| | Skidamarink |

Running time: approx. 45 minutes

## FAVORITE CHILDREN'S SONGS

Hi! I'm **Playtime Puppy.** I like to sing songs that get you moving and grooving!

---

## Setting up your Toniebox

### Set up your Toniebox and start listening

Before you can use your new Toniebox, you must first set it up. You'll need a smartphone, tablet or computer to get started.

Download the free **mytonies** app and follow the step-by-step guide to set up your Toniebox.

App Store / Google Play

You can also visit **my.tonies.com/setup-toniebox**

You can always access your Tonies and Toniebox settings through your free Tonie-Account.

Find additional answers, instructions and video tutorials at: **support.tonies.com**

KEEP GOING · LET'S GO!

Tip: You need to keep the Toniebox within close range of your Wi-Fi signal during setup. The better the connection, the sooner you can start listening!

**You will need:**
- Toniebox and charger
- Tonie or Creative-Tonie
- Wireless network
- Access to the Internet

### Welcome to the Tonie-Universe

**Setting up your Toniebox is easy!**

Hi! I'm Playtime Puppy, one of the many Tonies compatible with your new Toniebox. Before you begin, I will walk you through a simple connection process. Your Toniebox will be up and running in no time!

*HI!*

---

## Using your Toniebox

### The Toniebox makes listening *easy.*

Using the Toniebox is so simple:

**How to turn your Toniebox on**
Pinch one of the ears with your thumb and forefinger or place the box on its charging station.

**Playing and pausing**
When the light on your Toniebox turns green, place a Tonie on top. Want to pause the story or song? Just remove the Tonie from the Toniebox. When you place your Tonie back on, it will pick back up from the same spot as long as another Tonie hasn't been played in between.
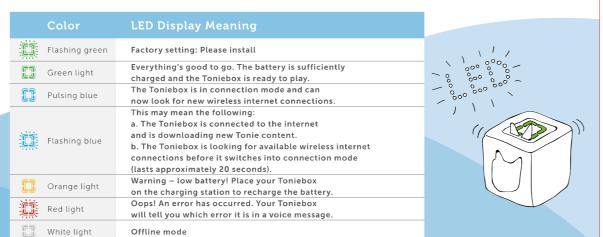

**How to turn the volume up and down**
Pinch the big ear to turn up the volume of the Toniebox. Use the little ear to turn it down.

YOU CAN SET THE MAXIMUM VOLUME AND MUCH MORE IN YOUR TONIE-ACCOUNT!

**Skip back and forth**
To skip back and forth between chapters, hold your Toniebox with one hand and tap on its side with the other. To fast-forward or rewind, tilt the box to one side.

**How to charge your Toniebox**
Even a Toniebox needs a little rest and relaxation sometimes. The LED will glow green when the battery is sufficiently charged. The LED lights up orange when the battery is low.

### LED display overview

The Toniebox has different LED indicators. Here's a brief overview:

| Color | LED Display Meaning |
|---|---|
| Flashing green | Factory setting: Please install |
| Green light | Everything's good to go. The battery is sufficiently charged and the Toniebox is ready to play. |
| Pulsing blue | The Toniebox is in connection mode and can now look for new wireless internet connections. |
| Flashing blue | This may mean the following: a. The Toniebox is connected to the internet and is downloading new Tonie content. b. The Toniebox is looking for available wireless internet connections before it switches into connection mode (lasts approximately 20 seconds). |
| Orange light | Warning – low battery! Place your Toniebox on the charging station to recharge the battery. |
| Red light | Oops! An error has occurred. Your Toniebox will tell you which error it is in a voice message. |
| White light | Offline mode |

---

## Need help?

Here are a few tips to get you started.

For additional help visit: **support.tonies.com**

### Quick troubleshooting tips

**Tip 1: The classic restart**
If your Toniebox is having a hard time, sometimes a restart will do the trick. To restart, remove your Toniebox from the charging station, turn it on its head and press both ears until you hear a sound (approximately 10 seconds).

**Tip 2: Reset the Toniebox to its factory settings**
As a last resort, you can reset your Toniebox to its factory settings. **To do this, turn both the Toniebox and its connected charging station upside down.** Press both ears of the Toniebox until you hear a sound (approximately 10 seconds). **Warning:** By resetting your Toniebox to factory settings, all network connections, contents and settings will be deleted.

**Tip 3: Check the support code word**
In the event of a more complex problem, your Toniebox will provide a code word. You can find out what it means and how to resolve the problem by calling our support line at **877-MY-TONIES** (877-698-6643) or by visiting **support.tonies.com**
