

# 2BH5BKRF-PIR-SENSOR

An attached holder, providing versatile placement options on tables or walls. This feature offers freedom, convenience and flexibility in positioning the product to suit preferences and specific needs.

PIR SENSOR can detect whether there are people in the room. When there is no one in the room, the thermostat will implement an energy-saving temperature.

- Specifications:
- Power: two AA batteries
- Operating frequency: 915.055 MHz
- Working distance up to: 30 m.

## **Warning:**

1. Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user authority to operate the equipment.

2. To comply with FCC RF exposure compliance requirements, a separation distance of at least 20 cm must be maintained between the antenna of this device and all persons.

3. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

4. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Open the battery cover to replace the battery

Press and hold "RF Connect" for 5 seconds enter pairing mode.
