

SAFETY INSTRUCTIONS

- ⚠ Do not operate your air conditioner in a wet room such as a bathroom or laundry room.
- ⚠ Disconnect power cord before moving the appliance.

ELECTRICAL WARNINGS

- ⚠ The power supply must be of rated voltage with special circuitry for the appliance. The diameter of the power cord must comply with requirements.
- ⚠ It must be possible to disconnect the appliance from the power supply by unplugging. The appliance must be earthed in conformity with national electrical safety standards.
- ⚠ The use of a time-delay fuse or time-delay circuit breaker is recommended. All wiring must comply with local and national electrical regulations and be installed by a qualified electrician.
- ⚠ Do not use extension leads, multiple sockets or adapters. The electrical components must not be accessible to the user after installation. Do not use the appliance when you are wet or barefoot. Do not operate this appliance if it has a damaged power cable or plug, if it is not working properly, or if it has been damaged or dropped.
- ⚠ If the supply cord is damaged, it must be replaced with an identical one by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard-risk of electrical shock.
- ⚠ Ensure safe grounding and a grounding wire connected with the special grounding system of the building, installed by professionals. The appliance must be fitted with electrical leakage protection switch and an auxiliary circuit breaker with sufficient capacity. The circuit breaker must also have a magnetic and a thermal tripping function to ensure protection in case of short-circuit and overload.

Model	9K & 12K
Required capacity of circuit breaker	16A (Fuse Type: 9k A+ HPT, 3.15A/250VAC; Others, T5A/250VAC)

CLEANING AND MAINTENANCE

- ⚠ **WARNING:** Ensure that the appliance is switched off and disconnected from the power supply before performing any maintenance operation; never use steam cleaning equipment - risk of electric shock.

DISPOSAL OF PACKAGING MATERIALS

- The packaging material is 100% recyclable and is marked with the recycle symbol . The various parts of the packaging must therefore be disposed of responsibly and in full compliance with local authority regulations governing waste disposal.

DISPOSAL OF HOUSEHOLD APPLIANCES

- This appliance is manufactured with recyclable or reusable materials. Dispose of it in accordance with local waste disposal regulations. For further information on the treatment, recovery and recycling of household electrical appliances, contact your local authority, the collection service for household waste or the store where you purchased the appliance. This appliance is marked in compliance with European Directive 2012/19/EU, Waste Electrical and Electronic Equipment (WEEE). By ensuring this product is disposed of correctly, you will help prevent negative consequences for the environment and human health.

The symbol  on the product or on the accompanying documentation indicates that it should not be treated as domestic waste but must be taken to an appropriate collection center for the recycling of electrical and electronic equipment.

DECLARATION OF CONFORMITY

- The refrigerant gas being in a hermetically sealed system (R290, GWP 3). Please refer to the rating label for detailed information.
