Z-WAVE TECHNOLOGY TODAY	24

Wireless home automation systems and components offered by Digital Home Systems are based on the wireless Z-Wave protocol. These affordable and reliable devices provide you with great flexibility to build solid and scalable Smart Home Automation systems for any new development or as a retrofit into existing homes.

Imagine a home that is sustainable and self-regulated, capable of notifying you in case of a leak, fire or break-in, giving you peace of mind when you are away.

Over 90% of the world's leading security companies use Z-Wave technology.

WHAT IS HOME AUTOMATION?

The Z-Wave home automation system can coordinate your security, air-conditioning, lighting, and audio/video equipment automatically providing you with a safe, energy efficient and comfortable home environment. It is also capable of automating your sprinkler system, window coverings and food preparation appliances to suit your needs.

WIRELESS HOME AUTOMATION

A VERA CONTROLLER UNIFIES ALL YOUR FAVORITE BRANDS

Vera Controllers go way beyond what security hubs do, working with all the big brands including Bosch Security, Amazon Alexa, VistaCam, Google Home, Sonos, Goap, Lockwood, Samsung, Yale and more. View all your cameras and control everything from one easy app. Compatibility and flexibility are what Vera is all about!

VERA HISTORY

Vera makes technology that works for you, not the other way around. Simple and secure wireless set up makes things fast and easy, right out of the box. The Vera system is about freedom of choice. Vera is compatible with a wide variety of Certified Partner Devices, from dozens of top brands. With Vera, you own your system. If you decide to move, it can easily move with you. It's the perfect system for renters, homeowners, and perfect for second homes and vacation properties too. You have the flexibility to freely choose any of the partner products that meet your needs. Today, and tomorrow.

SYSTEM DEVICES

Main Controllers, Gateways, Network Support Devices

INPUT DEVICES

Motion Sensors, Wall Switches, Luminosity Sensors, Temperature Sensors, Humidity Sensors, Door/Window Sensors, Smoke Sensors, Wind Sensors, Touch Screens, Energy Monitors, Rain Sensors

SECURITY DEVICES

Security Adapters, Security Cameras, Security Keypads, Hand Held IR Remotes, Motion Sensors, Door/Window Sensors, Temperature Sensors, Smoke Sensors, Humidity Sensors, CO2 Sensors

OUTPUT DEVICES

Light Controllers, Monitor Controllers, A/C Controllers, Window Openers, Blinds Controllers, HVAC Controllers, Door Locks, IR Z-Wave Bridge, Irrigation Controllers, Garage Door Controllers, Hand Held Remotes

SOFTWARE

PC GUI, iPad Software, iPhone Software, Android Software, WEB Interface

VERA EDGE HOME CONTROLLER

The VeraEdge controller is the brain of your smart home system giving you easy and affordable one app control over everything you control. By connecting the VeraEdge with all the smart devices in your home, it allows you to control them together, in groups or individually to create custom solutions that fit your life. You can view and control your system from anywhere in the world, for total peace of mind. Vera will give your home security and safety when you travel, will keep an eye on your vacation home and will save video recorded whenever motion is detected.

With VeraEdge you get the freedom of choice. It works with most smart home and security brands including Nest, Amazon Alexa, Schlage, Yale, Kwikset, First Alert and most others. You can bring these all together and control them with one app and enjoy the ease of automation benefits. You can:

- Lock doors and turn off lights with a single touch.
- Includes easy one-touch settings for Home, Away, Night and Vacation.
- Create an energy efficient home by only having your heat or cool air on when someone is home.

There are no monthly fees or contracts.

Item #:	DHS-CON-VERAEDGE
Type:	Z-Wave Gateway
Availability:	YES
Made by:	Vera Controls USA

Z-WAVE GATEWAYS

VERA SECURE HOME CONTROLLER

MEET VERASECURE, YOUR HOME'S NEW 24/7 "SECURITY GUARD". GOOD-BYE SECURITY PANEL. HELLO VERASECURE!

VeraSecure is an easy-to-install comprehensive home controller including a full-featured alarm security system. It's like an alarm security panel in a box. VeraSecure does more than security, you can adjust thermostats, control lights, garage doors and more. You can operate everything from one easy to use app on your smartphone, tablet or computer.

VeraSecure is an alarm system and home controller in one easy to use powerful system combining cameras, door locks, wireless sensors, thermostats and security devices. The VeraSecure has a built-in siren and battery/cellular backup and is compatible with most device brands and protocols. You can view and control devices from anywhere using one easy app on your smartphone, tablet or browser. VeraSecure works with device brands such as Nest, Schlage, Yale, Kwikset, Aeon Labs, First Alert and many more. VeraSecure works with most major wireless protocols including Z-Wave Plus, ZigBee, Bluetooth, VeraLink and Wi-Fi. You can add exactly the devices you want—Motion Detectors, cameras, locks, thermostats, dimmers etc.

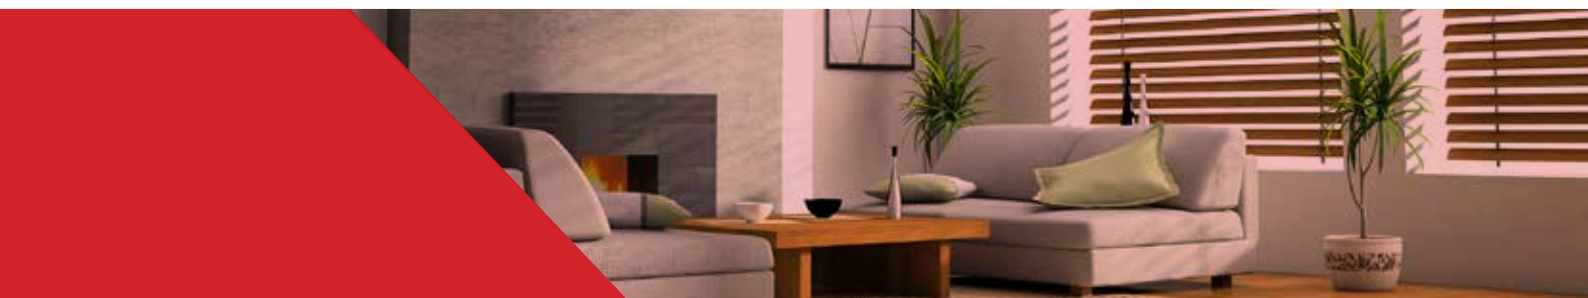

Item #:	DHS-CON-VERASECURE
Type:	Z-Wave Gateway
Availability:	4Q 2018
Made by:	Vera Controls USA

VERA PLUS HOME CONTROLLER

The VeraPlus controller will give you more processing power and additional communication protocols like ZigBee and Bluetooth sensors and actuators when compared to the VeraEdge. Wondering what's in this package? The VeraPlus Home Controller is a sleek black box that connects to the Internet, and using wireless technology, also connects to all the cameras, sensors, door locks, thermostats and other devices you install in your home. Essentially, the controller acts as a central hub for all the devices in your home. Using your phone, tablet or computer, you can access your smart home via one easy app from anywhere in the world no matter how many devices you add. The VeraPlus Home Controller has wizards for setting up over 1400 compatible devices. The VeraPlus Home Controller has everything the popular VeraEdge has, **including no monthly fees required**. VeraPlus simply adds more device compatibility, more memory, and more speed.

Item #:	DHS-CON-VERAPLUS
Type:	Z-Wave Gateway
Availability:	YES
Made by:	Vera Controls USA

Z-WAVE DIMMER

The Z-Wave In-Wall Dimmer is a Z-Wave dimmer capable of being operated manually and remotely using a Z-Wave Gateway. It is compatible with a wide range of bulb types.

Item #: DHS-LIT-DIM-QUB
Type: Light Controller
Availability: YES
Made by: GOAP EU

Z-WAVE DIMMER 0-10V

This unique Z-Wave product is designed to control devices with a 0-10V signal such as fan controllers and LED lights with a low ballast factor.

Item #: DHS-LIT-DMW-QUB-010
Type: Light Controller
Availability: YES
Made by: GOAP EU

Z-WAVE DOUBLE SWITCH

This device is designed to operate in locations where the control of two individual electrical circuits (up to 1.2kW each) is required.

Item #: DHS-LIT-SWW-QUB-02
Type: Light Controller
Availability: YES
Made by: GOAP EU

LIGHTING CONTROLLERS

Z-WAVE RGBW LED DIMMER

Z-Wave RGBW module is used to control RGB/RGBW strips and LED strips or bulbs to create countless colour options and has 5 special scene effects. It can also control halogen lights and fans. Powered by 12 or 24 VDC.

Item #: DHS-LIT-RGBW-FIB
Type: Light Controller
Availability: YES
Made by: FIBARO Poland

Z-WAVE SINGLE SWITCH

This Z-Wave Relay Switch is designed to operate in-wall or in locations where the control of an electric device (up to 2.4kW) is needed.

Item #: DHS-LIT-SWW-QUB-01
Type: Light Controller
Availability: YES
Made by: GOAP EU

Z-WAVE SINGLE SWITCH WITH DRY CONTACTS

This Z-Wave Relay Switch offers single relay switching of dry contacts for isolated control circuits.

Item #: DHS-LIT-SWW-QUB-01D
Type: Light Controller
Availability: YES
Made by: GOAP EU

Z-WAVE DIMMER IN-WALL

This Z-Wave dimmer is designed to be installed with existing electrical wiring with or without a neutral wire. This dimmer can be manually controlled or controlled via Z-Wave.

Item #: DHS-LIT-DMW-FIB-02
Type: Light Controller
Availability: YES
Made by: FIBARO Poland

Z-WAVE DOUBLE SWITCH

The Z-Wave Double Relay Switch switch is designed to be installed with existing electrical wiring to control two individual electrical circuits. This switch can be manually controlled or controlled via Z-Wave.

Item #: DHS-LIT-SWW-FIB-022
Type: Light Controller
Availability: YES
Made by: FIBARO Poland

Z-WAVE SINGLE SWITCH

This wireless switch is designed to be installed with existing electrical wiring. This switch can be manually controlled or controlled via Z-Wave.

Item #: DHS-LIT-SWW-FIB-012
Type: Light Controller
Availability: YES
Made by: FIBARO Poland

AEOTEC NANO DOUBLE SWITCH

The AEOTEC dual Nano Switch offers unparalleled wireless control via the Z-Wave protocol. With the AEOTEC Nano Switch, your sockets and switches don't have to be replaced as they'll continue to offer the same manual control that you're presently used to.

Item #: DHS-LIT-SWW-AEO-02
Type: Light Controller
Availability: YES
Made by: AEOTEC China

AEOTEC NANO SINGLE SWITCH

The AEOTEC Nano Switch installs invisibly behind any of your home's existing switches or power sockets. Simply unscrew the faceplate, install the AEOTEC Nano Switch behind it, and you now have complete wireless control. Your old switches are instantly modern and connected.

Item #: DHS-LIT-SWW-AEO-01
Type: Light Controller
Availability: YES
Made by: AEOTEC China

AEOTEC NANO DIMMER

The Aeotec 3rd generation lighting controller outperforms all that has come before it. Dimming is smoother; compatibility is broader; lighting is faster and more responsive. Automation and intelligence have never been this powerful.

Item #: DHS-LIT-DMW-AEO
Type: Light Controller
Availability: YES
Made by: AEOTEC China

Z-WAVE MINI PLUG-IN SWITCH

The Mini Plug-In Switch is a Z-Wave device specifically designed for use in smart homes and offices. This device has power consumption reporting.

Item #: DHS-LIT-SWP-DOM
Type: Light Controller
Availability: 2019
Made by: DOME USA

Z-WAVE PLUG-IN SWITCH

This device can be plugged into an Australian certified wall socket and used to manually and remotely turn a connected appliance (up to 10A) ON/OFF. It also supports power consumption reporting.

Item #: DHS-LIT-SWP-DHS
Type: Light Controller
Availability: YES
Made by: DHS China

AEOTEC SMART SWITCH

The Aeotec Smart Switch 6 offers completely wireless control of your switches and sockets. It has been custom engineered to maximise the amperage it can offer without ever compromising on quality or your safety.

Item #: DHS-LIT-SWP-AEO
Type: Light Controller
Availability: YES
Made by: AEOTEC China

LIGHTING CONTROLLERS

CLIPSAL IMPRESS PUSH BUTTON, LED

This bell press type push-button is compatible with Z-Wave switches and dimmers in this catalogue. Rated up to 16A 250V AC. This bell press type push-button is available with a blue LED (240V AC)

Item #: CLP-LIT-30PBBP/L
Type: Push Button
Availability: YES
Made by: Clipsal AU

CLIPSAL SATURN PUSH BUTTON, LED

This push-button with a blue LED is compatible with switches and dimmers in this catalogue. Rated up to 16A 250V AC. This bell press type push-button available with blue LED (240V AC)

Item #: CLP-LIT-60PBBPL
Type: Push Button
Availability: YES
Made by: Clipsal AU

FIBARO DIMMER BYPASS 2

The Fibaro Dimmer Bypass 2 (FGB-002) is a supplementary device to the Fibaro Z-Wave Dimmer 2 (FGD212 only). FGB-002 provides powering of the Dimmer 2 in case of controlling the low loads of minimum power down to 5VA (for $\cos > 0.5$).

Item #: DHS-LIT-BPASS-FIB-2
Type: Bypass
Availability: YES
Made by: FIBARO Poland

AEOTEC DIMMER BYPASS

The AEOTEC Dimmer Bypass works with the AEOTEC Nano Dimmer to remove the signals from your power line that cause low watt lightbulbs to flicker.

Item #: DHS-LIT-BPASS-AEO
Type: Bypass
Availability: YES
Made by: AEOTEC China

AEOTEC LED (BAYONET MOUNT)

With an RGBW LED Bulb from Aeotec, Z-Wave lighting control moves from a hard-wired switch and directly to an easily installed bulb with 750 lumens and is completely dimmable.

Item #: DHS-LIT-LED-AEO-BA
Type: Light Controller
Availability: YES
Made by: AEOTEC China

AEOTEC LED (EDISON MOUNT)

With an RGBW LED Bulb from Aeotec, Z-Wave lighting control moves from a hard-wired switch and directly to an easily installed bulb with 750 lumens and is completely dimmable.

Item #: DHS-LIT-LED-AEO-ED
Type: Light Controller
Availability: YES
Made by: AEOTEC China

Z-WAVE DOOR/WINDOW SENSOR

This sensor can respond to real-time events by sending alerts to your Z-Wave gateway or smartphone when the door is left open, or by turning on the basement lights automatically when you open the door to go downstairs.

Item #:	DHS-SNS-DW-DOM-01
Type:	Sensor
Availability:	YES
Made by:	DOME USA

Z-WAVE RECESSED D/W SENSOR

The Z-Wave Plus certified recessed Door/Window Sensor is a small, wireless device that detects the opening and closing of your door or window.

Item #:	DHS-SNS-DW-VIS-REC
Type:	Sensor
Availability:	YES
Made by:	Vision Taiwan

Z-WAVE DOOR SENSOR PRO

The Door Sensor Pro is the best door/window sensor on the market, with unparalleled features such as a built-in 3 color LED range indicator, a 10-year battery life, S1 encryption, and 6mm wide magnet.

Item #:	DHS-SNS-DW-DOM-02
Type:	Sensor
Availability:	2019
Made by:	DOME USA

SENSORS

Z-WAVE MOTION SENSOR

Motion Detector identifies movement inside your home and responds intelligently by sending alerts, triggering lighting, or setting off alarms. This device has a built-in light sensor for controlling lighting scenes and an innovative magnet mount for convenient mounting.

Item #:	DHS-SNS-MS-DOM
Type:	Sensor
Availability:	YES
Made by:	DOME USA

Z-WAVE MULTI SENSOR

The PIR/Motion 3 in 1 sensor is designed with three detection sensors. This device can detect PIR/Motion, temperature, and illumination. This device is also Z-Wave Plus certified.

Item #:	DHS-SNS-MS-PHI
Type:	Sensor
Availability:	YES
Made by:	Philio Taiwan

Z-WAVE MULTI SENSOR

The Fibaro Motion Sensor is a universal Z-Wave multi-sensor. Along with detecting motion, this device measures temperature and light intensity. This sensor also has a built-in accelerometer to detect any tampering with the device.

Item #:	DHS-SNS-MS-FIB
Type:	Sensor
Availability:	YES
Made by:	FIBARO Poland

RAIN SENSOR

When installed in conjunction with the FAKRO ZWMP Weather Module, the FAKRO ZRD Rain Sensor can automatically initiate a window closing or opening.

Item #:	DHS-WIN-RAIN-FKR
Type:	Sensor
Availability:	YES
Made by:	FAKRO Poland

FAKRO WIND SENSOR

When installed in conjunction with the FAKRO ZWMP Weather Module, the FAKRO ZWD Wind Sensor can detect extreme wind changes in addition to measuring wind speed. This, in turn, can trigger an event like a window closing.

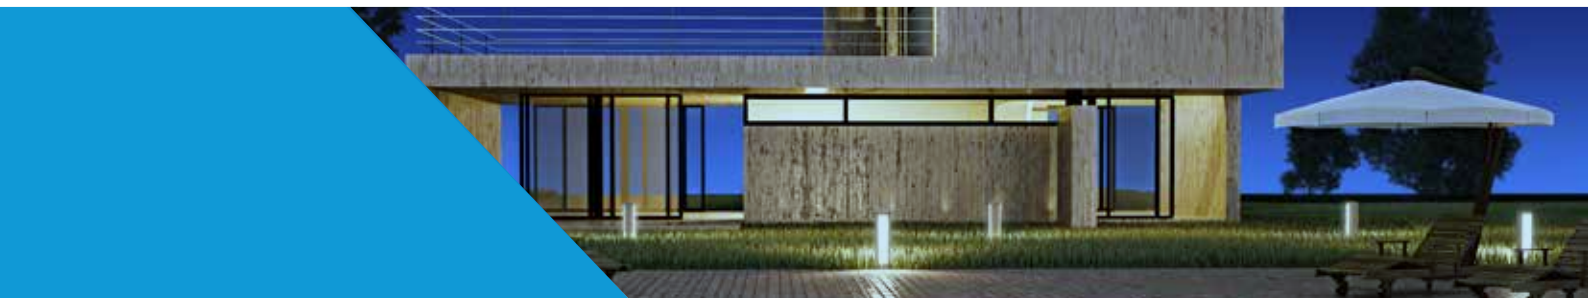

Item #:	DHS-WIN-WIND-FKR
Type:	Sensor
Availability:	YES
Made by:	FAKRO Poland

Z-WAVE WEATHER MODULE

The Z-Wave ZWMP Weather Module is the primary component to control Z-Wave window openers. This module is equipped with three digital inputs for rain or wind sensors, thermostat, timer switch, EIB system, etc. to provide fully automated solution.

Item #:	DHS-WIN-WM-FKR
Type:	Sensor
Availability:	YES
Made by:	FAKRO Poland

Z-WAVE D/W SENSOR 4 IN 1

The 4 in 1 Z-Wave D/W Sensor is a small, battery-powered, magnetic sensor capable of detecting when a door/window is opened or closed in addition to changes in humidity, light, and temperature.

Item #:	DHS-SNS-DW-VIS-04
Type:	Sensor
Availability:	YES
Made by:	Vision Taiwan

Z-WAVE SMOKE SENSOR

This Z-Wave device detects smoke, typically as an indicator of fire. It can issue a signal to a fire alarm system or notify your smartphone of smoke detection through your Z-Wave gateway.

Item #:	DHS-SNS-SM-PHI
Type:	Sensor
Availability:	YES
Made by:	Philio Taiwan

Z-WAVE CO SENSOR

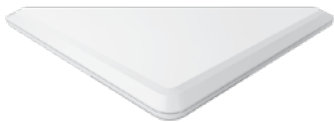

Z-Wave CO Sensor is a device that detects the presence of carbon monoxide (CO) gas in order to prevent carbon monoxide poisoning.

Item #:	DHS-SNS-CO-VIS
Type:	Sensor
Availability:	YES
Made by:	Vision Taiwan

AEOTEC D/WSENSOR

The AEOTEC Door/Window Sensor 6 mounts onto the corner of a door or window using double-sided tape. Its inbuilt battery means you can easily detach it from the door or window to recharge it via USB. Its custom-made Li-ion battery allows it to have a perfectly small profile measuring only 9mm in height. Paintable enclosure.

Item #:	DHS-SNS-DW-AEO-06
Type:	Reed Sensor
Availability:	YES
Made by:	AEOTEC China

PHILIO Z-WAVE PIR RECESSED

The PHILIO Z-Wave PIR Recessed is a small, battery-powered motion sensor capable of detecting motion up to 10m. This sensor is designed to be discretely installed within the cavity of a wall or ceiling with an easy to use spring mechanism holding it in place. This sensor has a 2-year battery life and is Z-Wave Plus certified.

Item #:	DHS-SNS-MS-PHI-5C
Type:	PIR Sensor
Availability:	YES
Made by:	PHILIO Taiwan

AEOTEC MUTISENSOR 6

The Aeotec Z-Wave MultiSensor 6 can measure motion, humidity, light levels, temperature, vibration and UV all from one small device. With a 5 meter range and a 120° field of view, the AEOTEC MultiSensor 6 captures motion data that can be used for everything from security to heating management, including energy saving.

Item #:	DHS-SNS-MS-AEO
Type:	PIR Sensor
Availability:	YES
Made by:	AEOTEC China

SENSORS

Z-WAVE FLOOD SENSOR

Gain peace of mind and reliable security against water damage. This sensor can be set up to trigger sirens, lights, or even turn off the water when used with Water Main Shut-Off Valve.

Item #:	DHS-SNS-FL-DOM
Type:	Sensor
Availability:	2017
Made by:	DOME USA

Z-WAVE TEMP/HUM SENSOR

The Humidity/Temperature sensor is a battery-powered, temperature and humidity sensor ideal for use in bathrooms or basements alongside a Z-Wave controlled exhaust fan to maintain a suitable level of humidity and prevent excessive dampness and mold formation.

Item #:	DHS-SNS-HM-PHI
Type:	Sensor
Availability:	YES
Made by:	PHILIO Taiwan

FIBARO D/W SENSOR 2

The FIBARO Z-Wave D/W Sensor 2 is a smart magnetic door/window sensor that notifies your Z-Wave gateway whenever the open/closed status of your door or window has changed. Available in 7 different colors.

Item #:	DHS-SNS-DW-FIB-WH-02
Type:	Reed Sensor
Availability:	YES
Made by:	FIBARO Poland

Z-WAVE UNIVERSAL ADAPTER MODULE

This Z-Wave module makes it possible to use the functionality of various sensors with a binary and multi-level outputs by allowing them to communicate with Vera gateway. It also has two solid state relays giving unlimited possibilities to control low voltage devices and electric components.

Item #: ZCO-SNS-UN
Type: Sensor adapter
Availability: 2019
Made by: zConnect AU

OPTIONAL SENSORS

zConnect optional sensors allow you to measure ambient temperature, humidity, light, and motion. Compatible with all zConnect modules with S-Bus port.

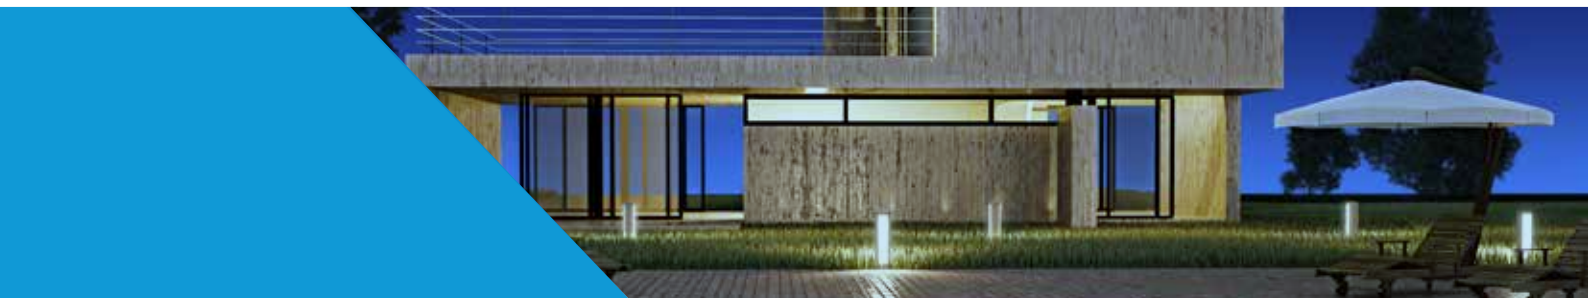

Item #: ZCO-SNS-UNOPT
Type: Sensor
Availability: YES
Made by: zConnect AU

TEMPERATURE PROBE

This digital temperature probe has 1m cable with connector to connect directly to modules DHS-LIT-SWW-QUB-02 or DHS-LIT-SWW-QUB-01. The digital temperature probe range is between -50 and 125°C.

Item #: DHS-SNS-TMP-QUB
Type: Sensor
Availability: YES
Made by: GOAP EU

FIBARO Z-WAVE UNIVERSAL SENSOR

The Fibaro Z-Wave Universal Sensor is a wireless module that allows sensors with a binary output to communicate with the wireless Z-Wave network. This device is compatible with regular and parametric alarm lines (up to 2 alarm detectors)

Item #: DHS-SNS-UN-FIB
Type: Sensor
Availability: YES
Made by: FIBARO Poland

GARAGE DOOR TILT SENSOR

This Garage Door Tilt Sensor is a battery-powered device capable of detecting the horizontal or vertical position of your garage door, allowing you to know when it is open or closed from anywhere.

Item #: DHS-SNS-TS-VIS
Type: Sensor
Availability: YES
Made by: Vision Taiwan

Z-WAVE SHOCK SENSOR

The Shock Sensor is a battery-powered Z-Wave Sensor. It has a shock trigger function and magnetic separation trigger function (optional).

Item #: DHS-SNS-SS-VIS
Type: Sensor
Availability: YES
Made by: Vision Taiwan

Z-WAVE KEY FOB

The Z-Wave KeyFob is a fully functional Z-Wave remote controller capable of adding, removing and controlling other Z-Wave devices.

Item #: DHS-CON-KFB-VIS-04
Type: Z-Wave Remote Controller
Availability: YES
Made by: Vision Taiwan

Z-WAVE WALL CONTROLLER

The Z-Wave ZWK10 Wall Controller is a wall mounted multi-purpose remote that's capable of operating up to 10 different FAKRO and Z-Wave devices.

Item #: DHS-WIN-WC-FKR
Type: Z-Wave Remote Controller
Availability: YES
Made by: FAKRO EU

Z-WAVE WALL CONTROLLER

This battery operated wall controller can be attached to up to 8 standard wall switches or to control other Z-Wave devices including dimmers or activate predefined 'scenes' on Z-Wave Gateway.

Item #: ZCO-CON-SCON-WMSD
Type: Z-Wave Remote Controller
Availability: 2019
Made by: zConnect AU

MULTI-PURPOSE CONTROLLERS

Z-WAVE/ARDUINO DEVELOPER BOARD

Z-Uno is a developer board that allows you to create your own Z-Wave device with Arduino simplicity. You can create sensors and actuators, connect LEDs, buttons, switches, motors or any low voltage sensor including most of Arduino compatible sensors.

Item #: DHS-CON-ZUNO-ZME
Type: Z-Wave Remote Controller
Availability: YES
Made by: ZWAVE.ME EU

RFID WALL SCENE CONTROLLER

Arm/disarm your Z-Wave security system or just run automation scenarios using the RFID key tag or manually inserted codes.

Item #: DHS-CON-RFID-DHS
Type: Z-Wave Remote Controller
Availability: YES
Made by: Vision Taiwan

Z-WAVE SCENE MASTER

The battery operated dual paddle Z-Wave wall mounted controller to run automation scenarios or control individual Z-Wave devices.

Item #: DHS-CON-SCON-REM-90
Type: Z-Wave Scene Controller
Availability: YES
Made by: Remotec China

FIBARO Z-WAVE KEYFOB

The FIBARO Keyfob is a compact battery powered remote controller that allows you to control devices in your Z-Wave network. This device supports 30 different actions, is Z-Wave Plus certified and fully configurable. This device also has an automatic pin lock to prevent unauthorised use.

Item #:	DHS-CON-KFB-FIB
Type:	Z-Wave Remote Controller
Availability:	YES
Made by:	FIBARO Poland

AEOTEC WALLMOTE QUAD

The AEOTEC WallMote is the wall switch that you can install wirelessly anywhere. Whatever the room, whatever the wall, the AEOTEC WallMote is perfect.

Item #:	DHS-CON-SCON-AEO-04
Type:	Z-Wave Remote Controller
Availability:	YES
Made by:	AEOTEC China

AEOTEC WALLMOTE DOUBLE

WallMote is the wall switch for anywhere due to its simplicity of install. Each of WallMote's buttons can be programmed to control one Z-Wave device or many. Meaning that a single tap on its smooth surface can turn on a single light, a whole room, or your whole home.

Item #:	DHS-CON-SCON-AEO-02
Type:	Z-Wave Remote Controller
Availability:	YES
Made by:	AEOTEC China

Z-WAVE REMOTE

The Z-Wave ZWP10 Remote is a multi-purpose remote that's capable of operating up to 10 different FAKRO and Z-Wave devices.

Item #:	DHS-WIN-RMT-FKR
Type:	Z-Wave Remote Controller
Availability:	YES
Made by:	FAKRO EU

Z-WAVE RANGE EXTENDER

The Vision Z-Wave Range Extender is a smart, discrete Z-Wave device designed to amplify the signals of any Z-Wave devices in your Z-Wave network which helps to eliminate 'RF dead spots'. This is a USB powered device.

Item #:	DHS-CON-REXT-VIS
Type:	Z-Wave RF Amplifier
Availability:	YES
Made by:	Vision Taiwan

433MHZ TO Z-WAVE BRIDGE

This bridge offers a solution in translating the wireless messaging traffic from 433 MHz sensors and actuators from different manufacturers to Z-Wave VERA Controllers.

Item #:	DHS-CON-BRI-RFXCOM
Type:	Z-Wave/433 Bridge
Availability:	YES
Made by:	RFCOM EU

YALE ASSURE DEADBOLT KEYED

This deadbolt lock is a Z-Wave enabled device and is fully compatible with any Z-Wave enabled network. It is an AES Encryption Z-Wave deadbolt lock which has very high security.

Item #:	DHS-LOK-DB-YALE-K
Type:	Z-Wave Lock
Availability:	YES
Made by:	YALE USA

YALE ASSURE DEADBOLT KEYLESS

Forget carrying around keys. You can lock and unlock your home with your smartphone or keypad. You can share or generate new pins with friends and family, view access history and manage user settings.

Item #:	DHS-LOK-DB-YALE
Type:	Z-Wave Lock
Availability:	YES
Made by:	YALE USA

LOCKS

Z-WAVE KEYPAD LOCK (RIGHT)

Z-Wave Keypad Lock (Right) offers the flexible versatility of a wireless and keyless locking solution. This lock is integrated with the popular Z-Wave network protocol which can be integrated into all Z-Wave automation building solutions.

Item #:	DHS-LOK-LK-LOC-1R
Type:	Z-Wave Lock
Availability:	YES
Made by:	Locstar Taiwan

Z-WAVE KEYPAD LOCK (LEFT)

Z-WAVE KEYPAD LOCK (LEFT) Z-Wave Keypad Lock (Left) offers the flexible versatility of a wireless and keyless locking solution. This lock is integrated with the popular Z-Wave network protocol which can be integrated into all Z-Wave automation building solutions.

Item #:	DHS-LOK-LK-LOC-1L
Type:	Z-Wave Lock
Availability:	YES
Made by:	Locstar Taiwan

Z-WAVE W/CHAIN WINDER

The Z-Wave window openers are recommended for rooms where windows are installed high above user's head. Automated control of ventilation openings can contribute significantly to maintaining a healthy and comfortable indoor climate.

Item #:	DHS-WIN-WO-FKR-12
Type:	Chain Window Opener
Availability:	YES
Made by:	FAKRO Poland

Z-WAVE TUBULAR MOTOR CONTROLLER DC

Z-Wave DC module is used to control motors for blinds, rollers, shades, venetian blinds, and windows etc.

Item #:	DHS-WIN-BLW-QUB-DC
Type:	Roller Shutter Controller
Availability:	YES
Made by:	GOAP EU

WINDOW CONTROLLERS

Z-WAVE TUBULAR MOTOR CONTROLLER

This Z-Wave controller can be used for wide range of 230V three wired electric motors and servo motors for blinds and shutters.

Item #:	DHS-WIN-BLD-FIB
Type:	Roller Shutter Controller
Availability:	YES
Made by:	FIBARO EU

Z-WAVE GARAGE DOOR CONTROLLER

Compatible with automatic garage door openers via their manual switch. This device has an additional low voltage relay to control ancillary external circuits. The S-Bus port allows you to connect additional optional sensors.

Item #:	ZCO-WIN-GDC
Type:	Garage Door Controller
Availability:	YES
Made by:	zConnect AU

Z-WAVE A/C CONTROLLER

The ZWACC is a Z-Wave to air-conditioner (AC) IR (infrared) Transmitter and works with any Z-Wave compliant gateway or portable controller by translating Z-Wave Thermostat commands and configuration commands to an AC IR control code.

Item #:	DHS-HVAC-AC-REM
Type:	Thermostat — AC Split Systems
Availability:	YES
Made by:	Remotec Hong Kong

Z-WAVE THERMOSTAT ZTS-500

The ZTS-500 is perfectly sized to cover the original thermostat control panel installation marks for retrofit installations. It is small and thin, with several different colored faceplates options. Supporting 2H/2C for Nonheat pump systems, Millivolt, Single stage & 2 stages heat pump systems.

Item #:	DHS-HVAC-THR-REM500
Type:	Thermostat — Ducted Systems
Availability:	YES
Made by:	Remotec Hong Kong

CLIMATE CONTROLLERS

COOLMASTERNET

CoolMasterNet is a unique communication bridge that seamlessly connects advanced VRF / split air conditioning systems and home automation / Building Management System (BMS) controllers. This allows seamless integration of HVAC systems with all major home automation systems including Vera Controls.

Item #:	DHS-HVAC-AC-CMNET
Type:	Thermostat — AC Split Systems
Availability:	YES
Made by:	CoolAutomation UK

COOLINKHUB

CoolLinkHub provides home users with full control and monitoring of their single or multiple air conditioning systems. This allows air conditioning to be controlled from the same home automation Vera Controller of which all other tasks like lighting, shades, security and similar functions are performed.

Item #:	DHS-HVAC-AC-CMHUB
Type:	Thermostat — AC Split Systems
Availability:	YES
Made by:	CoolAutomation UK

Z-WAVE SHUTOFF VALVE

Automatically shuts off water in the event of a water leak, mitigating water damage before it has a chance to impact your home when combined with the Z-Wave flood sensor part# DHS-SNS-FL-DOM.

Item #:	DHS-ACT-VLV-DOM
Type:	Actuator
Availability:	YES
Made by:	DOME USA

Z-WAVE MOUSE ZAPPER

The DOME Z-Wave Mouse Zapper is the smart, mess-free way of removing mice from your home or business. Dome Zapper takes care of critters in your kitchen and dining area. Dome knows this is no pleasant task, and now there's a better way to do it that won't leave you cleaning up blood or unsticking mice from a glue strip.

Item #:	DHS-ACT-MZ-DOM
Type:	Binary sensor
Availability:	YES
Made by:	DOME USA

EXTRA DEVICES

FIBARO Z-WAVE SWIPE PAD

Swipe is a wireless, battery-powered, gesture-controlled pad that allows you to activate Z-Wave scenes or commands with a simple wave of the hand. A single gesture or a combination of gestures may be used – for example, swipe “down” to turn off the lights, “up” to open your blinds.

Item #:	DHS-CON-SCON-FIB
Type:	Controller
Availability:	YES
Made by:	FIBARO Poland

AUTOMATION BRIDGE

This device is designed to work with the Fibaro Home Center, Vera Edge and Vera Plus Z-Wave Gateway Controllers. Once connected to your home network, you will be able to include your Z-Wave devices and scenes. You will also be able to control your living spaces via Amazon Alexa, Apple Homepod (Siri) or Google Assistant. Turn Z-Wave devices on or off, dim lights and run scenes, using only your voice.

Item #:	DHS-HVAC-AC-CMHUB
Type:	Adapter
Availability:	YES
Made by:	SKARO AU

Item #: DHS-ALM-SIR-VIS-OUT
Type: IP Intercom
Availability: 2019
Made by: Vera Controls USA

SECURITY

Our Z-Wave components can often be integrated with an existing alarm system. Each system component may operate independently of the central unit. If the central unit is damaged and the system detects a danger (eg. a fire), each Z-Wave device can independently decide whether to pull up the roller blinds, open the windows/doors, switch off power points, activate a smoke ventilation system, etc. You will not need a VPN connection or a static IP address to remotely control the system.

VERA CONTROLS AND SECURITY SYSTEMS BY BOSCH

Introducing a new integration between Vera Gateways and Bosch Security Systems. The Vera Home Controller can already interface with, and control the Bosch G Series Integration Intrusion & Access panel and the Bosch solution 2000 & 3000 Intrusion panels. All of the interconnected devices can be controlled through an easy-to-configure web interface, or via a smartphone or tablet using the Vera app for IOS and AndroidOS. Users can create 'Scenes' which allow detections on various devices such as the motion sensor or temperature sensor to trigger actions on other devices or to notify users via Push, SMS or Email. All of these features are available with no monthly fee.

Z-WAVE FOR SECURITY SYSTEMS

VERA CONTROLS AND SECURITY SYSTEM M1 FROM NESS CORPORATION

Vera Gateways can be integrated together with Ness Corporation M1 Security system.

The Ness M1 Gold offers unequalled value to system integrators, installers, and end users. M1 offers the flexibility to integrate industry standard systems and components for easy upgrades and system expansion. In addition to the powerful digital dialler, the M1 has a built-in voice dialler, which can call any phone, on or off-site, including a mobile phone. Remote telephone control capability allows you to perform tasks such as, change the temperature setting, control the water heater, lower the garage door, set lighting scenes, arm/disarm the system, control sprinklers and more by simply picking up the phone.

COMPATIBILITY AND Z-WAVE TECHNOLOGY

Z-Wave offers freedom of control and communication, as it is compatible with the majority of mobile phones and tablets available on the market. Z-Wave is currently compatible with over 2400 wireless products from over 400 independent manufacturers worldwide. Our Home controllers are also compatible with many IP cameras available on the market. Upon detecting an incident, the system can send a picture or video to your mobile phone allowing you to respond to the danger. The Vera gateway also has other communication standards including WiFi, 433mhz, Zigbee and Bluetooth (depending on the model of Vera purchased).

INTELLIGENT SYSTEM

Your Home Controller regularly checks and monitors the status of individual devices and, if necessary, informs you of an incident. It knows the exact position of a pulled-up roller blind or an awning, etc. It updates automatically and it automatically makes backup copies of your saved settings and sends them to external servers. Battery-powered components will inform you well in advance of the need to replace their batteries. If you go on holiday and forget to turn off the heating, your Home Controller can notify you and offer to do it for you.

FREEDOM OF CHOICE

Vera is about freedom of choice. While the other guys lock you into their systems, we don't! We're compatible with a wide variety of Certified Partner Devices, from dozens of top brands.

DIGITAL HOME SYSTEM

Digital Home Systems Pty Ltd is the main distributor of Z-Wave products and systems in Australia and New Zealand. We do not sell our products directly to end users, but via our partners, retailers, resellers, and certified custom installers. If you represent a company operating in the Home or Commercial Automation area and are interested in selling or installing reliable, secure, wireless and affordable Z-Wave technology please contact us.
