WSD510B(易微联)温湿度说明书

Temperature & humidity Sensor

*Please read this manual carefully before use and keep it for future reference.

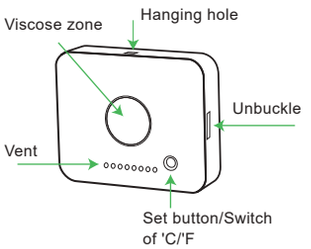
Installation mode: Wall mount/Place desk

Operating temperature: -9.9℃~+60℃

Operating humidity: Maximum 99%RH

Note:

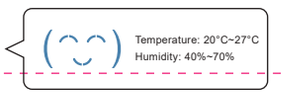
* Do not use in humidity over 90% for a long time.



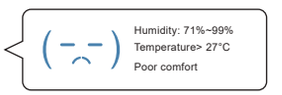
Set button:

Short press the reset button to report temperature and humidity; press the reset button twice to switch the temperature unit between Celsius and Fahrenheit; long press the reset button for 3 seconds to enter the network configuration mode.

※ **LCD**



The temperature and humidity are suitable for the comfort of the human body.



Product parameter

Input voltage: DC3V CR2032

Static current: ≤20uA

Working current: ≤15mA

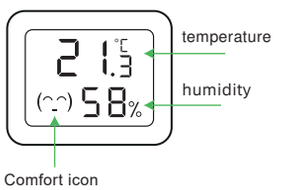
Low voltage: ≤2.5V

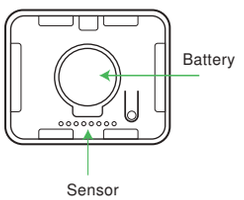
Zigbee: IEEE 802.15.4

Detection temperature: -9.9℃~+60℃

Detection humidity: 0-99%RH

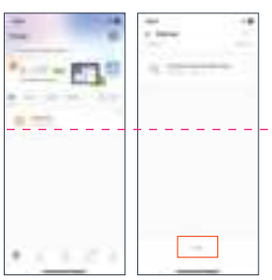
Appearance introduction





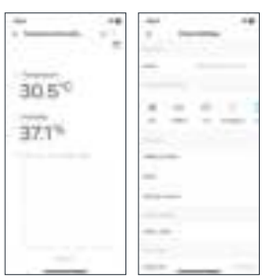
2 3 4

1. Register and log-in. click “+” on the top of right corner or middle at home page to add device, choose quickly to add, click one device → input WiFi password → search device manually → choose device to connect with gateway (gateway has to configuration success in advance)



2. Click enter Gateway homepage by APP → Add devices → Add new devices→ Long press “RESET” key of sensor by a pin for more than 5 seconds until the indicator light flashes quickly → Discovering nearby devices → Confirm

3. It shows a icon on homepage when the temperature humidity sensor connection success with Gateway , click icon to check datas of temperature and humidity.



4. Steps of connecting with Alexa echo, after registered, Echo adding success (must support Zigbee) → switch to “Devices" → choose “+” at right corner → Add Device → Choose“Thermostat” → other devices roll to bottom to find “Other” → Choose zigbee → Discover Devices → search automatically with 45 seconds when device in configuration state.

Notes:

① The sensor collects data once every minute.

② The data reporting time is every 30 minutes.

③ Temperature and humidity collection: temperature 0.5°C, humidity 5%.

5. Download “eWeLink” APP by APP store, or scan following QR code to download it（Zigbee sensor must be connected with gateway , Alexa or other devices to use）
