## Keyboard F-keys

User friendly enhanced F-keys let you launch applications easily. To use the enhanced functions, first press and hold the **FN** key, then press the F-key you want to use.

**FN** + **F1** = Launch Web browser

**FN** + **F2** = Launch Email application

**FN** + **F3** = Search

**FN** + **F4** = Launch calculator

**FN** + **F5** = Launch media player

**FN** + **F6** = Previous track

**FN** + **F7** = Play/pause track

**FN** + **F8** = Next track

**FN** + **F9** = Mute

**FN** + **F10** = Volume down

**FN** + **F11** = Volume up

**FN** + **F12** = Print screen

**Tip:** You can use the Logitech SetPoint™ software to reprogram **F1**, **F2**, and **F4** with your preferred features

## Visit Product Support

There's more information and support online for your product. Take a moment to visit Product Support to learn more about your new keyboard and mouse.

Browse online articles for setup help, usage tips, or information about additional features. If your keyboard has optional software, learn about its benefits and how it can help you customize your product.

Connect with other users in our Community Forums to get advice, ask questions, and share solutions.

## Troubleshooting

### Keyboard and mouse not working

- Check your keyboard and mouse are powered on.
- Check that the receiver is securely plugged into a USB port on your computer.
- If the receiver is plugged into a USB hub, try plugging it directly into your computer.
- Try plugging the receiver into a different USB port closer to your keyboard and mouse.
- Remove any metallic objects between the receiver and your keyboard and mouse.
- Check that you pulled the battery tab out of your keyboard and mouse.
- Check the orientation of the batteries. The mouse uses one AA alkaline battery and the keyboard uses two AAA alkaline batteries.
