

Zebaze Stratos 3 Pro User Manual

Zebaze

Email: Service@zeblaze.com
Manufacturer: Shenzhen Zebaze Smart Company Limited
Address: Room 210, Yuan Xiong Building, Tongxing Road 26, Ban Tian Street, Longgang District, Shenzhen, Guangdong, China

Product Description

Please read this manual carefully before use, and keep it in a safe place for future reference.

Heart rate sensor, blood oxygen sensor, charging connection point, charge, function buttons.

How to Wear It?

In daily use, tie the watch comfortably to your wrist, about one finger width away from the wrist bone. Adjust the wristband to ensure that the heart rate sensor can detect the current heart rate.

Note: Wearing the watch too loosely may affect the data collection of the heart rate sensor.

2. Long press the power button to turn on the main screen

3. Switch: swipe left or right on the home screen

4. Back: swipe from the left edge to the right when you are on other screen pages

Global Positioning System

GPS & A-GPS

The device supports global positioning system (GPS) tracking. When you are doing outdoor sports, GPS will automatically start working and notify you when the location information is available. The GPS signal is the best for GPS tracking, and in crowded situations, raising your arm and shaking your body to make the GPS signal stronger, so that the tracking only when GPS starts to work.

The GPS signal is used for GPS tracking, and in crowded situations, raising your arm and shaking your body to make the GPS signal stronger, so that the tracking only when GPS starts to work.

If the data is not synchronized for 7 consecutive days, the A-GPS will expire. If so, you need to turn on the GPS again. You can update the tracking information

on the outdoor sports page of the watch.

Charging

When the battery is low, charge the watch immediately.

Adjust & Install/Uninstall the Strap

Align the position of the buckle according to the circumference of the wrist. Align the slot of the strap with the watch, and then insert the strap into the watch until you hear a click. You can see it if it's firmly installed.

To replace or remove the strap, refer to the figure below.

Safety Instructions

• When swimming, please make sure that the phone's Bluetooth is turned on and the watch is well connected to the phone.

If you cannot connect the watch to the phone or cannot connect the phone to the watch during swimming, please turn off the power button of the watch for 5 seconds to restore the factory settings, and then try again.

• In daily use, avoid wearing too tight. Keep the contact area dry and clean the strap with water regularly if there are signs of moisture and swelling in the contact area.

• Please use the included charging cable to charge the watch. Only use the power adapter provided by the manufacturer.

• Never use the watch, sweep, shake, pull the power adapter and charging cable dry. Do not touch them with wet hands. Do not expose the power adapter and charging dock to water.

• The working temperature of the watch is 0°C to 45°C. If the ambient temperature is too high or too low, the watch may malfunction.

• The watch has a built-in battery. Please do not damage the battery or the watch, please do not disassemble or replace the battery by yourself. Only authorized service providers or manufacturers are allowed to disassemble or replace the battery. There is a potential danger or even personal injury.

• Please do not drop the watch, impact or throw the watch into water. If the battery has swelling or liquid leakage, stop using it immediately.
