- Protects your sensitive areas

Durability

- Blades last up to 4 months*

Versatile

- So you can easily shave up or down

Highlights

Protects your sensitive areas

The SkinProtect blade gives an extra layer of protection from skin irritation for sensitive armpit and intimate skin.

Unique OneBlade Technology

Now our famous OneBlade technology is ready for your armpits and those intimate regions down below no matter how long you've let things grow. While the quick cutter mows through all that hair at a speed of 100x per second, the rounded edges and bridge of the skin protector and rounded tips protect your skin under there and down below.

Trim it down

Want to leave a little hair? Trim away your intimate and armpit hair anyway you want. Just click on the attachable 3mm trimming comb.

Easily shave in both directions

The dual-sided blade allows you to shave in both directions to easily reach those tricky spots, create clean lines or an extra touch of styling precisely where you want.

Shave wet or dry

Some like it wet, others like it dry. OneBlade Intimate is fully waterproof, with an IPX7 certification (up to 1m deep for 30 minutes). So feel free to shave while bathing or showering if that's what you prefer. Dry shaving works perfectly too, even without shaving foam. Rinse to clean under running water.

30 minutes runtime

The rechargeable Ni-MH battery delivers 30 minutes of constant performance. A complete recharge takes 8 hours.

Blades last up to 4 months*

Our blades are made from stainless steel that's durable enough to last up to 4 months*. That's just 3 times a year. To make life easier, create a reminder on your phone so you know when you need to buy a new blade. Because a sharp blade makes shaving those thick and curls quick and easy.

Charge anytime, anywhere

Keep your OneBlade Intimate charged and ready to shave, so you can maintain your intimate grooming routine wherever you happen to be at home, in a hotel, at a friend's.
