5.0 TROUBLESHOOTING

Main Light = Service / Warning Indicator:

Requirements for a service and user warnings are indicated after operation by the main light repeatable flashing OFF a number of times followed by a pause.

The below table identifies the issues and remedies

	Issue	Remedy
1	Normal operation (door is fully open)	
2	PE is preventing door from moving	Clear away any obstructions. Test Door. If unable to move the door and suspect beam is faulty, enter Safety Beam Emergency Close by pressing and holding a pre-coded transmitter button until the door closes.
3	Wireless PE battery is low	Change PE Battery
4	Maintenance is due after pre-set number of cycles.	Contact dealer to arrange service.
5	Standby battery is faulty	Contact 1300 769 850 within Australia for assistance.
6	Door was obstructed	Clear away any obstructions and test door opens/closes correctly. (if the door is damaged, contact a door professional)
7	Motor overloaded or stalled	Contact dealer to arrange a door service.

6.0 CARING FOR YOUR OPENER

Preventative servicing of your garage door and opener, is important. Your garage door is made up of numerous moving parts designed to lift and lower your door safely and efficiently.

Ongoing preventative servicing ensures that your door continues to function within factory specifications, greatly reduces the risk of failure and repair bills down the track and ensure you maintain your Warranty.

Refer to the installation manual for monthly testing procedures in Section 13 to ensure garage door is fit for use available [HERE](#) 

Online warranty details are available [HERE](#) 

7.0 NEED A SERVICE CALL?

If the opener needs a service please call the dealer who installed the garage door opener (their contact details are usually on a sticker on the back of your garage door).
