LED TV RANGE

SPECIAL FEATURES

4K UHD & QLED

4K UHD provides a resolution of 3840 x 2160 pixels, delivering sharp and clear images with enhanced details. QLED technology uses quantum dots for superior brightness, color accuracy, and contrast.

BUILT-IN WI-FI

The built-in Wi-Fi feature allows for easy wireless internet connection without the need for additional adapters or cables. Stream content, browse the web, and connect to smart devices effortlessly, all within your home network.

DOLBY AUDIO

Enhance your audio experience with Dolby Audio technology, providing clear, immersive sound. Enjoy rich, dynamic sound quality that enhances movies, music, and gaming, elevating your entertainment to new heights.

ADS PANEL

ADS or Advanced Super Dimension Switch panel provides vibrant colors, wide viewing angles, and excellent contrast. It ensures a superior viewing experience, offering crisp visuals even from side angles, perfect for shared viewing.

FRAMELESS DESIGN

The sleek, frameless design maximizes the screen-to-body ratio, creating a more immersive viewing experience. Its modern aesthetic blends seamlessly with your home decor, offering both style and functionality in one.

VOICE ASSISTANT INTEGRATION

Built-in Google Assistant lets you control your TV and connected smart devices with just your voice. Simplify tasks, find content, or control volume hands-free, making your TV smarter and more intuitive.

BLUETOOTH 5.0

With Bluetooth 5.0, effortlessly connect your TV to compatible devices like soundbars, headphones, or speakers for wireless audio. Enjoy faster pairing, better range, and more stable connections than older Bluetooth versions.

ANDROID 11.0 OS

The Android 11.0 operating system offers a smooth, user-friendly interface with access to a wide variety of apps. Experience faster performance, better multitasking, and seamless navigation with the latest OS version.

BUILT-IN CHROMECAST

Allows seamless streaming from your smartphone, tablet, or laptop to the TV. You can easily cast content like videos, music, and apps, enhancing your viewing experience without additional devices.

DISCLAIMER: The features mentioned above may vary depending on the specific model. Please refer to individual product specifications to know the exact features available in each variant.

GOOGLE TV RANGE

**NEW
ARRIVAL**

LED-GQ5521 | 140 cm (55)

Google TV | Hey Google

- Picture Quality** : Ultra HD QLED Display, 3840 x 2160 Resolution
Sound : **Dolby Audio** with Supreme Sound Effect, Box Speaker 15W x 2
Connectivity : 3 HDMI Terminals, 2 USB Terminals, 1 AV Input, BT Audio Output/Input, Optical Audio Output, RF IN, Built-In Wi-Fi, 1 Ethernet Port

- Smart Features** : CPU: A53*4-1.5GHz, GPU: Mali-G52
Operating System : GoogleTV
Typical Brightness : 400+ Nits
Screen Mirroring : Built-in Chromecast

1+1 YEARS WARRANTY

MRP: ₹72,999/-

(Inclusive of all taxes)

TOUGH ON STAINS GENTLE ON YOU

SEMI AUTOMATIC TRANSPARENT LIDS | SEMI AUTOMATIC TOUGHENED-GLASS

WASHING MACHINE RANGE

SPECIAL FEATURES

TOUGHENED GLASS LID WITH FLOWER PRINT

A sturdy glass lid designed for durability and style. The elegant flower print adds aesthetic appeal, making it both functional and visually pleasing in any setting.

SALT WATER TECHNOLOGY

Enables the machine to function effectively ensuring smooth spinning, controlled vibration, long-term durability, optimal performance, and better protection for fabrics and internal parts.

MAGIC/LINT FILTER

Equipped with lint filters that capture dust, lint, and debris more efficiently during wash cycles. Helps maintain water flow, keeps clothes cleaner, and enhances the machine's long-term performance.

COLLAR SCRUBBER TECHNOLOGY

Integrated scrubber plate near the tub edge that targets collar stains and cuffs with friction-based action. Saves time on pre-washing and improves stain removal without damaging fabric texture.

HYDRAULIC SOFT CLOSING LID

A slow-closing lid mechanism that prevents sudden slamming. Enhances safety, avoids accidental hand injuries, and prolongs the lid's durability. Adds a quiet, premium touch to the overall user experience.

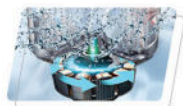

ANTI-VIBRATION RUBBER PADS

Special rubber base mounts that absorb vibrations during operation. These pads reduce noise and prevent the machine from shifting, providing a stable wash experience even on uneven floors or with large loads.

RUST-FREE ANTI-CORROSIVE BODY

The body is made from high-grade plastic or rust-proof coated materials, protecting it from corrosion due to water exposure. Ideal for Indian homes prone to humidity, spills, or hard water usage.

POWERFUL MOTOR WITH TOP TECHNOLOGY

A high-performance motor built with TOP (Thermal Overload Protection) that ensures consistent operation even with heavy loads. Offers longer life, energy efficiency, and better spin power in tough wash conditions.

ROLLER DESIGN PULSATOR

Pulsator with roller-style fins generates strong water movement, enhancing detergent mixing and dirt removal. Prevents tangling and provides deep, uniform cleaning while being gentle on delicate clothing fibers.

WATER LEVEL ADJUSTER/INDICATOR

This feature allows users to manually or automatically select the right water level based on the laundry load. It prevents water wastage and ensures efficient washing performance every cycle.

DISCLAIMER: The features mentioned above may vary depending on the specific model. Please refer to individual product specifications to know the exact features available in each variant.

TRANSPARENT LIDS | SEMI-AUTOMATIC WASHING MACHINE RANGE

SA14BDPT - 14 KG

- Anti-Corrosive Rust-Free Body
- In-built Detergent Box
- 5 Roller Design Pulsator
- Salt Water Technology
- Powerful Motor with TOP Technology
- Rubber Pads to Control Vibration
- 14 kg Huge Wash Capacity
- Dual Magic Filter
- Dual Waterfall
- Air Dry Window
- Noise Free Spinning for Drying Clothes

SMARTER WASH EVERY TIME

Less effort. More efficiency.

INTEX

Ab Mausam Banega

AWESOME

with Intex's Wide Range of Air Coolers

Cooling Bhi, Performance Bhi

COMMERCIAL AIR COOLER | DESERT AIR COOLER | WINDOW AIR COOLER | TOWER AIR COOLER

AIR COOLER RANGE

SPECIAL FEATURES

THERMAL OVERLOAD PROTECTION MOTOR

Built-in protection shuts off the motor automatically if it overheats, preventing damage, extending motor life, and ensuring safe operation during long, uninterrupted use in high-temperature environments.

DOUBLE BALL BEARING MOTOR

Enhances motor efficiency and longevity with reduced friction and smoother rotation. Operates quietly and reliably, ensuring stable air delivery and minimal maintenance even after extended hours of continuous use.

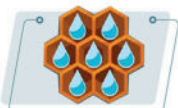

INVERTER COMPATIBLE

Works efficiently with inverters, making it ideal for areas with power outages. Provides uninterrupted cooling without high energy consumption, ensuring comfort and convenience during electricity cuts.

AUTO FILL

Allows easy water top-up through manual or automatic refill methods. Prevents dry running and supports continuous operation, making maintenance simple and reducing the chances of performance disruption.

CELLULOSE HONEYCOMB COOLING PAD

High-density pads offer superior water retention and cooling efficiency. Made from durable cellulose material, they promote faster evaporation and consistent airflow for long-lasting and effective cooling.

ICE CHAMBER

Dedicated compartment for adding ice to enhance cooling. Rapidly drops air temperature, offering a refreshing breeze in extremely hot conditions. Perfect for peak summer use.

MOTORIZED VERTICAL MOVEMENT

Automatically moves the vertical louvers up and down, improving airflow coverage. Ensures even cooling without manual adjustments and is ideal for wide or multi-level spaces.

4 WAY AIR DEFLECTION

Adjustable louvers distribute cool air in all four directions, ensuring uniform cooling across the room. Enhances user comfort by reaching every corner with consistent air delivery.

DISCLAIMER:

The features mentioned above may vary depending on the specific model. Please refer to individual product specifications to know the exact features available in each variant.

INTEX

COOLING MEETS ELEGANCE

AIR CONDITIONER RANGE

SPECIAL FEATURES

BLDC MOTOR

Built with a Brushless Direct Current (BLDC) motor, our air conditioner offers smart speed regulation and high-torque operation for superior air circulation. Additionally, its near-zero friction operation ensures long-lasting performance with minimal noise.

DUST FILTER

Courtesy of its anti-dust filter, this air conditioner effectively eliminates dust and other minute particles. As a result, it ensures a refreshing, clean airflow within the room.

ADAPTABLE OPERATION

With the press of the ADAPTABLE button on the remote, you can activate the 5-in-1 convertible technology, allowing you to adjust the cooling capacity as needed. The inverter compressor optimizes power based on the heat load, ensuring energy-efficient performance. Easily switch between five cooling modes - C1, C2, C3, and C4 - for customized comfort.

SLEEP MODE

Our air conditioner automatically turns off after 8 hours for energy efficiency. If the temperature is set to 20°C, it will gradually increase to 21°C after 2 hours and then to 22°C. For the remaining 6 hours, it will operate at 22°C to ensure optimal comfort.

EFFECTIVE R32 REFRIGERANT

With its R32 refrigerant, this air conditioner provides efficient cooling while upholding environmental consciousness. So, you can use it as much as you like without worrying about the environmental impact.

TURBO MODE

Designed with a high-quality louvre and featuring Turbo cooling, this air conditioner provides high airflow for rapid indoor cooling. Thus, it swiftly reduces indoor temperatures, thereby ensuring no hot spots in a short duration.

COPPER COIL

Equipped with a robust copper condenser, our AC delivers rapid cooling and boosts energy savings. Also, its durability and corrosion resistance offer extended usage with minimal maintenance.

PM 2.5

Our air conditioner features PM 2.5 particulate filters that effectively purify the air, delivering clean and fresh cold air. These filters help eliminate harmful PM 2.5 pollutants, promoting a healthier indoor environment.

SUMMER CHILL

The Summer Chill function is designed to rapidly cool a specific room or area, typically setting the temperature between 16°C and 18°C for an instant cooling effect.

SELF-CLEAN

Our air conditioner maintains a clean evaporator coil by eliminating moisture buildup. As a result, it helps prevent the growth of harmful bacteria and mold, ensuring fresh and hygienic airflow.

Voltage Ranges - Min 160V and Max- 260V

DISCLAIMER: The features mentioned above may vary depending on the specific model. Please refer to individual product specifications to know the exact features available in each variant.
