ACTION CAMERA

The Next Generation Action Camera Comes with TYPE-C & WIRELESS MIC

Why GoPro need RODE

but HIPPO camera doesn't

- **Freedom of movement**

The biggest advantage of a wireless microphone is its freedom of movement. Since a wireless microphone is not connected by any cable, the user does not get restricted by the length of the cable. It sends audio signals over the air, rather than through microphone cables.

- **Better sound quality**

All action cameras on the market have mediocre sound record performance, that's why people need an extra RODE. While HIPPO's vlogging camera equips with "RODE" already, so we don't need an extra RODE.

- **Adapt in all kinds of noisy environments**

With noise reduction, users can record vlogger's voice clearly. Don't worry about the background noise will ruin the video.

- **It hears your whisper**

Capture voice clearly even whispering. Vlog in public area like museum or restaurants freely.

A woman with vibrant blue curly hair is smiling while sitting on a white and blue inflatable paddleboard on a body of water. She is wearing a black athletic top. A GoPro camera is mounted on the front of the board, displaying a live feed of her. An orange paddle is positioned horizontally across the board. The entire scene is overlaid with a dense pattern of water droplets, suggesting a waterproof or water-resistant theme. The background shows a line of green trees under a clear sky.

A high-action photograph of a skier in a bright yellow and red racing suit, white helmet, and goggles, carving through deep snow on a mountain slope. The skier is leaning into a turn, kicking up a large cloud of snow. The background shows a clear blue sky and snow-covered mountain peaks. The text "Ultra 8K" is overlaid in the center in a large, white, sans-serif font.

About HIPPO

Shenzhen HIPPO Digital Co., Ltd. was established in 2014 by a team with 20 years of experience in the consumer electronics industry. The team members come from global Fortune 500 companies such as Foxconn, Xiaomi, Huawei, and TUV. HIPPO focuses on trendy and innovative 3C products, primarily specializing in wireless microphones, Bluetooth wireless earphones, and action cameras.

We adhere to the customer-centric principle, continuously pursue excellence and innovation, and provide customers with high-quality, reliable products, and professional cooperation support. Our outstanding product quality and service have gained strategic cooperation with globally renowned brand customers such as Costco, Celly, Noise, Aiwa, Vivitar, Nilox, Xiaomi, and Daiso. Multiple products developed in collaboration with our customers have become market bestsellers. Whether you are a large enterprise or a startup company, we warmly welcome partners to collaborate with us for mutual success.

HIPPO Digital is a committed factory for making best-selling products.

VALUE	MISSION	VISION
Integrity	To be a world-class enterprise	Intimate service for customers' satisfaction
Innovation		Well designed for users' favorite
Share		Happy culture for employees' happiness
		Sincere cooperation for partners' benefit
		Public-spirited for mankind peace
