Packaging dimensions per unit

L x W x H	95 x 95 x 35 mm
Weight	170 g

Other data

Certificates	CE, FC, RoHS
EAN	4250197176194
Customs code	74198090990

Article text

Alphacool's Eiszapfen is the high-end version of the already proven connectors and meets all the requirements placed on a connector with its high-flow, shape, processing and color.

Compatibility

This 90° angled adapter has a rotatable 1/4" external thread on one side and a 1/4" internal thread on the other. This 90° angled connection is mostly used where space is limited and a special solution is required. For maximum flexibility, the adapter can be rotated on the external thread.

Design

With brilliant chrome, deep matt black and decent matt white, three colour variants are available that fit perfectly into any system. Thanks to special processes, the coatings are firmly bonded to the substrate. This ensures a high longevity of the colours and prevents the coating from flaking off. The connector now also has the Alphacool logo, which makes it unique in addition to its special shape!
