Product Parameters(English) 1.Frequency:20Hz-20kHz 2. Transmission distance:about 10 metres 3. Using time:about 3.5 hours 4. Charging compartment to headphone charging times: about 2 times 5. Charging time: about 1 hour for charging the charging compartment, about 1 hour for charging the headphones from the charging compartment Function: 1.On:Take out the earphone/long press the earphone multi-function button for three seconds to switch off. 2.OFF:Put back the headphones or long press the multi-function area for five seconds to switch off. 3.Play/Pause:Click the headphone multi-function area to play/pause the music. 4. Switch songs: When playing music, double-click the left earphone multi-function key for 2 seconds to switch to the previous song in the ringing "wow" sound at the same time double-click the right earphone multi-function key for 2 seconds to switch to the next song. 5. Answer the call: Click the left and right headset multi-function buttons. How to pair the headset: open the headset charging box, take out the two headphones, wait for the red and blue light flashing, one off a bright blue light, pairing success, and then connect to the mobile phone's Wireless device. Charging box operation instructions: 1. Headset into the charging box automatically shut down and automatically charge. Charging box to the headset charging 2-3 times using the equipped charging cable to charge the charging box. 2. Note: This product charging can not be used with fast charging function of the charging cable and charging head. Produktparameter(Deutsch) 1.Frequency:20Hz-20kHz 2. Transmission distance:about 10 metres 3. Using time:about 3.5 hours 4. Charging compartment to HeadsetLadenzeit: etwa 2 mal 5. de Ladezeit: ca. 1 Stunde für das Aufladen der Ladestation, ca. 1 Stunde für das Aufladen des Kopfhörers aus der Ladestation Funktion: 1.ein: Nehmen Sie den Kopfhörer heraus und drücken Sie die Multifunktions Taste des Kopfhörers 2.aus: Setzen Sie den Kopfhörer wieder auf oder drücken Sie die Multifunktions Taste fünf Sekunden lang, um ihn auszuschalten. 3. Reproduziere/Pause: Drücken Sie die Multifunktions Taste des Kopfhörers, um die Musik abzuspielen/anzuhalten. 4. umschalten: Wenn Sie Musik abspielen, doppelklicken Sie 2 Sekunden lang auf die linke Kopfhörer-Multifunktions Taste, um vom vorherigen Titel zu wechseln, und gleichzeitig doppelklicken Sie 2 Sekunden lang auf die rechte Kopfhörer-Multifunktions Taste, um zum nächsten Titel zu wechseln. 5. den Anruf annehmen: Klicken Sie auf die linke und rechte Headset-Multifunktions Taste. So koppeln Sie das Headset. Öffnen Sie die Headset-Ladestation, nehmen Sie die beiden Kopfhörer heraus, warten Sie, bis die roten und blauen Lichter blinken, ein helles blaues Licht leuchtet, das Pairing ist erfolgreich, und verbinden Sie sich dann mit dem Wireless-Gerät des Mobiltelefons. Anweisungen zur Bedienung der Ladebox: 1. die Kopfhörer in die Ladestation legen, schalten sich automatisch ab und laden sich automatisch auf. Ladebox zum Kopfhörer aufladen 2-3 mal mit dem mitgelieferten Ladekabel, um die Ladebox aufzuladen. (2) Hinweis: Dieses Produkt aufladen kann nicht mit Schnellladefunktion des Ladekabels und Ladekopf verwendet werden 製品パラメーター (日本語) 1.周波数: 20Hz-20kHz 2.伝送距離: 約10メートル 3.使用時間: 約3.5時間 4.充電コンパートメントによるヘッドフォン充電時間: 約2回 5.Charging時間: 充電コンパートメントの充電のための約1時間、充電コンパートメントからのヘッドフォンの充電のための約1時間 機能: 1.オン: ヘッドホンを取り出すヘッドホンの多機能ボタンを押すを押します。 2.オフ:ヘッドホンを入れ、またはヘッドホンの多機能ボタンを3秒間押し続けます。 3.再生/一時停止:ヘッドホンマルチファンクションエリアをダブルクリックして、音楽を再生/一時停止します。 4.曲の切り替え:音楽再生中、左/右ヘッドホンマルチファンクションキーを2秒間ダブルクリックすると、前の曲に切り替わり、同時に、右/左ヘッドホンマルチファンクションキーを2秒間ダブルクリックすると、次の曲に切り替わります。	Funktion: 1.ein: Nehmen Sie den Kopfhörer heraus und drücken Sie die Multifunktions Taste des Kopfhörers drei Sekunden lang. 2.aus: Setzen Sie den Kopfhörer wieder auf oder drücken Sie die Multifunktions Taste fünf Sekunden lang, um ihn auszuschalten. 3. The use of the device may cause harmful interference to radio communications; 159. The use of the device may cause harmful interference to radio communications; 160. The use of the device may cause harmful interference to radio communications; 161. The use of the device may cause harmful interference to radio communications; 162. The use of the device may cause harmful interference to radio communications; 163. The use of the device may cause harmful interference to radio communications; 164. The use of the device may cause harmful interference to radio communications; 165. The use of the device may cause harmful interference to radio communications; 166. The use of the device may cause harmful interference to radio communications; 167. The use of the device may cause harmful interference to radio communications; 168. The use of the device may cause harmful interference to radio communications; 169. The use of the device may cause harmful interference to radio communications; 170. The use of the device may cause harmful interference to radio communications; 171. The use of the device may cause harmful interference to radio communications; 172. The use of the device may cause harmful interference to radio communications; 173. The use of the device may cause harmful interference to radio communications; 174. The use of the device may cause harmful interference to radio communications; 175. The use of the device may cause harmful interference to radio communications; 176. The use of the device may cause harmful interference to radio communications; 177. The use of the device may cause harmful interference to radio communications; 178. The use of the device may cause harmful interference to radio communications; 179. The use of the device may cause harmful interference to radio communications; 180. The use of the device may cause harmful interference to radio communications; 181. The use of the device may cause harmful interference to radio communications; 182. The use of the device may cause harmful interference to radio communications; 183. The use of the device may cause harmful interference to radio communications; 184. The use of the device may cause harmful interference to radio communications; 185. The use of the device may cause harmful interference to radio communications; 186. The use of the device may cause harmful interference to radio communications; 187. The use of the device may cause harmful interference to radio communications; 188. The use of the device may cause harmful interference to radio communications; 189. The use of the device may cause harmful interference to radio communications; 190. The use of the device may cause harmful interference to radio communications; 191. The use of the device may cause harmful interference to radio communications; 192. The use of the device may cause harmful interference to radio communications; 193. The use of the device may cause harmful interference to radio communications; 194. The use of the device may cause harmful interference to radio communications; 195. The use of the device may cause harmful interference to radio communications; 196. The use of the device may cause harmful interference to radio communications; 197. The use of the device may cause harmful interference to radio communications; 198. The use of the device may cause harmful interference to radio communications; 199. The use of the device may cause harmful interference to radio communications; 200. The use of the device may cause harmful interference to radio communications; 201. The use of the device may cause harmful interference to radio communications; 202. The use of the device may cause harmful interference to radio communications; 203. The use of the device may cause harmful interference to radio communications; 204. The use of the device may cause harmful interference to radio communications; 205. The use of the device may cause harmful interference to radio communications; 206. The use of the device may cause harmful interference to radio communications; 207. The use of the device may cause harmful interference to radio communications; 208. The use of the device may cause harmful interference to radio communications; 209. The use of the device may cause harmful interference to radio communications; 210. The use of the device may cause harmful interference to radio communications; 211. The use of the device may cause harmful interference to radio communications; 212. The use of the device may cause harmful interference to radio communications; 213. The use of the device may cause harmful interference to radio communications; 214. The use of the device may cause harmful interference to radio communications; 215. The use of the device may cause harmful interference to radio communications; 216. The use of the device may cause harmful interference to radio communications; 217. The use of the device may cause harmful interference to radio communications; 218. The use of the device may cause harmful interference to radio communications; 219. The use of the device may cause harmful interference to radio communications; 220. The use of the device may cause harmful interference to radio communications; 221. The use of the device may cause harmful interference to radio communications; 222. The use of the device may cause harmful interference to radio communications; 223. The use of the device may cause harmful interference to radio communications; 224. The use of the device may cause harmful interference to radio communications; 225. The use of the device may cause harmful interference to radio communications; 226. The use of the device may cause harmful interference to radio communications; 227. The use of the device may cause harmful interference to radio communications; 228. The use of the device may cause harmful interference to radio communications; 229. The use of the device may cause harmful interference to radio communications; 230. The use of the device may cause harmful interference to radio communications; 231. The use of the device may cause harmful interference to radio communications; 232. The use of the device may cause harmful interference to radio communications; 233. The use of the device may cause harmful interference to radio communications; 234. The use of the device may cause harmful interference to radio communications; 235. The use of the device may cause harmful interference to radio communications; 236. The use of the device may cause harmful interference to radio communications; 237. The use of the device may cause harmful interference to radio communications; 238. The use of the device may cause harmful interference to radio communications; 239. The use of the device may cause harmful interference to radio communications; 240. The use of the device may cause harmful interference to radio communications; 241. The use of the device may cause harmful interference to radio communications; 242. The use of the device may cause harmful interference to radio communications; 243. The use of the device may cause harmful interference to radio communications; 244. The use of the device may cause harmful interference to radio communications; 245. The use of the device may cause harmful interference to radio communications; 246. The use of the device may cause harmful interference to radio communications; 247. The use of the device may cause harmful interference to radio communications; 248. The use of the device may cause harmful interference to radio communications; 249. The use of the device may cause harmful interference to radio communications; 250. The use of the device may cause harmful interference to radio communications; 251. The use of the device may cause harmful interference to radio communications; 252. The use of the device may cause harmful interference to radio communications; 253. The use of the device may cause harmful interference to radio communications; 254. The use of the device may cause harmful interference to radio communications; 255. The use of the device may cause harmful interference to radio communications; 256. The use of the device may cause harmful interference to radio communications; 257. The use of the device may cause harmful interference to radio communications; 258. The use of the device may cause harmful interference to radio communications; 259. The use of the device may cause harmful interference to radio communications; 260. The use of the device may cause harmful interference to radio communications; 261. The use of the device may cause harmful interference to radio communications; 262. The use of the device may cause harmful interference to radio communications; 263. The use of the device may cause harmful interference to radio communications; 264. The use of the device may cause harmful interference to radio communications; 265. The use of the device may cause harmful interference to radio communications; 266. The use of the device may cause harmful interference to radio communications; 267. The use of the device may cause harmful interference to radio communications; 268. The use of the device may cause harmful interference to radio communications; 269. The use of the device may cause harmful interference to radio communications; 270. The use of the device may cause harmful interference to radio communications; 271. The use of the device may cause harmful interference to radio communications; 272. The use of the device may cause harmful interference to radio communications; 273. The use of the device may cause harmful interference to radio communications; 274. The use of the device may cause harmful interference to radio communications; 275. The use of the device may cause harmful interference to radio communications; 276. The use of the device may cause harmful interference to radio communications; 277. The use of the device may cause harmful interference to radio communications; 278. The use of the device may cause harmful interference to radio communications; 279. The use of the device may cause harmful interference to radio communications; 280. The use of the device may cause harmful interference to radio communications; 281. The use of the device may cause harmful interference to radio communications; 282. The use of the device may cause harmful interference to radio communications; 283. The use of the device may cause harmful interference to radio communications; 284. The use of the device may cause harmful interference to radio communications; 285. The use of the device may cause harmful interference to radio communications; 286. The use of the device may cause harmful interference to radio communications; 287. The use of the device may cause harmful interference to radio communications; 288. The use of the device may cause harmful interference to radio communications; 289. The use of the device may cause harmful interference to radio communications; 290. The use of the device may cause harmful interference to radio communications; 291. The use of the device may cause harmful interference to radio communications; 292. The use of the device may cause harmful interference to radio communications; 293. The use of the device may cause harmful interference to radio communications; 294. The use of the device may cause harmful interference to radio communications; 295. The use of the device may cause harmful interference to radio communications; 296. The use of the device may cause harmful interference to radio communications; 297. The use of the device may cause harmful interference to radio communications; 298. The use of the device may cause harmful interference to radio communications; 299. The use of the device may cause harmful interference to radio communications; 300. The use of the device may cause harmful interference to radio communications; 301. The use of the device may cause harmful interference to radio communications; 302. The use of the device may cause harmful interference to radio communications; 303. The use of the device may cause harmful interference to radio communications; 304. The use of the device may cause harmful interference to radio communications; 305. The use of the device may cause harmful interference to radio communications; 306. The use of the device may cause harmful interference to radio communications; 307. The use of the device may cause harmful interference to radio communications; 308. The use of the device may cause harmful interference to radio communications; 309. The use of the device may cause harmful interference to radio communications; 310. The use of the device may cause harmful interference to radio communications; 311. The use of the device may cause harmful interference to radio communications; 312. The use of the device may cause harmful interference to radio communications; 313. The use of the device may cause harmful interference to radio communications; 314. The use of the device may cause harmful interference to radio communications; 315. The use of the device may cause harmful interference to radio communications; 316. The use of the device may cause harmful interference to radio communications; 317. The use of the device may cause harmful interference to radio communications; 318. The use of the device may cause harmful interference to radio communications; 319. The use of the device may cause harmful interference to radio communications; 320. The use of the device may cause harmful interference to radio communications; 321. The use of the device may cause harmful interference to radio communications; 322. The use of the device may cause harmful interference to radio communications; 323. The use of the device may cause harmful interference to radio communications; 324. The use of the device may cause harmful interference to radio communications; 325. The use of the device may cause harmful interference to radio communications; 326. The use of the device may cause harmful interference to radio communications; 327. The use of the device may cause harmful interference to radio communications; 328. The use of the device may cause harmful interference to radio communications; 329. The use of the device may cause harmful interference to radio communications; 330. The use of the device may cause harmful interference to radio communications; 331. The use of the device may cause harmful interference to radio communications; 332. The use of the device may cause harmful interference to radio communications; 333. The use of the device may cause harmful interference to radio communications; 334. The use of the device may cause harmful interference to radio communications; 335. The use of the device may cause harmful interference to radio communications; 336. The use of the device may cause harmful interference to radio communications; 337. The use of the device may cause harmful interference to radio communications; 338. The use of the device may cause harmful interference to radio communications; 339. The use of the device may cause harmful interference to radio communications; 340. The use of the device may cause harmful interference to radio communications; 341. The use of the device may cause harmful interference to radio communications; 342. The use of the device may cause harmful interference to radio communications; 343. The use of the device may cause harmful interference to radio communications; 344. The use of the device may cause harmful interference to radio communications; 345. The use of the device may cause harmful interference to radio communications; 346. The use of the device may cause harmful interference to radio communications; 347. The use of the device may cause harmful interference to radio communications; 348. The use of the device may cause harmful interference to radio communications; 349. The use of the device may cause harmful interference to radio communications; 350. The use of the device may cause harmful interference to radio communications; 351. The use of the device may cause harmful interference to radio communications; 352. The use of the device may cause harmful interference to radio communications; 353. The use of the device may cause harmful interference to radio communications; 354. The use of the device may cause harmful interference to radio communications; 355. The use of the device may cause harmful interference to radio communications; 356. The use of the device may cause harmful interference to radio communications; 357. The use of the device may cause harmful interference to radio communications; 358. The use of the device may cause harmful interference to radio communications; 359. The use of the device may cause harmful interference to radio communications; 360. The use of the device may cause harmful interference to radio communications; 361. The use of the device may cause harmful interference to radio communications; 362. The use of the device may cause harmful interference to radio communications; 363. The use of the device may cause harmful interference to radio communications; 364. The use of the device may cause harmful interference to radio communications; 365. The use of the device may cause harmful interference to radio communications; 366. The use of the device may cause harmful interference to radio communications; 367. The use of the device may cause harmful interference to radio communications; 368. The use of the device may cause harmful interference to radio communications; 369. The use of the device may cause harmful interference to radio communications; 370. The use of the device may cause harmful interference to radio communications; 371. The use of the device may cause harmful interference to radio communications; 372. The use of the device may cause harmful interference to radio communications; 373. The use of the device may cause harmful interference to radio communications; 374. The use of the device may cause harmful interference to radio communications; 375. The use of the device may cause harmful interference to radio communications; 376. The use of the device may cause harmful interference to radio communications; 377. The use of the device may cause harmful interference to radio communications; 378. The use of the device may cause harmful interference to radio communications; 379. The use of the device may cause harmful interference to radio communications; 380. The use of the device may cause harmful interference to radio communications; 381. The use of the device may cause harmful interference
