

QUICK STYLING TIPS

DRY, VOLUMIZE, STRAIGHTEN, AND SMOOTH.

>>> PREP YOUR HAIR

Detangle and section hair before use.

>>> TURN UP THE VOLUME

Flip head upside down and brush from underneath in **WET HAIR MODE**.

>>> SMOOTH YOUR STYLE

Rotate the brush 360° in **DRY HAIR MODE** so hair passes through both combs. Use smaller sections for smoother results.

>>> MAINTAIN YOUR STYLE

Refresh hair on non-wash days with **DRY HAIR MODE**. Use hairspray after styling for extra hold.

CURLY OR COILY HAIR?

Use small sections for best root access and smoothing. Use smoothing products, avoiding curl cream or mousse.
