②
a   b

Step 4

① Insulation tape

Step 5

2 Install lampshades from top to bottom.

3 Turn on the power.

ON

Step 1: Locate the circuit breaker or fuse box that controls the power to the installation area. Switch off the power supply to avoid any electrical hazards during the installation process.

Step 2: Hold the included mounting bracket against the wall at the desired installation height. Use a pencil to mark the positions of the screw holes on the wall. Ensure that the bracket is level.

Using a drill, create holes in the marked positions on the wall. lnsert included anchors into the drilled holes to provide secure attachment points for the screws.

Step 3: Screw b through a and into the expansion screw.

Step 4: Connect the lamp wires to the reserved wires.

Step 5: Tighten the nut to fix the wall lamp.
