What's in the Box

Lumary Smart
Gimbal Light
Start Guide

•Lumary Smart Gimbal Light

Get Ready

- Know your Wi-Fi network and password.
- Make sure your mobile device is running iOS 13.3 or higher and Android 9.0 or higher.
- Make sure you're connecting to a 2.4GHz Wi-Fi network (Lumary can't connect to 5GHz networks).

Attention

- 1.Do handle carefully in transportation.
- 2.Do not disassemble the fixture for non-professional.
- 3.The fixture work under AC high voltage and current, it should be installed where can't be touched easily. The connection must be completely sealed and be earthed.
- 4.The external flexible cable or cord of this luminaire cannot be replaced; if the cord is damaged, the luminaire shall be destroyed.
- 5.The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similarly qualified person.
- 6.The surface where it's positioned must be firm enough to ensure safety.
- 7.Ensure the voltage of the electricity system is in the range of working voltage for the fixture. Otherwise, lifetime of fixtures will be influenced.
- 8.Installation and maintenance should be operated by a professional.

INSTALLATION INSTRUCTIONS

IMPORTANT :

Read all instructions before installing fixtures. Retain for future reference.

SAFETY :

For your safety, this fixture must be wired in accordance to local electrical codes and ordinances. All work should be done by a qualified electrician.

WARNING :

Make certain power is OFF from the electrical Panel before starting installation or attempting any maintenance. Indoor installation only.

PRE-INSTALLATION:

1. Turn power OFF from the electrical panel before starting installation.
2. Locate a suitable position to plate the fixture and open in accordance to the cut-hole dimensions (refer to Hole Cut Table for appropriate size).
3. Run electrical wire from the switch (power supply) through the mounting hole-use NMD90 Romex or BX cable.

DRIVER WIRING:

1. Open the hardwire box swing cover and remove the appropriate knockout(s).
2. Insert the electrical supply cable through the knockout and secure with a cable connector (sold separately).
3. Using wire nuts, connect green ground wire of cable to green wire on box. Connect white wire of cable to white wire of box. Connect black wire of cable to black wire of box. (Fig.1).
4. Place all wiring and connections back in to the box and close the cover.

5.Insert hardwire box through the mounting hole.(Fig.2)

New construction applications: Hardwire box shall be firmly secured to studs, joists, or similar fixed structural units.

Remodel applications: Do not require the hardwire box to be firmly secured after the mounting plates, studs, joists, or structural units have been concealed.

6. Junction box suitable for maximum of 5 No 12 AWG or 8 No 14 AWG Conductors.

FIXTURE INSTALLATION:

1.Connect the fixture to the hardwire box by inserting and twisting the male/female connectors.(Fig.3)

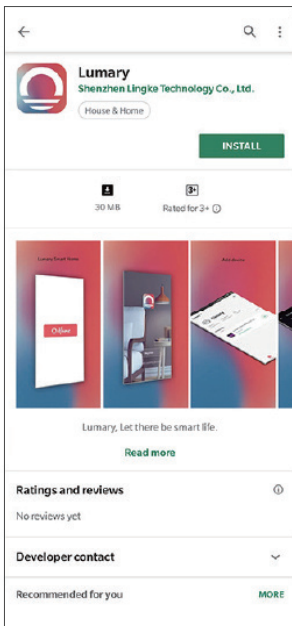

2.Push spring loaded clips on the fixture upwards and insert fixture base in to the mounting hole. Release the clips and fixture will be pulled flush to the ceiling. (Fig.4)

3.Once assembly is complete, turn on power to confirm fixture is flashing white.

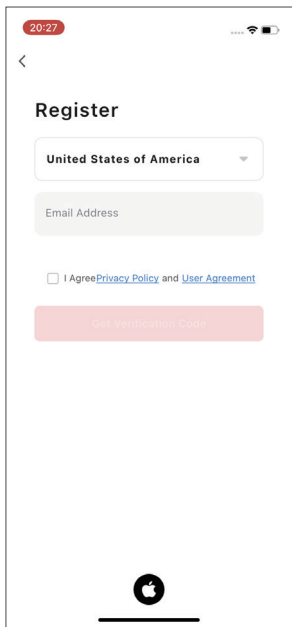

Install the "Lumary" App

1. Find and install the "Lumary" App on App Store, Google Play.

2. Register a Lumary account.

The Register screen shows a back arrow at the top left, a status bar at the top with the time 20:27, and a region dropdown menu set to "United States of America". Below this is an "Email Address" input field. A checkbox for "I Agree" is followed by links to "Privacy Policy" and "User Agreement". At the bottom is a pink "Get Verification Code" button and an Apple logo at the very bottom.

3. Connect

NOTE: Lumary's products can't connect to 5GHz networks.

Steps:

1. Advised to enable Bluetooth, Enable Bluetooth to add some Wi-Fi device easily;

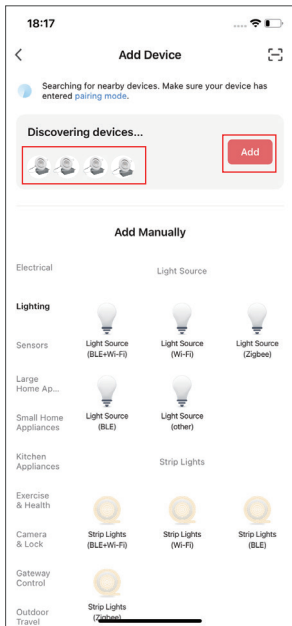

2. Each time the device without distribution network is powered on, confirm the light is breathing or blinking pairing mode;

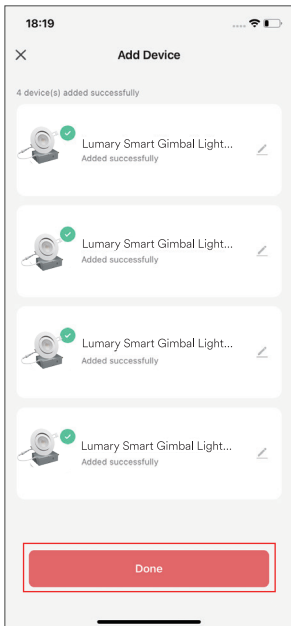

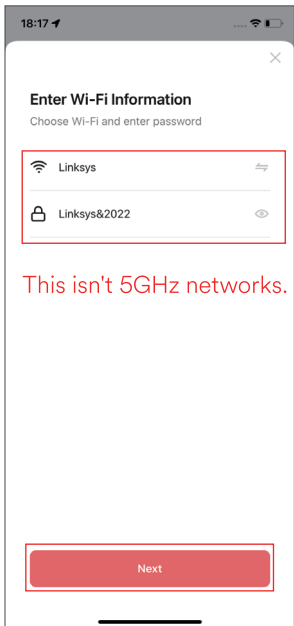

3. Open the Lumary App, In the top corner of the Devices screen, click "+" and select "Add Device" to confirm that the device is paired.

If not, you need to use the wall switch to reset: on-off-on-off-on;

4. Find the device, choose Wi-Fi and enter password, press "Next". Click "Add", and wait patiently. After that, click "Done", and the device is successfully added to the App.

5. Other ways to add devices, Open the Lumary App>>In the top corner, click ">> Choose "Lighting">>Select "Light Source (BLE + Wi-Fi)">>Select "AP Mode" or "EZ Mode" in the upper right corner.

4. Troubleshooting

1. Can't connect to your Wi-Fi network.

Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

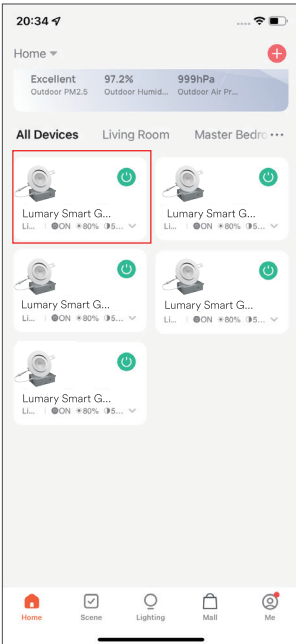

2. If you fail to bind, you will need two phones, one to set the hotspot and the other to connect the hotspot and add the device through the app. If the device is successfully added, the device is normal. The problem may be in the router, you need to check your router Settings to see if there are MAC and DHCP restrictions. Lumary's products do not support 5GHz networks.

3. If you have any questions. You can contact us via our after-sales email: support@lumary.tech or leave a message on our official social media account.

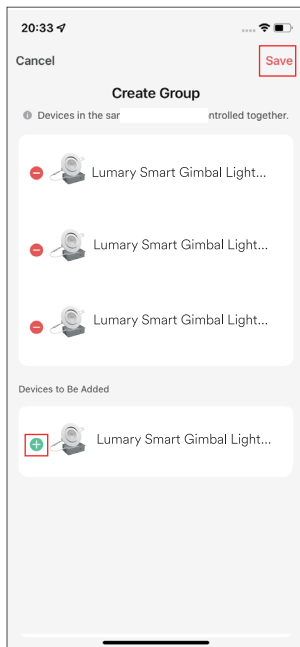

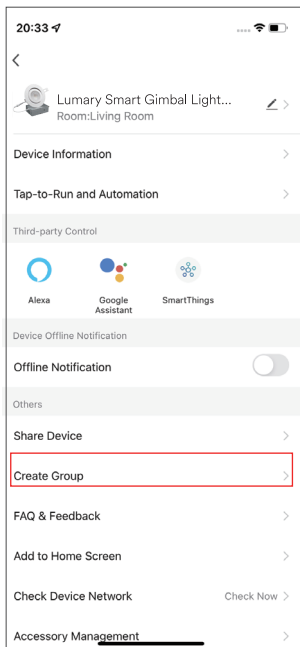

Note: To ensure the stable output of the product, 4-inch 6-inch light source and power supply box can not be mixed, please follow the corresponding model with the connection.

Group Control

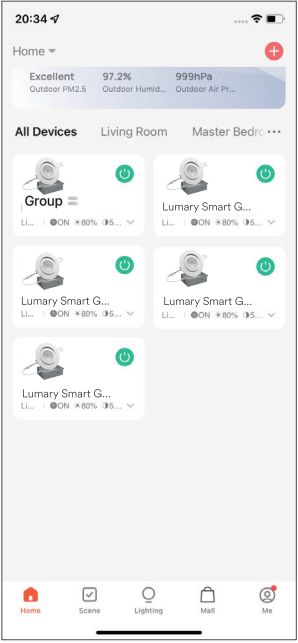

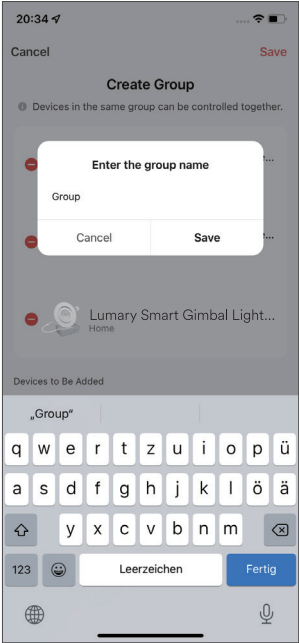

1. Log in to Lumary App, tap the smart device and enter into, click"✎" in the top right corner.

2. Click "Create Group", then select a device and save.

3.You can reset the group name and save it, and the group can control devices.

Beacon Remote Control

Remote control paired device

Note: Not all devices are compatible with the remote control. Downlights of models A/B/C/D/F that have been manufactured after January 2022 are compatible with the remote control. If you require more detailed information, please do not hesitate to contact us at our after-sales email address: support@lumary.tech.

1. The device is powered by 2xAAA dry batteries.
2. The lighting device needs to be paired with the App through the mobile phone first.
3. For devices that have completed network configuration to the App, keep the network unblocked.
4. Turn off the device through the wall switch, and then turn on the switch after 5 seconds. Within 1 minute of power-on, the lighting device and remote control are in a pairing state.
5. Long press any key on the remote control A/B/C/D as needed until the device flashes to indicate success. If during the configuration process, the required device is not fully paired, long press the group button again until all devices are paired. If it times out, repeat step 4.

FAQ

1. What should I do, if I don't have internet access to my Lumary product?

If you do not have a network, you will need two mobile phones, one to set up the hotspot and the other to connect to the hotspot and add the device via the app (refer to the guide).

2.If my Wi-Fi internet goes down, will Lumary App still work?

Lumary products need to be connected to Wi-Fi in order to use them remotely, and the device can be controlled simply using the app via the LAN as well as Bluetooth. For example: on, off, dimming, colour temperature, colors.

3. Why does the flickering occur with Lumary products?

Lumary's products are factory set to the default network configuration. If the device has not been connected to the network, it will flash for three minutes each time it is powered on. If the device has not been connected to the network, it will flash for three minutes every time it is powered on. If the device is connected to the network, it will stop flashing and will automatically connect to the network when it is switched off and on via the wall switch after 15 seconds.

4.Can I share with family and friends?

Yes, you can share access to your Lumary devices. In the Lumary App, from your main device list, click on one of the devices press the "..." button on the top right and click on "Share Device" to give or revoke sharing permissions. In order to share, the other user should already have downloaded the Lumary App and registered an account.

5.Can I group multiple Lumary devices together?

Yes, you can group multiple same-type devices by room, location, or however else you want. The same devices can be in multiple groups. For example, if you create a group for "Bedroom" and another group for "Entire House", your Bedroom lights can be included in both groups. From your main device list, click on one of the devices you want to group, press the "..." button on the top right for advanced settings, and click "Create Group". You'll be able to name a new group and choose which devices you'd like to group together.

6.My Lumary device has a funny name. How do I rename it?

From your main device list, click on one of the devices you want to rename, press the "..." button on the top right for advanced settings, and click "Modify Device Name" (or "Modify Group Name"). You'll then be able to choose a more familiar name. cally connect to the network when it is switched off and on via the wall switch after 15 seconds.

7.What's the wireless range?

The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

8.What should I do if the device Appears offline or is unreachable?

Make sure your Wi-Fi router is online and in range, and check that you have the latest Lumary functionality by clicking "Check for firmware update" in your device settings. Try to turn off the device >> clear the application cache >> reboot the router >> turn on the device after one minute and check and confirm the device status after five minutes.
