Equipment operating instructions

1. How to reset/re-pair Wi-Fi code

- EZ mode: ON/OFF the power button for 6 times and hold on for the 6th time until the indicator light flashes fast for successful pairing/reset;
- AP mode: ON/OFF the power button for 6 times and hold on for the 6th time under EZ mode until the indicator light flashes slowly to enter AP mode.

2. How to ON/OFF manually

Manually "short press" the on/off button to turn on/off the device.

3. How to manually dimmer

Plug the dimmable bulb onto the smart power Plug, and manually "long press" the on/off button to dimmer for brightness adjust, release your finger when the light intensity changes to the value you want.

English

10

- When the brightness is with its maximum value under ON state, long press the ON/OFF button to dim the lights to the minimum value slowly, or release your finger to stop the intensity changing.
- When the brightness is not with its maximum value under ON state, long press the ON/OFF button to lighten the lights to the maximum value slowly.

Enter MOES Skill in Alexa APP

English

11

1. Complete product networking configuration in the App

Complete the device's networking configuration according to the prompts in the App. Note: In the App, change the name of the device to an easily identifiable name such as Alexa; names are usually in English, such as "bed light".

2. Configure the Amazon Echo device

(If you have already configured Amazon Echo, you can skip this step. The following instructions are based on the iOS client.)

- ① Make sure your Amazon Echo device is powered on and connected to a Wi-Fi network.
- ② Open the Alexa APP on your phone and log in.
- ③ Tap on the menu in the upper left corner of the Home page, select "Settings" and tap "Set Up A New Device" to set up the Amazon Echo.

English

12

- ④ Choose your Amazon Echo device type and language for connecting.
- ⑤ Press and hold the small dot on the device until the light turns yellow.
- ⑥ Click "Continue" to connect to the hotspot, connect to the Amazon Echo hotspot, and return to the APP page.
- ⑦ Click "Continue" to find and connect to your home Wi-Fi network.
- ⑧ Amazon Echo will take a few minutes to try to connect to the network.
- ⑨ After the network connection is successful, tap "Continue". An introduction video will appear. After the video ends, tap "Continue" to jump to the Alexa Home page.
- ⑩ You have now completed the Amazon Echo's configuration process.

English

13

3. Key step — Link Skill

- ① Tap on "Skills" in the Alexa App menu.
- ② Then search for "App Name". Tap "Enable" to enable the Skill.
- ③ Enter the App account and password, then tap "Link Now" to link your App account to enable the Skill. Now you can start your smart home journey.

4. Common commands

Control the device via voice commands, now you can control your smart device with Echo. You can control your device (such as your bedroom light) with the following commands:

- Alexa, turn on/off bedroom light. (Turn on/off the light)
- Alexa, set bedroom light to 50 percent. (Set the light to any brightness)
- Alexa, brighten/dim bedroom light. (Increase/weaken the brightness of the light)

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,

English

15

there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
