Looking after your machine

In the box

Your machine is boxed in 2 parts:

1. Machine body
2. Cleaner head/tools

Machine body

Simply attach the cleaner head or tool to the front end of the main body or wand.

Soft roller head

Mini motorised tool

Crevice tool

Wand

The charger can be used independently or as part of the dock.

Dock

Caring for your floors

Check that the underside of the cleaner head or tool is clean and free from any objects that may cause damage.

Before vacuuming your flooring, rugs, and carpets, check the manufacturer's recommended cleaning instructions.

The brush bar on your cleaner head, or motorised tool, can damage certain flooring. Some rug materials may fuzz if a rotating brush bar is used when vacuuming. If this happens, we recommend vacuuming without the motorised floor tool and consulting with your flooring manufacturer.
