Game is in English only.

**OBJECT OF THE GAME**
Follow the lights and move the sticks up, down or shake 'em. It's that simple. Or is it?
Pay attention and don't get your signals crossed!

**CONTENTS**
1 pair of light sticks

**SET UP**
Install 3 AAA batteries.

**BATTERY INSTALLATION**
- Requires 3 AAA (LR03) batteries (not included).
- Unscrew the battery cover with a Phillips head screwdriver (not included).
- Install 3 new AAA (LR03) batteries in the orientation (+/-) shown.
- Replace battery cover and tighten screw.
- Replace the batteries if sounds distort.
- For longer life, use alkaline batteries.
- When exposed to an electrostatic source, the product may malfunction.
- To resume normal operation, remove and re-install the batteries.

Please keep these instructions for future reference as they contain important information.

**NOTE:** Once you start a game, you cannot change the volume.

---

**GAME MODES**

**LIGHT PURSUIT**

**Players:** 1-4

**To Play:** Follow the light commands. Move in the wrong direction and the turn ends. If you complete a level, the next level will automatically start.

**Winning:** The player with the highest score wins!

**Go-No-Go**

**Players:** 1-4

**To Play:** How many points can you get in 1 minute? Follow the light commands. The game won't stop when you make a mistake, but you also won't earn points.

**Winning:** The player with the highest score wins!

**SPEED SIGNALS**

**Players:** 1-4

**To Play:** Follow the light commands only if the game says, "GO!" If the game says, "NO!" hold the sticks still. If you make a wrong move, the game ends. If you complete a level, the next level will automatically start.

**Winning:** The player with the highest score wins!

---

1. Turn the switch on the back of the Right Stick to the "on" position.
2. Raise or lower the Left Stick to adjust the volume.
3. Raise or lower the Right Stick to hear the game modes. Press the red button to select.
4. Raise or lower the Right Stick to select the number of players. Press the red button to select.
5. Raise or lower the Right Stick to choose a level. (This is for Light Pursuit, Speed Signals and Go-No-Go only.) Press the red button to select.

**NOTE:** Once you start a game, you cannot change the volume.
