

Operating Instructions for Smart Sport Watch Product

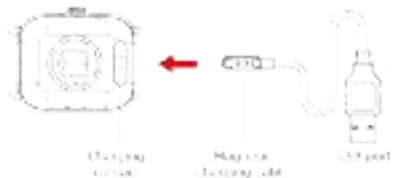

◆ Appearance Description

◆ Schematic Diagram of Charging

Operate in strict accordance with the following figures:

1. Please use the product-specific magnetic charging cable to charge by aligning it with the charging contacts on the back of the watch.
2. Do not use a power adapter with a voltage exceeding 5V and an output current exceeding 1A for charging, as this may cause charging failure and damage to the magnetic charging cable or the device.
3. Please activate the watch when it runs out of power before charging; the watch screen will only light up after about 5 minutes of normal charging.
