

WELCOME GUIDE

TROND Prime III Power Strip w/ 3-Port USB Charger

TROND – To Grow & Thrive

SAFETY PRECAUTIONS

Please read these instructions carefully and retain this welcome guide for future use. When using electrical appliances, the following safety precautions should always be observed to reduce the risk of fire, electric shock, or injury to persons:

WARNING – Intended Use

This Power strip is intended to be used in household indoor areas only, and not intended for commercial use. Do not use it in General Patient Care Areas or Critical Patient Care Areas. Keep away from children.

WARNING – Grounding and Polarization

Plug into a standard 3-wire grounded outlet only, and do not use it with a receptacle in which the slot opening does not align with the blades.

WARNING – Daisy Chaining

This product must be plugged directly to a wall outlet, and should not be "daisy-chained" together in series with other power strips or surge protectors.

WARNING – Liquid

This product should not be used with aquariums, near water or any other source of moisture. Do not operate this product, if liquid of any kind is spilled onto or inside it.

WARNING – Heat

Do not place it near heat sources such as wall heaters. Never cover it with carpet, furniture or anything that would prevent air circulation or cause temperature increase. Shut off the unit immediately if it ever becomes hot to touch.

WARNING – Overloading

Do not overload the product's outlets. If the load exceeds 15A/1875W (whether plugged into a single outlet or spread out over multiple outlets), the built-in circuit breaker will trip. In this case, reduce the load by unplugging some devices and set the power switch to **RESET** position.

WARNING – No User Serviceable Parts Inside

Do not open the housing for any reason, as there're no user-serviceable parts inside. Product warranty will be voided and no liability will be accepted if the product is dismantled.

WARNING – Proper Cleaning

In general, the only cleaning necessary for this product is a light dusting. Unplug it from the wall outlet before cleaning it. Do not use any type of liquid or aerosol cleaners.

Package Contents

- 1 * TROND Prime III Power Strip w/ 3-Port USB Charger
- 1 * Welcome Guide
- 5 * Screws

① Screw Mounting Tabs

② Power Switch with Circuit Breaker
RESET – Power On OFF – Power Off

③ 5 Grounded Outlets

④ LED Power Indicator (White)

⑤ 3 USB Charging Ports

Specifications

Model	TROND Prime III
Material	UL94 V-0 Flame-Retardant PC+ABS
Voltage Compatibility	AC 100-250V
Max. Power Rating	1875W (125V/15A)
USB Port Input	AC 100V-250V, 50/60Hz
USB Port Output	DC 5V / 2.4A * 3
Max. USB Port Output	15W / 3.0A (Max)
Product Dimensions	5.91 x 3.54 x 1.10 in.
Net Weight	16.2 oz / 0.46 kg
Compliance with the U.S. DoE Level VI Energy Efficiency	

Features

- Turns a regular wall outlet into 5 grounded AC outlets with 3-Port smart USB charger, and eliminates the need for multiple chargers, saving money & desktop space for you;
- Five widely-spaced AC outlets (38mm vs. 30mm distance on regular power strips) can accommodate slightly larger power adapters without blocking other adjacent outlets;
- Each USB charging port can intelligently indentify your mobile device, and seeks to maximize its charging speed (each up to 2.4A, 3A/15W in total). Quick Charge technology is NOT supported;

- Screw-mountable design allows you to securely install the power strip in various applications, including workbenches, wallmounts, floormounts, under counters and more;
- Angled flat plug fits easily in tight spaces or behind furniture, and doesn't block the other duplex wall outlet; 14AWG heavy-duty extension cord (5ft. long) provides sufficient cord length and better safety;
- AC 100-250V compatibility operates on worldwide voltage, automatically switching between different voltage AC power.

Frequently Asked Questions

- Q: Which USB port should I use to charge my device?**
- A: All the 3 USB ports support smart charging technology, and can charge any 5V device at full speed, up to 2.4A. For devices with different voltage requirement, please use the 5 AC outlets instead.
- Q: Can my phone be charged up quickly?**
- A: This power strip doesn't support Quick Charge (QC2.0/3.0/4+) or Fast Charging technology. Therefore you may experience slow charging speed for devices, such as Samsung Galaxy S8 or Note 9.

- Q: Why can't the USB ports charge my devices properly?**
- A: Please verify whether your USB cable works fine, or whether the power strip has been powered on with its LED indicator displaying white. If yes, the USB ports could become defective. In this case, please email us at **support@etrond.com** for the help.
- Q: Can I use TROND Prime III while travelling abroad?**
- A: Yes, as it supports the worldwide voltage of 100-250V. However, different countries may differ in both voltage and physical plug/socket. Please get the right plug adapter and also verify whether your devices could support the destination voltage.
- Q: How do I check my device's input current and voltage?**
- A: Please refer to your device's user manual, original OEM charging adapter, or contact the device manufacturer to get this information.

Warranty Information

All TROND products come with 18-month product warranty and 30-day money back guarantee. If unluckily you receive a defective product, please feel free to email us at **support@etrond.com** to claim your product warranty, even when Amazon's first 30-day return window has been closed.

Our service team is always ready to help. Rest assured that you will be in good hands!

Write a Product Review

TROND is committed to delivering customer-driven products that live up to your high standards. We encourage you to write a review and share your experience with this product.
