Tighten all bolts in this step

STEP 22

STEP 23

STEP 24

STEP 25

STEP 26

Remove the plastic pad on the remote control after the installation was complete and start the remote operation without direction restriction.

You can use the remote to control the light. The LED lamp can only be used after the power supply is connected.

STEP 27

Warning Label:

CAUTION: MIND YOUR HEAD

- .When lifting or lowering the bed frame, it can only support items weighing less than 110 pounds.
- .When lifting or lowering the bed frame, keep a safe distance between the body and the frame to avoid injury.
- .Ensure that there are no people or objects interfering with the bed's sides or footboard when lifting or lowering the bed frame to avoid any dangers.
- .Before entering underneath the bed, make sure the bed frame is lifted to its highest position and confirm it will not drop after being released.

- .When the bed frame is used flat, the load-bearing capacity of the bed frame is 900 pounds; when the bed frame is lifted, the load-bearing capacity is 110 pounds.
- .When lifting the bed to use the storage function, please note that the maximum weight limit is 110 pounds, and the external force pressing is strictly prohibited to prevent the bed frame from falling and causing injury.

- .When using the storage function, please ensure that the upper and lower areas of the bed are safe and free of any biological traces to prevent injury.
