MiLi  Require system iOS14.5 and iPhone6S above MiLi MiTag USER MANUAL	Main Functions 1. Locate your item The Apple® Find My™ network provides an easy, secure way to locate compatible personal items on a map using the Find My app on your iPhone®, iPad®, iPod touch®, or Mac®. Simply pair your compatible product with the Apple Find My app to view it right alongside your Apple devices. If your item ever goes missing, you can put it in Lost Mode to display a message and contact information to anyone who might find it. The Find My network is encrypted and anonymous, so no one else, not even Apple or the maker of your personal item, can view its location. 2. Play Sound - Open the Find My app, tap the Items tab, then tap your item. - Click Play Sound, and the device will beep, so you can find the item easily. Quick instructions 1. Turn on the device Press the center to activate MiTag. 2. Pair the device - Open the Find My app. - Hold the device close to your iPhone, tap the Items tab, tap +, and then Add other Item. - Tap Connect. - Type a name for your device, and select an emoji. - Tap Agree to acknowledge that this item will be linked to your Apple ID. - Tap Finish.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
