BATTERY HANDLING EQUIPMENT

BATTERY HANDLING EQUIPMENT

UNI-TUGGER

Designed to amplify a standard pallet truck, our universal tugger comes equipped with a linear actuator system, powerful electromagnet, and accommodations for various roll-off heights. Adaptable to your operational needs, the UNI-Tugger is outfitted with logical controls for efficient changing and finished in an acid-resistant powder coating to withstand harsh conditions.

The latest addition to our globally recognized BTE series, the UNI-Tugger lowers the risk of material damage and reduces strain on employees, ultimately improving productivity and streamlining changes.

FEATURES

- Variable speed joystick and emergency stop controls
 - Two handed controls for added operator safety.
- Roll-out height range
 - Designed to be used with customer's own host pallet truck which requires no additional power to operate the UNI-Tugger.
- Host pallet truck must have a lifting capacity of 1632lbs/740kg (for UTE-30) or 1821lbs/826kg (for UTE-36) + the heaviest battery to be changed
- Host pallet truck forks must be 1600mm long (minimum) x 550mm to 680mm wide
- Integrated lift using linear actuator system
- Simple and logical controls:
 - Forward/reverse, raise/lower controls by host truck
 - Intrinsic lift of 305mm built into the UNI-Tugger
 - Raise/lower via buttons on side of Variable Speed Joystick housing
 - Magnet bridge travel with variable speed joystick control
 - Magnet power on/off switch with 5-minute time-out
- 10-year warranty on the electromagnet!

PROSERIES®

BATTERY HANDLING EQUIPMENT

PRODUCT BENEFITS

- Compatible with a variety of battery sizes & roll-off heights
- Offers an “off the shelf” solution for a large part of the market
- Permanently bolted to host pallet truck
- Can be held in stock due to flexible capability
- Competitively priced

AVAILABLE OPTIONS (AT ADDITIONAL COST)

- Custom colour
- Fold down battery guide for narrow batteries
- Front safety gate, if local regulations specify
- 10-pole magnet available for batteries over 1,600 kg

PROSERIES®

BATTERY HANDLING EXPERTISE

Whatever the size of your battery fleet, PRO Series® battery handling solutions can help you streamline your battery changing operation with a safe, productive and cost-efficient system. From initial design, drawings and engineering through to complete installation and project management, PRO Series® battery handling solutions can support your operation with everything you'll ever need for effective battery charging and changing. Let us plan your success.

PRO Series® battery handling solutions include a range of systems and equipment that comply with health and safety regulations. Using the latest CAD software, we will design a system that matches the needs of your business. With PRO Series® battery handling solutions, you'll enjoy the highest degree of safety and ease of operation of any equipment available today – all backed by our skilled design and installation capabilities.

OUR EXCLUSIVE PARTNERSHIP WITH CARNEY BATTERY HANDLING LTD

Since 1984, Carney Battery Handling Ltd has globally provided EnerSys® with turn-key battery room solutions, sharing our mission to innovate, design, and create quality critical battery room solutions as dedicated partners.

Our dependable alliance allows us to provide dedicated support, delivering tailored engineering and design individualized for every customer.

With an emphasis on quality and safety, all our equipment is rigorously tested for real-world environments ensuring its readiness to meet the demands of any application.

**COMMITTED TO QUALITY
EVERYWHERE FOR EVERYONE.**

PROSERIES®

WHEREVER YOU DO BUSINESS, ENERSYS® CAN SUPPORT YOU WITH MOTIVE POWER ENERGY.

ABOUT ENERSYS®

EnerSys, the global leader in stored energy solutions for industrial applications, manufactures and distributes energy systems solutions and motive power batteries, specialty batteries, battery chargers, power equipment, battery accessories and outdoor equipment enclosure solutions to customers worldwide.

Energy Systems, which combine enclosures, power conversion, power distribution and energy storage, are used in the telecommunication, broadband and utility industries, uninterruptible power supplies, and numerous applications.

Motive Power batteries and chargers are utilized in electric forklift trucks and other industrial electric powered vehicles requiring stored energy solutions. Specialty batteries are used in aerospace and defense applications, large over-the-road trucks, premium automotive, medical and security systems applications.

EnerSys also provides aftermarket and customer support services to its customers in over 100 countries through its sales and manufacturing locations around the world. With the recent NorthStar acquisition, EnerSys has solidified its position as the market leader for premium Thin Plate Pure Lead batteries which are sold across all three lines of business.
