Packaging has to be kept since it contains important information.

Rechargeable batteries are only to be charged by adults or by children at least 8 years.

The toy must only be used with a transformer for toys.

The transformer is not a toy.

The toy is only to be connected to

Class II power sources with symbol . The transformer/charging unit (not included) should be regularly examined for potential hazard, such as damage to the cable or cord, plug, enclosure of other parts and if in the event of such damage, the toy must not be used until that damage has been repaired.

Minimum transformer specification -

Input: 100-240V 50-60Hz. Output: 5V 1A

Recommended transformer specification -

Input: 100-240V 50-60Hz. Output: 5V 2A

FCC Statement: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference; and (2) this device must accept any interference received, including interference that may cause undesired operation.

CAUTION: This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio communications, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

• You are cautioned that any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

CAUTION: This Class B digital apparatus complies with Canadian ICES-003.

Important Notes Notes Importantes

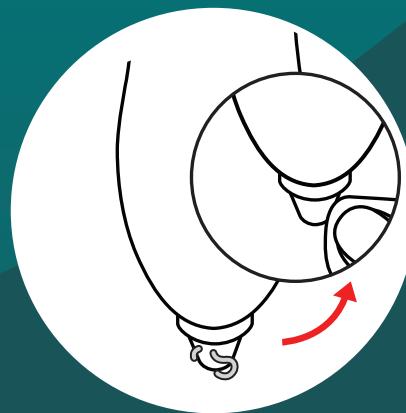

Extruded plastic cannot be reused.

Le plastique extrudé ne peut être réutilisé.

Snip the tip of a partially-used plastic strand before re-inserting into the pen.

Coupez le bout extrudé du bâtonnet avant de le réintroduire dans votre 3Doodler.

If you have trouble extruding, try cleaning away any plastic that may be stuck to the nozzle while the pen is switched on.

Si vous avez des soucis à l'extrusion, enlevez les résidus de plastique de la buse quand votre stylo est chauffé.

Start and Stop Démarrer et Arrêter

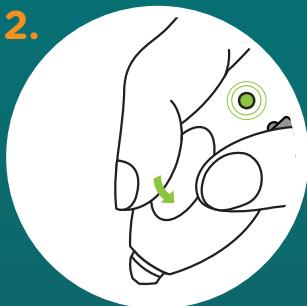

1.

Once the pen is turned ON, wait for the light to switch from SOLID RED to SOLID GREEN before Doodling.

Pour mettre en marche votre stylo 3D, glissez le bouton de OFF (arrêt) à ON (marche). Attendez que la lumière devienne VERTE.

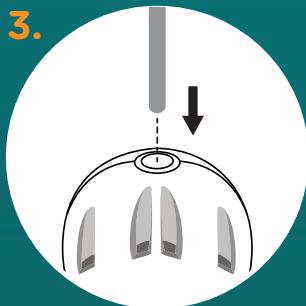

2.

Click the button once to start your pen. The LED light will SLOWLY FLASH GREEN to show that your pen is active.

Appuyez le bouton pour démarrer votre stylo. La lumière clignotera VERT pour indiquer que le stylo est prêt à utiliser.

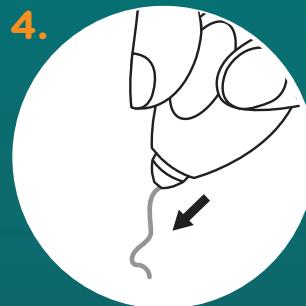

3.

Insert a strand of plastic into the back of the pen until you feel it grip.

Insérez un bâtonnet de plastique dans la partie arrière du stylo jusqu'à ce que vous sentiez que cela accroche.

4.

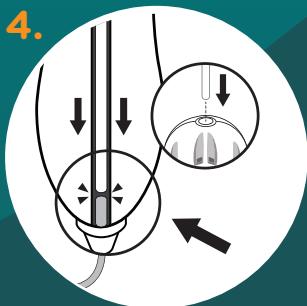

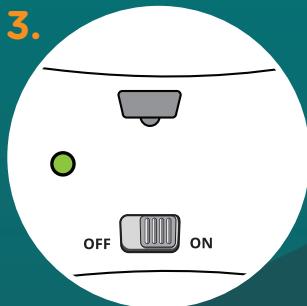

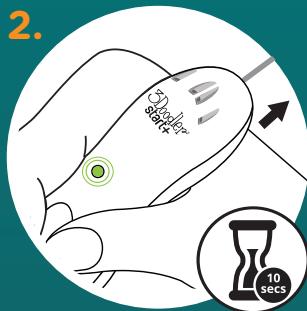

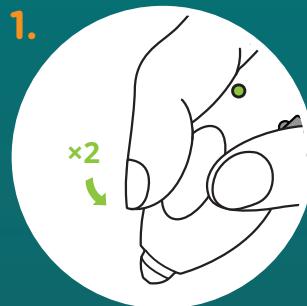

After a few seconds, you should see plastic appear from the Nozzle of your 3Doodler Start+. Click the button again to stop pen.

Après quelques secondes, le plastique fondu sortira de l'embout (la buse) du stylo 3Doodler Start+. Appuyez à nouveau sur le bouton pour arrêter le fonctionnement du stylo.

How to Reverse Plastic

Comment Retirer Le Râtonnet De Plastique

While your pen is idle and the LED is SOLID GREEN, DOUBLE CLICK the button on your 3Doodler Start+.

Lorsque le stylo Start+ est à l'arrêt et la lumière Verte, DOUBLE-CLIQUEZ sur le bouton de votre stylo 3D.

The plastic will reverse for around 10 seconds. The LED light will quickly FLASH GREEN while reversing.

Le bâtonnet de plastique ressortira pendant environ 10 secondes. La LED verte clignotera rapidement pendant la sortie du bâtonnet.

Once reversing is complete, the LED light will change to SOLID GREEN.

Lorsque que l'opération est terminée , la LED restera sur vert fixe.

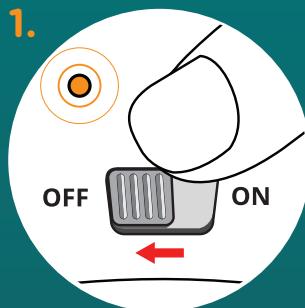

NOTE: If your plastic strand is too short to fully reverse you will be unable to remove it. Instead of reversing, please use another strand of plastic to push it through the pen until it is used up.

ATTENTION: Si votre bâtonnet de plastique est trop court, vous ne pourrez pas le retirer. Au lieu de le retirer, utilisez un autre bâtonnet de plastique pour le pousser.

How to Charge your 3Doodler Start+ Comment Charger Votre Stylo Start+

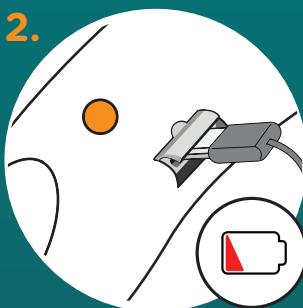

1.

When the pen's battery is running low, the LED light will SLOWLY FLASH ORANGE. Turn off your 3Doodler Start+ and charge it at your earliest convenience.

Lorsque la batterie de votre stylo Start+ est faible la LED deviendra orange et clignotera lentement. Glissez le bouton sur OFF pour éteindre le stylo 3D.

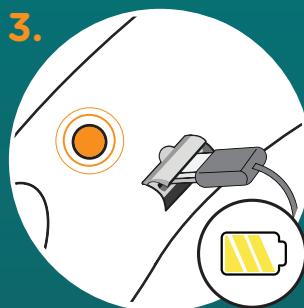

2.

Connect your 3Doodler Start+ to a power source using a micro USB cable (as provided).

Branchez votre stylo Start+ à une source d'énergie grâce au câble micro USB fourni.

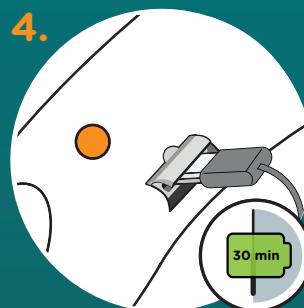

3.

The LED light will FAST FLASH ORANGE while charging.

La LED orange clignotera rapidement pendant la durée de chargement.

4.

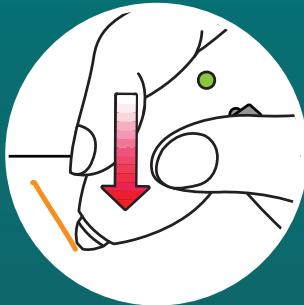

When your 3Doodler Start+ is fully charged, the LED light will stop flashing and change to SOLID ORANGE.

Quand le stylo Start+ sera complètement chargé, la LED arrêtera de clignoter et restera orange.

Tips & Tricks

Astuces

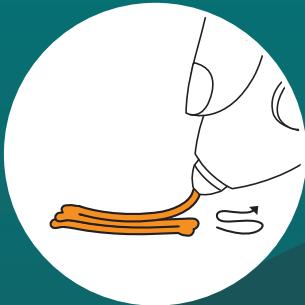

If you want your plastic to stick to surfaces (for example paper), or stick to other Doodles, push your 3Doodler Start+ into the surface or into the other Doodle while Doodling.

Si vous voulez que votre bâtonnet colle à des surfaces (sur le papier par exemple), ou sur une autre création, pressez votre stylo Start+ sur la surface ou sur une de vos créations pendant que vous dessinez.

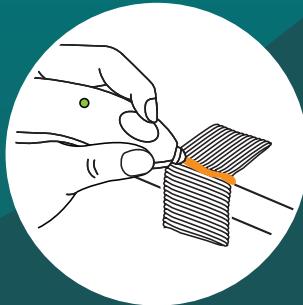

To get the exact shape you want, wait a few seconds after the plastic comes out of the nozzle, then mold and shape your Doodles for a few more seconds before they harden.

Pour obtenir la forme exacte que vous souhaitez, vous pouvez utiliser vos doigts pendant quelques secondes après que le plastique soit sorti de la buse du stylo 3D.

Want to strengthen your Doodles? Try layering! The more plastic you add, the stronger your Doodles will be.

Vous voulez renforcer vos créations? Essayez de faire plusieurs couches! Plus vous ajouterez de plastique plus vos créations seront solides.

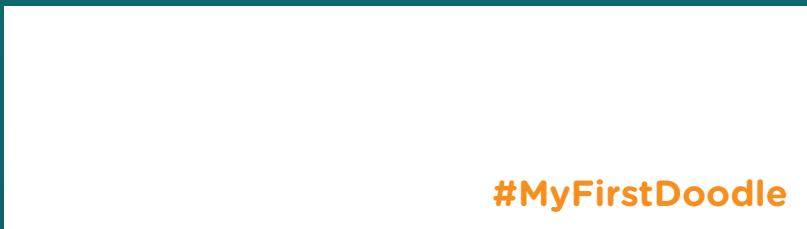

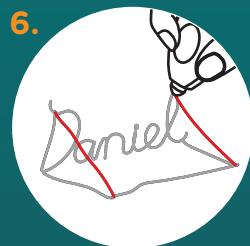

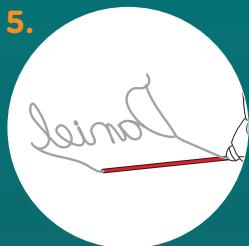

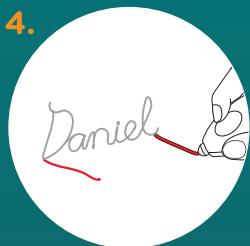

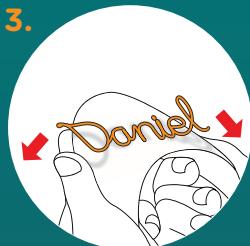

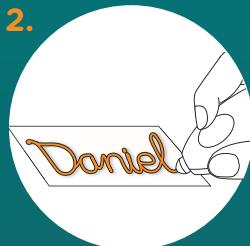

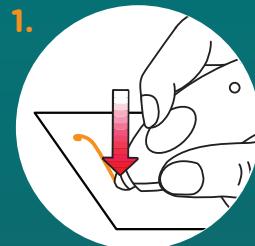

Join two shapes using a table edge.

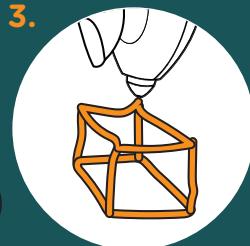

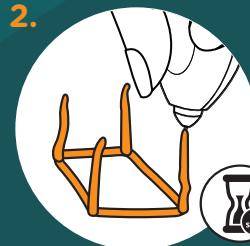

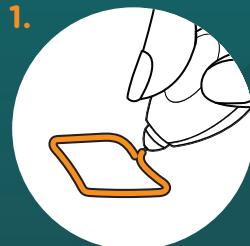

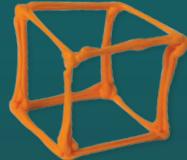

Joindre deux formes en utilisant un coin de table.
