AW5908		https://www.aliexpress.us/item/3256805238916685.html	• 1 Mins DIY: The camera uses a strong magnet mount, no drilling, no wiring or no professional installation skills required! To install this wireless backup camera kit, you don't need any tools! Even a 4-year-old boy can do it! • Powered By the Sun: 9000mAh larger battery capacity, both the monitor and the camera will show the battery status; If solar panel receives 30 mins daily exposure to the sunlight, only charge it once a year. Even in the rainy season, it can last for 3 months of average use (2-3 times per day). Besides, you could charge it via power outlet (micro usb input port). • Top transmission distance: 100 meters. • Real-time image & 100% No Interference: When you're driving, you can trigger the monitor on with an easy press and easily see what's behind your car. Images are smooth without any flicker. It delivers digital signals which will not be interfered with other devices, such as Bluetooth. • Loop Recording: New recordings automatically overwrite older footage when the memory card reaches full capacity. • IPS Monitor: Excellent 178° Full-view display technology • Can display 2 screens at the same time: this kit supports adding 2 same camera. • IR Night Vision: Safely backing up without any lights. The visible distance is greater than 20 meters, automatic gain control, auto white	5 inch monitor: \$35 solar wireless camera: \$54 (camera 1-2PCS optional)
