---	----------------

- 备注:
1. 材质: 80G哑粉纸
 2. 印刷颜色: 1C
 3. 成型尺寸: 80x80mm
 4. 展开尺寸: 320x160mm
 5. 尺寸公差: $\pm 1\text{ mm}$
 6. 印刷偏位: $< 0.5\text{ mm}$
 7. 套印偏位: $< 0.35\text{ mm}$
 8. 成型工艺: 风琴折
 9. 所有成品及辅料符合欧盟
 10. 印刷油墨: (成品) 矿物油
- (1-7芳香环) 小于0.1%; N

9. 所有成品及辅料符合欧盟包装指令94/62/EC, 美国TPCH, 欧盟REACH

10. 印刷油墨(成品)矿物油含量满足MOSH(C15-C36)小于0.1%; MOAH (1-7芳香环) 小于0.1%; MOAH (3-7芳香环) 小于0.0001%

How It Works	
IT Computer Literacy is the ability to use computers and related technology efficiently, with different levels of skill and proficiency. It includes the following: • Basic Computer Skills: Understanding the components of a computer system (hardware and software), using the mouse and keyboard, and managing files and folders. • Internet Usage: Searching for information, using email, and understanding online safety. • Software Proficiency: Using common applications like word processors, spreadsheets, and presentation software. • Problem Solving: Troubleshooting common computer issues and seeking help when needed.	IT Literacy is the ability to use information technology to solve problems, communicate, and enhance learning. It includes the following: • Basic Computer Skills: Understanding the components of a computer system (hardware and software), using the mouse and keyboard, and managing files and folders. • Internet Usage: Searching for information, using email, and understanding online safety. • Software Proficiency: Using common applications like word processors, spreadsheets, and presentation software. • Problem Solving: Troubleshooting common computer issues and seeking help when needed.
II Communication Skills are the abilities that enable people to interact with others effectively. They include: • Verbal Communication: Speaking clearly, listening actively, and understanding non-verbal cues. • Written Communication: Writing clearly, concisely, and appropriately for the audience. • Non-verbal Communication: Understanding body language, facial expressions, and tone of voice. • Interpersonal Skills: Building rapport, showing empathy, and resolving conflicts.	Communication Skills are the abilities that enable people to interact with others effectively. They include: • Verbal Communication: Speaking clearly, listening actively, and understanding non-verbal cues. • Written Communication: Writing clearly, concisely, and appropriately for the audience. • Non-verbal Communication: Understanding body language, facial expressions, and tone of voice. • Interpersonal Skills: Building rapport, showing empathy, and resolving conflicts.
III Mathematical Skills are the abilities that enable people to understand and work with numbers and mathematical concepts. They include: • Basic Arithmetic: Addition, subtraction, multiplication, and division. • Algebra: Understanding variables, equations, and functions. • Geometry: Understanding shapes, angles, and measurements. • Statistics: Understanding data, graphs, and probability.	Mathematical Skills are the abilities that enable people to understand and work with numbers and mathematical concepts. They include: • Basic Arithmetic: Addition, subtraction, multiplication, and division. • Algebra: Understanding variables, equations, and functions. • Geometry: Understanding shapes, angles, and measurements. • Statistics: Understanding data, graphs, and probability.
IV Science Skills are the abilities that enable people to understand and work with scientific concepts and methods. They include: • Observation: Noticing and recording details about the world around us. • Questioning: Asking questions about the natural world and seeking answers. • Hypothesis: Making a prediction about the outcome of an experiment. • Experimentation: Testing a hypothesis through a controlled experiment. • Analysis: Examining the results of an experiment and drawing conclusions. • Communication: Sharing the results of an experiment with others.	Science Skills are the abilities that enable people to understand and work with scientific concepts and methods. They include: • Observation: Noticing and recording details about the world around us. • Questioning: Asking questions about the natural world and seeking answers. • Hypothesis: Making a prediction about the outcome of an experiment. • Experimentation: Testing a hypothesis through a controlled experiment. • Analysis: Examining the results of an experiment and drawing conclusions. • Communication: Sharing the results of an experiment with others.
V Artistic Skills are the abilities that enable people to create and appreciate art. They include: • Visual Arts: Drawing, painting, and sculpture. • Music: Playing instruments, singing, and composing. • Dance: Performing and choreographing. • Theater: Acting, directing, and set design. • Writing: Creative writing, poetry, and fiction.	Artistic Skills are the abilities that enable people to create and appreciate art. They include: • Visual Arts: Drawing, painting, and sculpture. • Music: Playing instruments, singing, and composing. • Dance: Performing and choreographing. • Theater: Acting, directing, and set design. • Writing: Creative writing, poetry, and fiction.
VI Physical Education Skills are the abilities that enable people to engage in physical activity and maintain a healthy lifestyle. They include: • Cardiovascular Fitness: Improving heart and lung health through aerobic exercise. • Muscular Strength and Endurance: Building muscle mass and the ability to sustain physical activity. • Flexibility: Increasing the range of motion in joints. • Balance and Coordination: Improving the ability to control the body during movement. • Teamwork and Sportsmanship: Learning to work with others and follow rules.	Physical Education Skills are the abilities that enable people to engage in physical activity and maintain a healthy lifestyle. They include: • Cardiovascular Fitness: Improving heart and lung health through aerobic exercise. • Muscular Strength and Endurance: Building muscle mass and the ability to sustain physical activity. • Flexibility: Increasing the range of motion in joints. • Balance and Coordination: Improving the ability to control the body during movement. • Teamwork and Sportsmanship: Learning to work with others and follow rules.
VII Language Skills are the abilities that enable people to communicate effectively in different languages. They include: • Listening: Understanding spoken language. • Speaking: Producing spoken language. • Reading: Understanding written language. • Writing: Producing written language. • Grammar and Vocabulary: Understanding the rules and words of a language.	Language Skills are the abilities that enable people to communicate effectively in different languages. They include: • Listening: Understanding spoken language. • Speaking: Producing spoken language. • Reading: Understanding written language. • Writing: Producing written language. • Grammar and Vocabulary: Understanding the rules and words of a language.
VIII Financial Literacy Skills are the abilities that enable people to manage their money effectively. They include: • Understanding Money: Knowing the value of money and how it is earned. • Budgeting: Creating a plan for how to spend money. • Saving: Putting money aside for future use. • Investing: Putting money into something that will grow over time. • Understanding Risk: Knowing the potential for loss or gain. • Understanding Credit: Knowing how to borrow money and the consequences of not repaying it.	Financial Literacy Skills are the abilities that enable people to manage their money effectively. They include: • Understanding Money: Knowing the value of money and how it is earned. • Budgeting: Creating a plan for how to spend money. • Saving: Putting money aside for future use. • Investing: Putting money into something that will grow over time. • Understanding Risk: Knowing the potential for loss or gain. • Understanding Credit: Knowing how to borrow money and the consequences of not repaying it.
IX Health and Safety Skills are the abilities that enable people to maintain a healthy and safe lifestyle. They include: • Personal Hygiene: Washing hands, brushing teeth, and taking showers. • Healthy Diet: Eating a balanced diet with fruits, vegetables, and whole grains. • Regular Exercise: Engaging in physical activity regularly. • Stress Management: Finding healthy ways to cope with stress. • First Aid: Knowing how to respond to common injuries. • Safety Awareness: Understanding potential hazards and how to avoid them.	Health and Safety Skills are the abilities that enable people to maintain a healthy and safe lifestyle.
