Ring Sizing Guide

TIPS FOR ACCURATE SIZING

1. Remember that your dominant hand may have a slightly larger finger, so measure the correct finger on the right hand.
2. Keep in mind that rings with wider bands may fit a bit snugger.
3. Ensure that the finger you're measuring is at its normal body temperature. Fingers can contract or expand in response to temperature changes.
4. Finger sizes can vary throughout the day, with the most stable measurement typically taken at the end of the day.
5. Ensure a snug fit when using the sizer for accurate measurements.

CONFIRM PRINTED PAPER SIZE

PLEASE NOTE

Before proceeding, use a ruler to measure and confirm the printed paper size is accurate. The above bars should precisely measure 2 inches or 50mm in length. If the measurements do not align, the ring size measurement will not be accurately completed.

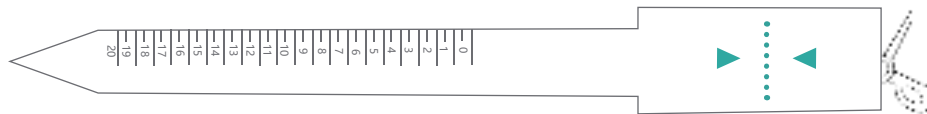

HOW TO MEASURE YOUR RING SIZE

Method 1: Print Your Sizer

What you'll need

- Scissors

1. Cut out the ring sizer below and cut a slit as indicated by the vertical line.
 2. Insert the pointy tip of the paper through the slit so the numbers are visible to you.
 3. Place the paper around the ring finger and gently tug until you have a secure, comfortable fit.
 4. Make note of the number that lines up with the slit - this is your ring size!
 5. Consider repeating steps 2 and 3 a few times to ensure accuracy.
- * Keep in mind that quarter sizes are also available if your sizer indicates that you are between whole and half sizes

Method 2: Create Your Own

What you'll need

- 3 inches of rope
- Permanent Marker
- straight ruler

1. Measure and cut a piece of string to at least 3 inches long.
2. Wrap it around the base of the finger you plan to wear your ring on.
3. Mark where the ends overlap.
4. Lay the string flat and use a ruler to measure the length in millimeters.
5. Use the Ring Size Conversion Chart below to find the corresponding ring size.

Method 3: Measure a Current Ring

What you'll need

- Scissors
- An existing ring

1. Choose a ring that correctly fits the finger you are purchasing the ring for. In the United States, the engagement ring and wedding band are most commonly worn on the left ring finger.
2. Lay the ring over each of the circles below until you are able to closely match the inside edge of the ring to one of the circles.
3. If the ring falls between two of the sizes, order the quarter size in the middle.

RING SIZE CONVERSION CHART

Measurements are equivalent to the interior circumference of the corresponding ring size

SIZE 3 44.2mm	SIZE 3.5 45.5 mm	SIZE 4 46.8mm	SIZE 4.5 48.0mm	SIZE 5 49.3mm	SIZE 5.5 50.6mm
SIZE 6 51.9mm	SIZE 6.5 53.1mm	SIZE 7 54.4mm	SIZE 7.5 55.7mm	SIZE 8 57.0mm	SIZE 8.5 58.3mm
SIZE 9 59.5mm	SIZE 9.5 60.8mm	SIZE 10 62.1mm	SIZE 10.5 63.4mm	SIZE 11 64.6mm	SIZE 11.5 65.9mm
SIZE 12 67.2mm	SIZE 12.5 68.5mm	SIZE 13 69.1mm
