#LETSJAYCO

When you travel with Jayco, fun is the only thing on the agenda. That's because we go the extra mile so you can live in the moment. From comfortable, amenity-packed floorplans to weather-shielding insulation and superior frame construction, you'll have everything you need to adventure every day and make yourself at home every night. Let's get away. Let's make it count. Let's Jayco—and make memories that last a lifetime.

GENERATIONS OF FAMILY FUN

JAY FEATHER

LIGHTEN UP AND LIVE IT UP

Have your s'mores and eat them too. Jay Feather ultra-lite models combine the amenities of a hardwall travel trailer with the get-up-and-go flexibility of tent camping.

THE JAY FEATHER 7: SUPER TOWABLE, EXTRA FUN

Jay Feather 7 models are towable by most minivans, crossovers and SUVs.*

MINIVANS**

MAKE	MODEL	ENGINE
Honda	Odyssey	3.5L V-6
Toyota	Sienna***	3.5L V-6
Nissan	Quest	3.5L V-6
Kia	Sedona	3.5L V-6
Dodge	Grand Caravan***	3.6L V-6
Chrysler	Town & Country***	3.6L V-6

CROSSOVERS

MAKE	MODEL	ENGINE
Ford	Flex***	3.5L V-6
Chevrolet	Traverse FWD/AWD***	3.6L V-6
GMC	Acadia FWD/AWD***	3.6L V-6
Toyota	4Runner	4.0L V-6

* Consult with your authorized automobile manufacturer or vehicle owner's manual; some models require a tow package

** Tow rating matches the GVWR of the 16XRB and 18FDB models only

*** Towing package required

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight," UVW means the typical weight of this trailer as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the trailer, including the UVW plus passengers, personal items, all cargo, fluids, options, and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the trailer. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

Hitch Weight (HW): The hitch weight, as used in product literature and other promotional materials, does not include cargo, fresh water, propane gas, options or dealer-installed accessories. The addition of these types of items will either add to or subtract from the stated hitch weight.

It is important for your safety and enjoyment that your tow vehicle be adequately sized and equipped to tow and handle the GVWR of the RV you select. Review weights and rating of your tow vehicle and consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your tow vehicle before heading out on the roadways. When you tow an RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. See specifications charts above.

WE START WITH ONE OF THE INDUSTRY'S **strongest** foundations

Many competitors modify or weld stock frames, which can weaken the integrity of your foundation. Jayco's custom-manufactured frames offer higher strength and durability.

Full-width outriggers: We build on full-width outriggers that are spaced 4-6 feet apart (vs. 8 feet) to better support the weight of the wall.

Norco® NextGen frame: Jay Feather features the industry's strongest strength-to-weight ratio thanks to a Norco NextGen frame made of high-strength, low-alloy sheet steel, huck bolts and an interlocking design (n/a on Jay Feather 7).

Integrated A-frame: The A-frame runs through the main frame, preventing the hitch from buckling—a common issue in competing tack-welded designs.

LET'S JAYCO—AND LEAVE OUR WORRIES BEHIND.

We know that your family fun rides on our commitment to quality. So we go the extra mile to make products that last—and stand behind them longer than anyone in the business.

JAYCO'S ROOF **VS** OTHER ROOFS

4,500 POUNDS ON A JAYCO ROOF VS. OTHER ROOFS

THE MAGNUM TRUSS™ ROOF SYSTEM **50 percent stronger**

THE JAYCO DIFFERENCE

When you go with Jayco, you get the strongest foundation in the business, unmatched weatherproofing and rock-solid construction.

1. **Vacuum-bonded walls, floors and roof** for better protection from the elements
2. **Lightweight materials and aerodynamic profile** for easier towing
3. **Extra-wide corner seals** on doors and windows to prevent leaks
4. **Durable, water-repellent vinyl tent**

5. **Permanent tent-to-bunk attachment system** offers easy setup; supports up to 1,100 pounds

6. **Hook tent frame** for more headroom in the bunk area

7. **Magnum Truss Roof System** withstands 4,500 pounds—50 percent more than other roofs

8. **3/8-inch roof decking** secured at every seam

9. **One-piece, sidewall-wrapped DiFlex II** material provides the ultimate in leak protection
