Product Specification

Model	: AP2024S
Weight	: 3.53kg
Rated Voltage	: 220-240V~50-60Hz
Rated Power	: 48W
Dimension	: 226 x 226 x 360 mm

Product Structure

Product Features

- Modern Design with Exquisite Materials
- Large Coverage with High Clean Air Delivery Rate (CADR)
- 360° Purification and Deodourisation
- 6-Stage Filtration System: Pre-Filter, Anti-Virus Filter, H13 HEPA Medical-Grade Filter, Activated Carbon Filter, UV Light, Ioniser
- Colour Ring Air Quality Indicators- Red, Purple, Green, Blue
- 3-Level Fan Speed
- Timer (2hr – 4hr – 8hr)
- Child Lock Function
- UV Function
- Ioniser Function
- Filter Replacement Reminder
- Auto Mode, Sleep Mode

Product Features

Powerful 6 Stages of Filtration System

1. Pre-Filter

To trap large particles such as pet fur, dander and coarse dust. It is durable and can be cleaned easily. It also helps improve the performance and prolong the lifespan of the rest of filters.

2. Anti-Virus Filter

Effectively removes viruses and bacteria.

3. H13 HEPA Medical-Grade Filter

Effectively removes 99.98% of ultra-fine airborne particles, as small as 0.3 micron. It traps airborne particles that make up dust, including bacteria, pollen, mould spores, dust mites, human skin cells, hair and pet debris.

4. Activated Carbon Filter

Deodourises the air by absorbing harmful toxins emitted by building materials, adhesives, wall paint, furniture and cleaning agents including unpleasant odours and polluting gases.

5. UV Light

Using cold cathode ultraviolet light with a wavelength of 254nm to effectively kill micro-organisms such as bacteria and viruses, and inhibit the reproduction and production of bacteria and viruses. We care for your health and the environment, that is why our cold cathode UV light trigger voltage is only 500v, which will not produce ozone, you can use it safely.

6. Ioniser

Built-in Ioniser generator can produce large amounts of negative ions to remove airborne pollutants from the air, eliminating odours with strong absorption. The negative ions will make bacteria lose their activity, rendering them harmless.

Safety Precautions

To safely use the product and avoid unnecessary hazards, please observe the following:

- This product shall be operated by a sound minded person.
- Supervision shall be given to person with disability or children above 8 years old when operating this product.
- Do not allow children to operate the product without supervision.
- Cleaning and maintenance shall not be carried out by children without supervision.
- Do not touch the power plug with wet hands.
- Prior to cleaning or other maintenance, please unplug the power plug.
- Do not immerse the product in the water.
- Do not use any liquids to clean the product but wipe it with a soft cloth.
- The product uses precision components, any fall may cause damage.
- Make sure the product has enough surrounding space for proper ventilation.
- Place the product on a dry and sturdy surface to avoid unnecessary hazards.
- Do not place anything on the product to avoid damage and unnecessary hazards.
- Avoid wet or flammable area or next to other heating appliances to avoid fire hazard.
- This product is for indoor use only, do not expose to sun and rain.
- Do not cover or block the Air Inlet and Outlet to avoid overheating and damage.
- Do not dismantle the product personally for any reason.
- Unplug the power cord when the product is not in use for a long period of time.
- Do not move the product when it is operating.
- Do not sit on the product to avoid physical injury.
- Do not damage the power cord, replace it when it is broken or damage for safety use.
- Do not cover the cord with throw rugs, runners, or similar coverings.
- Do not attempt to repair or adjust any electrical or mechanical functions of this product.
- Do not discard the product with household waste but recycling centre as to protect the environment. Filters are classified as household garbage.

Product Usage

LED Smart Touch Control Panel

How to Use

POWER 
Touch to turn on/off.

FILTER RESET 
It is time to replace the filter when the icon turns red. After replacing the filter, long press the icon for 3-5 seconds to reset the reminder, filter timer restarts.

CHILD LOCK 
Long press for 3 seconds to enter or exit the Child Lock Mode.

Product Usage

TIMER 
Choose your desired Timer setting 2H, 4H or 8H.

AUTO 

The Auto Mode will turn on automatically when the power is turned on. Under the Auto Mode, the product will choose the appropriate Fan Speed according to the measured air quality. Touch to deactivate the Auto Mode.

Air Quality Indicators

	Speed 1	Blue (PM2.5 = 0 ~ 50)	Good
	Speed 2	Green (PM2.5 = 50 ~ 100)	Moderate
	Speed 3	Purple (PM2.5 = 100 ~150)	Lightly Polluted
	Speed 4	Red (PM2.5 > 150)	Heavily Polluted

FAN SPEED 

Choose the Fan Speed from 3 settings: I (Low), II (Medium) and III (High).

SLEEP 

Touch to activate the Sleep Mode and the icon will flash for 5 seconds. All lights except the Sleep Mode light indicator will turn off during Sleep Mode. Touch again to deactivate the Sleep Mode.

UV & IONISER 

Touch to activate the UV/IONISER function. Touch again to turn it off but it is recommended to keep the UV/IONISER function on for optimal air quality.

Cleaning & Maintenance

Cleaning the Product

It is a good practice to clean the product once a month with a clean, dry and soft cloth to avoid dust accumulation. More frequent cleaning may be required depending on the environmental conditions.

NOTE:

1. DO NOT stick any foreign objects or your fingers inside the unit.
2. DO NOT use gasoline, benzine, thinner, harsh cleaners, etc. on and/ or in the unit during cleaning to prevent damaging the product.
3. DO NOT use alcohol or other solvents to clean the product.

Storage of the Product

Should you need to store the product for a long period of time, unplug the power plug and make sure the inside of the product is completely dry. The product must be kept in an upright position in a dry and ventilated area.

Filter Replacement

The lifespan of the filter is 3,000 hours. For the good health of your family, the filter should be changed in time. Unsealing the new filter only when you want to replace it, as exposure to the air reduces its performance and lifespan.

- 1 Unplug the power plug. Turn the product upside down.

- 2 Twist anti-clockwise to loosen the base cover. Take out the filter.

Cleaning & Maintenance

- 3 Remove the new filter packaging, then put the new filter into the product.

- 4 Close the base cover and tighten it clockwise.

- 5 Plug in the power plug and turn on the product.

- 5 Long press the Filter Reset icon for 3-5 seconds to reset the filter reminder.
