»»» Above-Ground High
Rate Sand Filters

**SUPERIOR FILTRATION FOR POOLS
OF ALL SHAPES AND SIZES**

S144T 14" PROSERIES™ FILTER/SYSTEM

Economical solution for smaller above-ground pools.

- » Seven-position multiport control valve
- » Filtration system includes PowerFlo LX™ Series high-performance pump and one-piece base
- » Available as a system or a filter only

S166T 16" PROSERIES FILTER/SYSTEM

Larger unit designed to fit most above-ground pools.

- » Seven-position multiport control valve
- » Filtration system includes PowerFlo Matrix® or LX Series high-performance pump and one-piece base
- » Available as a system or a filter only

S180T 18" PROSERIES FILTER/SYSTEM

High-powered, high-capacity filtration for larger above-ground pools.

- » Seven-position multiport control valve
- » Filtration system includes PowerFlo Matrix or LX Series high-performance pump and one-piece, deluxe base
- » Available as a system or a filter only

S210T 21" PROSERIES FILTER/SYSTEM

Bigger solution for greater filtration in above-ground pools and small in-ground pools.

- » Seven-position multiport control valve
- » Filtration system includes PowerFlo Matrix or LX Series high-performance pump and one-piece, deluxe base
- » Available as a system or a filter only

S230T 23" PROSERIES SYSTEM

Ultimate system for large above-ground pools and small in-ground pools.

- » Seven-position multiport control valve
- » Filtration system includes PowerFlo Matrix or LX Series high-performance pump and one-piece, deluxe base
- » Available as a system only

WHY YOU SHOULD GO WITH THE PRO.

For a sparkling clear pool, ProSeries sand filters are better by design. Available in five different sizes, ProSeries filters are suitable for a variety of pools, and with corrosion-proof construction, they'll keep your water beautiful, season after season.

SEVEN-POSITION VALVE PUTS YOU IN CONTROL.

The ProSeries filter's patented multiport control valve—developed by Hayward®—is designed with seven different positions. An easy-to-use lever-action handle lets you quickly dial any function.

SUPERIOR FILTRATION FROM THE INSIDE OUT.

The self-cleaning underdrain assembly with 360° slotted laterals provides a fast, balanced flow of clear water back to the pool while allowing for more thorough backwashing.

LONG-LASTING CONVENIENCE.

You can easily access the ProSeries filter assembly for simple servicing via the unique folding ball joint in the laterals. A corrosion-proof housing protects the filter from severe weather, ensuring reliable operation for years to come.

PROSERIES SPECIFICATIONS

FILTER TYPE:	High-rate sand: No. 20 silica sand (.45 mm – .55 mm)
FILTER TANK:	Molded polymeric
UNDERDRAIN:	360° self-cleaning slotted laterals, precision installed in ball-joint assembly
CONTROL VALVE:	Seven-position, top-mount VariFlo® valve with lever-action handle
VALVE FASTENING:	Flange clamp design
PUMP AND MOTOR*:	PowerFlo LX or PowerFlo Matrix Series Pump – 115 volts
MOUNTING BASE:	Injection-molded thermoplastic

*Applies to systems only

FILTER PERFORMANCE DATA

MODEL NUMBER	EFFECTIVE FILTRATION RATE	DESIGN FLOW RATE	TURNOVER (IN GALLONS)	
			8 hrs.	12 hrs.
S144T	1.07 ft. ²	25 GPM	12,000	18,000
S166T	1.40 ft. ²	30 GPM	14,400	21,600
S180T	1.75 ft. ²	35 GPM	16,800	25,200
S210T	2.20 ft. ²	44 GPM	21,120	31,680
S230T	2.70 ft. ²	54 GPM	25,920	38,880

When provided with a 3-foot twist-lock cord.
