

Carlson®

MOTION SENSING TRANSMITTER
MODEL: HS2144T

FCC ID: DE4-HS2144T
IC: 2998A-HS2144T

This device complies with part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions: (1) this device must not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The term "IC:" before the radio certification number only signifies that Industry Canada technical specifications were met.

Dear Mr. Brunett,

It is permissible to have a device sold without a user's manual, as long as the labeling information (RSS-GEN section 5.2) and the applicable statements (RSS-GEN section 7.1.5) are on the device.

In this case, you do not need to provide a user's manual with your application.

Best regards,

Nicolas DesMarais

To: jdbrunett@gmail.com

Inquiry:

Please address the following two questions. 1) Is it permissible for a Part 15 device to be sold without a users manual (or other paper/electronic document) so long as all required statements (id number, rf hazard and interference warnings, etc...) are placed directly on the device? 2) If all required statements are placed on a device, must a users manual (or other paper/electronic document) be provided when applying for certification? Thanks. JDB

---Reply from Customer on 09/22/2006---

Just to verify I am understanding this correctly. Most applications require a users manual exhibit. However, that exhibit may be comprized of an ID label drawing or photograph, so long as that label clearly demonstrates all information required of the users manual for compliance. Please confirm. JDB

Response:

Your understanding is correct. Since the manufacturer does not supply an actual user manual, ! then they may use the product label which contains the required FCC information as a user manual exhibit.

Do not reply to this message. Please select the [Reply to an Inquiry Response](#) link from the OET Inquiry System to add any additional information pertaining to this inquiry.
