4 bombillas LED blancas para un entorno de iluminación más favorable.
- El panel de luz se puede girar para obtener la orientación deseada.
- 2 almohadillas autoadhesivas permiten una fácil instalación.
- Fácil uso: Simplemente toque los dos botones metálicos en la parte frontal del panel de luz para encender/apagar.
- Alimentado por 3 pilas AAA (NO INCLUIDAS)

Precacuciones

1. Cuando la luz LED se atenúe, reemplace las baterías para obtener un mejor rendimiento.
2. Utilice solo pilas nuevas. NUNCA mezcle pilas usadas y nuevas.
3. NO recargue pilas no recargables.
4. Mantener este producto fuera del alcance de los niños menores de 3 años.

Especificaciones

- ❖ Función de inclinación (180 grados)
- ❖ Luz de interior táctil con baterías
- ❖ 4pcs LEDs color blanco brillante
- ❖ Alimentado por 3 pilas AAA (no incluidas)
- ❖ Parte posterior desmontable con almohadillas adhesivas 3M Áreas ideales para usar la luz táctil OxyLED
- ❖ Áreas ideales para usar la luz táctil OxyLED : Áticos, sótanos, automóviles, gallineros, habitaciones infantil, armarios, cajones, almacenes de suministros de emergencia, garajes, invernaderos, aparadores, buzones de correo, botiquines, cajas fuertes para armas , unidades de almacenamiento, cobertizos para herramientas, espejos, estaciones de trabajo.

Consejos

1. La luz táctil OxyLED es mucho más brillante que las luces normales, por lo que el tiempo de ejecución es más corto que otras luces más tenues. Para un uso muy frecuente, se recomienda alimentar la luz con pilas recargables Ni-MH AAA (no incluidas).
2. Asegúrese de que el ánodo y el cátodo de la batería se hayan instalado correctamente.
3. No cambie la luz de un lugar a otro, de lo contrario perderá su adherencia.
4. Pilas no incluidas.

Caratteristiche

- 4 lampadine a LED bianche per l'ambiente per un' illuminazione migliore.
- Il pannello luminoso può essere ruotato per l'orientamento desiderato.
- 2 cuscinetti autoadesivi consentono una facile installazione.
- Facile funzionamento: basta toccare i due perni di metallo sulla parte anteriore del pannello luminoso per accendere / spegnere.
- Alimentato da 3 batterie AAA (NON INCLUSO)

Attenzione

1. Quando la luce del LED si attenua, si prega di sostituire le batterie per avere migliori prestazioni.
2. Utilizzare solo batterie nuove. Non mischiare MAI batterie vecchie e nuove.
3. NON ricaricare batterie non ricaricabili.
4. Tenere questo prodotto lontano da bambini di età inferiore a 3 anni.

Specifiche tecniche

- ❶ Funzione di inclinazione (180 gradi)
- ❷ Toccare il coperchio della batteria per l'illuminazione dell'armadio.
- ❸ LED bianco brillante da 4 pezzi.
- ❹ Alimentato da batterie AAA da 3 pezzi (non includere)
- ❺ Parte posteriore rimovibile con cuscinetti adesivi 3M.
- ❻ Zone ideali per l'uso della lampada touch OxyLED : soffitta, seminterrato, auto, pollaio, stanza dei bambini, armadio, comò, cassetto, deposito per forniture di emergenza, garage, serra, gabbia, cassetta postale, armadietto dei medicinali, cassaforte per armi , Cantina, unità di stoccaggio, deposito attrezzi, specchio cosmetico, postazione di lavoro.

Consigli

1. La luce a tocco OxyLED è molto più luminosa delle normali luci a tocco, quindi l'autonomia è più breve rispetto ad altre luci fioche. Per un uso molto frequente, si consiglia di alimentare la luce con batterie ricaricabili Ni-MH AAA (non incluse).
2. Accertarsi che l'anodo e il catodo della batteria siano stati installati correttamente.
3. Non cambiare la luce da un luogo all'altro, altrimenti perderà la sua viscosità.
4. Batteria non inclusa.
