Revision History

Version 1.11 (June 2022)

Version 1.11 software includes the following updates to the Series C Carrier® Infinity® System Control:

- System monitor implemented to prevent over conditioning including a high and low temperature alert
- WPA3 security compatibility for Wi-Fi connection
- Functionality added for selection of new evaporator V Coil in the discovery screens
- New Over The Air (OTA) Status Indicator on the idle screen to indicate new firmware is being downloaded
- Temperature compensation algorithm improved for better temperature accuracy

- Time synchronization corrected so it synchronizes immediately when enabled
- Equipment summary updated to reflect correct outdoor unit size with NIM application.
- SAM Module compatibility added
- Wi-Fi advanced options are now available
- "All zones hold" no longer results in a quick timeout on the main screen

Version 1.05 PRODUCTION (February 2, 2022)

Initial release
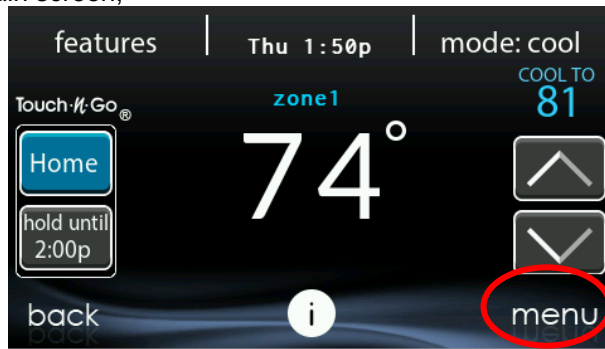

Installation Instructions

Finding the Current Software Version

The software installation process is Over The Air (OTA) only. The current software version may be determined as follows:
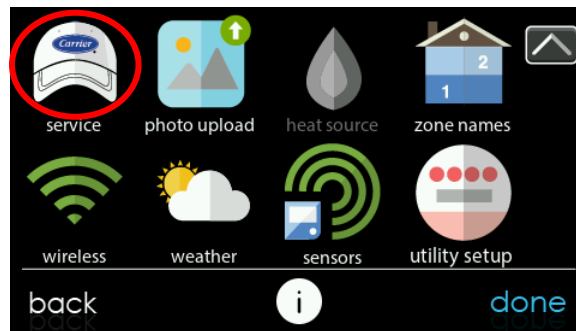

Press **menu** on the Main screen,

and then the down-arrow to go to the second menu screen.

Touch **service** icon.

Touch **model/serial numbers** on the resulting screen.

Touch **wall control** on the resulting screen.

View the Software Version number.

Software Version 131755-01.11, for example, is the production software version 1.11, released in July 2022.
