For help, contact:

WEB: getconnected.honeywellhome.com

PHONE: 0300 130 1299

First step is to download the Honeywell Home-app from the App store or Google Play store:

Honeywell Home-app

Download on the App Store

GET IT ON Google Play

With the Honeywell Home-app your thermostat will be connected with your own **2,4 GHz Wi-Fi network** and registered to your account, after this you can control the thermostat remotely.

TIP Make sure you have a 2,4 GHz Wi-Fi network.
The thermostat does not work on 5 GHz networks. When in doubt, check with your Internet provider or modem settings.

---
