FCC Notice:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

START GUIDE

What's in the Box

- Smart Wi-Fi Outdoor Camera

- USB Cable

- Mounting Kit (Screws + Wall Anchors)

- Power Adapter

- User Manual

Get Ready

- Know your Wi-Fi network and password

iOS 13

Android 10

- Make sure your mobile device is running iOS® 13 or higher or Android™ 10 or higher

2.4GHz

- Make sure you're connecting to a 2.4GHz Wi-Fi network (**Camera can't connect to 5GHz networks**)
- a microSD card can be used to save recorded footage but is not required

STEP 1

- Download the **MERKURY SMART** app from App Store or Google Play.

- Register an account on your Mercurry Smart app.

01.

Enter your email address.

02.

Enter the verification code and create a password.

03.

Log in to the App.

Resetting Device

Reset the Camera by pressing the reset button for 10 seconds.

Spotlight On
Starting Up

Spotlight Flashing
Ready to connect

Spotlight Off
Connected

STEP 1

■ Setup Camera

01.

If you would like to use the included installation mount kit, you can screw in the base of the camera using the included screws and anchors. Refer to the drawing.

Mounting Kit

■ Plug In

01.

Unfold the included antenna so that it is pointing upwards for an optimal signal.

02.

Use the included 2 screws and wall anchors to mount the camera to the desired wall.

03.

Adjust the camera to the desired angle and direction.

04.

Plug camera into power source using the included USB cable. The spotlight will turn on when starting up, but will turn off when connected. If it's not flashing, please reset the camera using the reset button located on the USB cable.

Spotlight Flashing
Ready to connect

STEP 2

■ Add device:

01.
Be sure to reset camera
by pressing the reset
button for 10 seconds.

02.
In the app, tap the
“Devices” tab on the
bottom and tap “+”
in the top corner of the
Devices screen.

03.
Choose “Wi-Fi Camera”
and enter your Wi-Fi
details.

04.
Scan the QR code with
the camera. When you
hear the camera beep,
select ‘I heard the sound’
and it will add your
camera.

■ Connect Wi-Fi & QR scan:

05.
The spotlight will turn
off when the device has
connected successfully!

NOTE: This camera can't
connect to 5GHz networks.

■ Pairing Device

06.
The app will attempt to connect. This may take a few moments.

STEP 3

■ Add tiles:

01.
Upon successful pairing, a tile for the camera will automatically be added to the dashboard. You can add tiles with the "+" on the Home page or resize, organize, and remove tiles by tapping "Edit".

02.
Press the camera tile to view a live stream from the camera.

SETTINGS

■ Access Camera Settings:

From your main device list, click the camera you want to edit, then click Device Settings.

■ Device Name:

Device Name to rename your camera to something like "Family room" or "Back hallway", then click Save.

■ Motion Zones:

Click Motion Zones and then click on each square to deactivate or activate that zone from detecting motion, then click Save.

■ Rotate image:

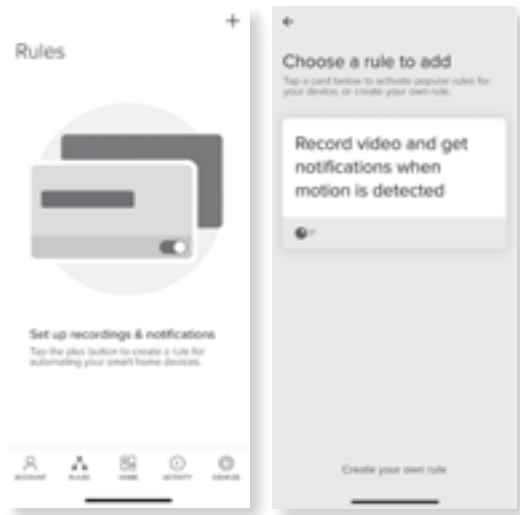

If you mount your camera upside down, toggling this switch will rotate the image so that it's right side up.

■ Remove Device:

Delete the camera from your account. Until it's deleted, it will always be linked to your account.

RULES

Create Motion & Sound Detection Rules

01.
Select the "Rules" tab on the bottom navigation bar and tap the "+" at the top corner of the screen.

02.
You can use a recommended rule, like "Record video and get notifications when motion is detected", or create your own.

Frequently Asked Questions

- **How can I share videos with family and friends?**
Select the "Activity" tab on the bottom navigation bar and view an activity to share with others. Use the "Share" button to choose how you want to share the activity event.
- **How do I customize my dashboard?**
Select the "Edit" option on the top of "Home" page. Create additional pages on your dashboard by dragging tiles to the right and organize devices to fit how you use them.
- **How Many Devices Can I Control?**
Merkury Smart app can control an unlimited amount of devices in an unlimited amount of locations. Your router may have a limit of how many devices can be connected to one router.
- **How do I rename my device?**
From your main device list, click on the device you want to rename, then click "Device Settings", then click on "Device Name". Rename your device to a more familiar name like "Bedroom" or "Living Room" and then click Save.
- **The device appears offline or unreachable, what should I do?**
Make sure your Wi-Fi router is online and in range. Make sure your device is plugged in and paired. You may also try restarting the device or if needed, re-pairing it.
- **What's the Wireless Range?**
The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.
- **If my Wi-Fi/Internet goes down, will my devices still work?**
Merkury products need to be connected to Wi-Fi in order to use them remotely.

Troubleshooting

■ Cannot connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, try moving device closer to the router or reset your Wi-Fi router and try again.

Reset the device

- Reset the Camera by pressing & holding reset button until the LED blinks alternating slowly and quickly.

System Requirements

- Mobile device running iOS® 13 or higher or Android™ 10 or higher
- Existing Wi-Fi Network

Technical Specifications

- Camera: up to 1080p (1920 x 1080) at 15 frames/sec.
- H.264 encoding
- Field of View: 105° diagonal
- Audio: Internal Speaker and Microphone
Storage: supports up to 128GB microSD card (not included)
- Wi-Fi not compatible with 5GHz Wi-Fi networks.

VOICE CONTROL GUIDE

Thank you for purchasing your Mercury Smart home product. Make sure your devices are already set up using the app, then follow these steps.

Name and Control Each Device by Voice

Contents

■ Voice Control Guide	
Google Assistant	14
Amazon Alexa	16

To control your Merkurs Smart home products, just say "OK Google," or "Hey Google," and ask. Make sure your devices are already set up using the app.

Things you can say*:

"Hey Google, show me the Living Room Camera."

"Hey Google, what's on Kid's Room Camera?"

*Some commands require compatible devices.

Stream to:

Google Home Hub, Google Assistant Smart Displays, Google Nest Hub, and any Google Chromecast-enabled TV, screen, or PC

01

- Open the Google Home app and go to Home Control in the menu.

02

- Tap the "+" button.

03

- Choose **Merkury Smart** from the list of Home Control partners.

04

- Authorize your account with Google Assistant using the username and password from your app.

Now your Google Home app and Merkurs devices are linked!

You're now able to say "Hey Google" and control your Merkurs devices.

- At any time, go into the "Home Control" section of the Google Home app to set nicknames and rooms for your devices. **You can rename your devices in the Merkurs Smart app, and Google Assistant will refer to them by the same name.**

So if you rename a camera to 'Living Room Camera' or 'Baby's Room,' then Google Assistant will use that same name later on. You can always give it a nickname using the Google Home app as well.

Google Assistant will be able to control devices by room.

To control your Mercury smart home products, just ask Alexa. Make sure your devices are already set up using the Mercury Smart app.

Things you can say*:

Stream to:

"Alexa, show Living Room Camera."
"Alexa, show me the kids room Camera."

Amazon Echo Show, Amazon Fire TV, and any Alexa-enabled TV or screen.

*Some commands require compatible devices.

01

- Open the Alexa app and go to Skills in the menu.

02

- Search for Mercury Smart Cam then tap Enable.

03

- Authorize your account with Smart Home Skills using the username and password from your Mercury Smart app.

04

- Choose "Discover Devices." After a few seconds your Mercury devices will be displayed under Smart Home in the Alexa app.

Discover Devices

Smart Home devices must be discovered before they can be used with Alexa.

- You can rename your devices in the app, and Alexa will refer to them by the same name.

So if you rename a smart Cam to "Living Room" or a nickname like a smart camera to "Living Room Camera" or "Baby's Room,"

Alternatively, you can create an Alexa group, like "Bedroom" or "Downstairs," and add the device to the group.

Alexa will recognize the group name in the Alexa app, or the device name in the Mercury Smart app.
