Pairing Name: TruVoice BT50/ TruVoice BT60
Bluetooth Speification: CSR-V5.0, dual mode, downward compatible
Frequency Range: 2.4GHz-2.480GHz
Support Protocols: A2DP, AVRCP, HFP, AAC, etc
Two Bluetooth devices can be connected at the same time
Transmission Distance: up to 30 meters (Transmission distance depends on the environment and Bluetooth device)
Maximum Talk Time: 20 hours
Standby Time: 200 hours
Working Temperature: 0℃ to 45℃
Speaker:
Frequency: 20Hz-20KHz, Hi-fi
Distortion: ≤1%
Sound Channel:
Binaural: Stereo
Monaural: Mono
Microphone:
Microphone: Directional noise reduction microphone
Acoustic Noise Canceling Structure
Crystal clear sound and voice (DSP)
Headset Battery:
Type: Lithium-ion polymer
Battery Capacity: 320mAh
Charging Voltage: 5V DC
Life Time: Minimum recharging 1000 times
Operating Temperature: -10℃ to +60℃
Charging Time: 2 hours
Charging Interface: Micro USB
Charging Base:
Net Weight: 115g
Headset Net Weight:
TruVoice BT50 70g
TruVoice BT60 95g

⚠ Cautions

1. Most Cell Phones have headset power on screen display. When Headset battery is low, the headset will beep once in 5 minutes and the indicator will turn red. Please charge it in time.
2. Do not connect the full-charged headset to the charging circuit for a long time. Overcharging will shorten battery life.
3. Please keep the headset battery safe. Do not put the battery or the headset into fire or water to avoid explosion.
4. Do not use headset with high volume for extra long time, which may cause hearing loss. Always listen at a moderate level.
5. Don't charge with high voltage device, which may cause damage to the headset.
6. Make sure that the headset is fully charged before using it if unused for a long time.
7. Lifetime of the battery will be significantly reduced if your device is left uncharged for a long time. We therefore recommend that you recharge your device at least once a year.
