Please read this manual very carefully before wearing your helmet and keep it in a safe place. For a correct use and for your safety, please pay attention to following instructions. The main function of the helmet is to protect your head in case of impact. This helmet is made to absorb some of the energy of a blow by partial destruction of its component parts and, even though damage may not be apparent, any helmet which has suffered an impact in an accident or received a similarly severe blow or other abuse should be replaced.

To maintain the full efficiency of this helmet, there must be no alteration to the structure of the helmet or its component parts, without the approval of the Type Approval Authority, that may decrease safety for the user. Only homologated accessories will maintain the helmet safety.

No component or device may be fitted to or incorporated in the protective helmet unless it is designed in such a way that it will not cause injury and that, when it is fitted to or incorporated in the protective helmet, the helmet still complies with the requirements of the homologation.

No accessory shall be mounted on the helmet if some of the symbols, other than location fitting symbols, marked in the accessory homologation is not marked in the helmet homologation label.

为了保持头盔的全部效能，未经型式认证机构的批准，不得对头盔或其组成部件的结构进行任何可能降低用户安全性的改动。只有经过认证的配件才能保证头盔的安全性。

任何部件或装置都不得安装或整合到防护头盔中，除非其设计不会造成伤害，并且当其安装或整合到防护头盔中时，头盔仍符合认证要求。

## WARNING

This helmet can be used with the face cover opened or closed, as it's homologated for P (protective) and J (jet). NEXX recommends that the chin bar should be completely closed at riding for complete protection.

- Do not use the helmet if the visor has not been assembled properly.
- Do not remove the side mechanisms from the chin bar.
- Should any of the side mechanisms fail or be damaged, please contact a NEXXPRO Authorized dealer
- Do not use the chin deflector to open and close the mask, this can damage the piece or it may come loose.
- Riding with the face cover open may create wind drag, causing the face cover to close. This may obstruct your view and can be very dangerous. To avoid this, when riding with open face cover make sure the locker button is in locked position.

To ensure a full face protection, always have the face cover closed and locked while riding your motorcycle.

- Do not hold the button while closing the face cover. This can cause the face cover lock to fail to engage. A face cover that is not locked may open unexpectedly during riding and lead to an accident.
- After closing the face cover, be sure to check that it is locked.
- When carrying the helmet, be sure to close the face cover and check that it is locked. Carrying the helmet with the face cover unlocked can cause sudden opening of the face cover and the helmet may be dropped or become damaged.
- With the chin open and the 'P/J' button activated in 'J' lock mode, it withstands a maximum closing force of up to 13.5 Nm.

## 警告

本头盔可在面罩打开或关上的情况下使用，因为头盔有P（防护）和J（揭面）两种经过认证的模式。NEXX 建议在骑行时将下巴防风罩完全关上，以提供全面保护。

- 如果遮阳板组装不当，请勿使用头盔。
- 请勿从下巴防风罩上拆下侧面装置。
- 如果任一侧面装置出现故障或损坏，请联系NEXXPRO授权经销商
- 请勿使用下巴导流板开关面罩，这可能会损坏该部件或使其松脱。
- 打开面罩骑行可能会产生风阻，导致面罩关上。这可能会阻挡您的视线，非常危险。为避免这种情况，在打开面罩骑行时，请确保锁定按钮处于锁定位置。为确保面部的全面防护，在骑摩托车时，面罩应始终处于关上和锁定的状态。
- 关上面罩时请勿长按按钮。这会导致面罩锁无法啮合。未锁定的面罩可能会在骑行过程中意外打开，从而导致事故。关上面罩后，请务必检查确认面罩已锁定。
- 携带头盔时，请务必关上面罩并检查确认面罩已锁定。在面罩未锁定的情况下携带头盔，会导致面罩突然打开，头盔可能会掉落或损坏。
- 下巴打开，'P/J' 按钮在 'J' 锁定模式下激活，它可承受高达13.5牛的最大闭合合力。

## 如何清洁遮阳板

EN

To clean the visor without affecting its characteristics should be used only soapy water (preferably distilled) and a soft cloth. If the helmet is deeply dirty (ex. Insect remains) can add a little liquid from the dish to water. Remove the visor from the helmet before carrying a deeper cleaning. Never use objects to clean the helmet that may damage/scratch the visor. Always store the helmet in a dry place and protected from light, preferably in the bag provided by NEXX HELMETS.

CN

为了清洁面甲而不影响其特性，只应使用肥皂水（最好是蒸馏水配制的）和软布来清洁。如果头盔很脏（如有昆虫残骸），可以在水里加一点洗洁精。在进行更深入的清洁之前，应将面甲从头盔上取下。不得使用可能破坏/划伤面甲的物品来清洁头盔。始终将头盔存放于干燥避光的地方，最好是放在NEXX HELMETS公司提供的袋子里。

The size selection of the helmet is crucial to ensure the safety of the user. Never should use a helmet that is too small or too large in relation to the size of the head. To purchase a helmet is important that you try it: make sure the helmet fits perfectly to the head, there should be no gap between the helmet and the head; make some movements of rotation (left and right) with the helmet on the head(closed) this should not shake; it's important that the helmet is comfortable and involving the entire head.

- Keep the helmet in a safe place (not hang on the mirror of motorcycle or other support than can damage the lining). Do not carry your helmet on the biker or in the arm while driving.

- Always use the helmet in the proper position, using the buckle to adjust to the head;

- In order to maintain trouble free operation of the visor, it is advisable to periodically lubricate the mechanisms and rubber parts around the visor with silicone oil. The application may be made with a brush or with the help of a cotton swab.

Apply sparingly and remove the excess with a dry clean cloth. This proper care will maintain the softness of the rubber seal and will dramatically increase the durability of the visor fixing mechanism.

- Clean and lubricate mechanisms after use in extreme off road dust and dirt conditions.
