Sport Sunglasses

User's manual

Product Description

Thank you for choosing our sports sunglasses! Designed specifically for outdoor activities, these cycling glasses are crafted with lightweight and durable PC material, featuring anti-slip nose pads for all-day comfort. The photochromic lenses automatically adapt to light intensity (day/night use), offering 100% UV400 protection and windproof performance. Ideal for running, cycling, golfing, and fishing, they enhance sweat-resistant temple grips and wide-curved lenses, perfectly combining functionality and style for active lifestyles.

Packaging List

- 1 pair of sports sunglasses
- 1 portable glasses box
- 1 cleaning cloth
- User's manual

Instructions

1. Wearing

- Place the sunglasses gently on your nose bridge, ensuring the temples fit comfortably behind your ears.
- Adjust the temple length (if applicable) for the best fit.

2. Adjustment

- If uncomfortable, fine-tune the temples or nose pads until you find the most comfortable position.
- Ensure the sunglasses fit securely but not too tightly to avoid discomfort during extended wear.

3. Maintenance

- Regularly clean the lenses using the included cleaning cloth to remove dust and stains.
- Store the sunglasses in the provided portable case to prevent scratches and damage.

4. Precautions

- Never use this product to directly observe the sun or other strong light sources, as it may cause permanent eye damage.
- Do not leave the sunglasses under direct sunlight, as focusing effects may occur, potentially causing fires or damaging the product's components.
- Do not use the sunglasses while moving, as this may lead to stepping on unseen objects and result in personal injury.
- Do not swing the sunglasses by holding the strap, as this may hit others and cause harm.
- Keep the packaging plastic bags out of reach of children, as they may put them in their mouths, leading to suffocation.

Functionality

Photochromic Lenses: Automatically adjust to light intensity, suitable for day and night use.

UV400 Protection: Effectively block 99%-100% of UVA and UVB radiation, protecting eyes from harmful UV rays.

Windproof Design: Prevent wind and sand from entering the eyes, ideal for cycling and high-speed activities.

Lightweight PC Material: Lightweight and durable for long-term wear without pressure.

Multiple Color Options: Including Orange-Blue C8, Hydrographic C6, and more, meeting personalized needs.

Multi-functional Usage: Suitable for running, cycling, golfing, and fishing, enhancing sports performance.

FAQs

- **Q: Are these sunglasses suitable for people who wear prescription glasses?**
 - A: Yes, these sunglasses are designed to be compatible with most prescription glasses.
- **Q: How do I clean the lenses?**
 - A: Use the provided cleaning cloth to gently wipe the lens surfaces, avoiding rough materials that could scratch the lenses.
- **Q: What should I do if the lenses get scratched?**
 - A: Minor scratches can be repaired with professional care products, while severe damage may require lens replacement. Please contact customer service for assistance.
