

Jabra Evolve2 85 - USB-C MS Teams Stereo - Black

Is my Jabra Evolve2 65/85 compatible with the built-in Bluetooth on my desk phone?

We do not officially support pairing the Jabra Evolve2 65/85 with the built-in Bluetooth on a desk phone. While you may be able to connect with a desk phone, the call control functions of the headset may be missing and the audio may not work as it should.
