How It Works

Headset Controls

ON/OFF

Turn on the headset:

Press and hold the Power/Volume + Button until the LED Indicator flashes blue.

*Audrey will say: “Welcome to Shokz”

Turn off the headset:

Press and hold the Power/Volume + Button until the LED Indicator flashes red.

*Audrey will say: “Power off”。

Pairing

1. Start with OpenComm turned off.
2. Press and hold the Volume + Button until the LED Indicator flashes red and blue alternately.

3. Open your device's Bluetooth settings and select "OpenComm by Shokz." Audrey will say "connected."

NFC Pairing

Operate controls with
headset powered off.

1. Power on your headset (press and hold Power/Volume+ until LED Indicator flashes blue)

2. Unlock your phone and turn on NFC pairing (Refer to your phone's user guide if needed).
3. Position the headset's NFC logo near the NFC detection area of your phone until the device shows pairing is completed. The headset's LED Indicator will flash blue once when pairing is successful.

How to Wear

Pick up the headset, bring them behind the back of the base of your neck, position the earhooks on your ears.

*Position the noise-canceling microphone close to your mouth.

*Wearing your headset the wrong way could cause discomfort. The transducers should rest in front of your ears.

Volume

Operate volume controls while audio is playing.

How to change volume:

While your audio is playing, adjust headset volume by pushing either the Volume + or Volume – buttons.

*A “beep” will sound when the volume is at its max.

*Listening with headset at high volume may affect your hearing and the audio will be distorted.

Mute the Microphone

During a call

To Turn Mute On

Press and hold the Volume + and Volume - buttons while on a call until Audrey says "Mute on".

To Turn Mute Off

Press and hold the Volume + and Volume - buttons while the microphone is muted until Audrey says "Mute off".

Activate voice assistant	Press and hold for 2 seconds when device is on standby
Redial last number	Double-click on standby

*Only applicable for phone calls, not online calls

Check Battery Status

Operate controls while
audio is not playing

How to check battery status:

Click the Volume + or Volume - button while music is paused,
Audrey will tell you the battery status:

* "Battery high/Battery medium/Battery low/Charge me"

Extra Features

EQ Modes

Standard Mode:

Standard listening mode with your ears open.

Earplug Mode:

Use earplugs with headset in noisy environments where it is safe to block out ambient noise, such as on a train or in a factory plant.

Switching EQ Modes

Operate controls while music is playing

How to switch EQ mode:

Press and hold both buttons (Power/Volume + Button and Volume - Button) while music is playing until you hear a beep.

*Audrey will say: “EQ changed”

Multipoint Pairing

Pair Two Devices

Switch between two devices
seamlessly with multipoint pairing

Multipoint Pairing

Operate controls with
headset powered off

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.

3. Press and hold the multifunction button and Volume + button until Audrey says "multipoint enabled."

First Device

Audrey will say "connected".

4. Open first device's Bluetooth® menu and select "OpenComm by Shokz." Audrey will say "connected".

5. Turn your headset off.

Second Device

Audrey will say "connected".

6.Re-enter pairing mode by pressing and holding Volume + until Audrey says “pairing” and the LED indicator flashes red and blue alternately.

7.Open second device's Bluetooth® menu and select "OpenComm by Shokz."Audrey will say "connected."

8.Turn your headset off.

You will hear a beep, then Audrey will say
“Welcome to Shokz, connected. Second
device connected.”

9. Turn your headset on. Your headset is now connected to both devices.

Turn Multipoint Pairing Off

Operate controls with
headset powered off.

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.

Audrey will say "multipoint disabled."

3. Press and hold the multifunction button and Volume - button until Audrey will say "multipoint disabled."

Restore Factory Settings

Operate controls with
headset powered off.

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.

3. Press and hold the multifunction button, Volume – button and Volume + button until hear two beeps and feel the vibration.

4. Turn your headset off. OpenComm is now reset and can be re-paired to your device.

Changing Languages

Your headphones have four built-in languages:

Chinese, English, Japanese and Korean.

OFF Follow the instruction when
headset powered off

1. Start with your headset powered off.
2. Press and hold Volume + until Audrey will say “pairing” and the LED indicator flashes red and blue alternately.

3. Double-press the multifunction button. Languages have been switched when you hear the corresponding language.

Care and Maintenance

Charging Tips

OFF The headset will automatically shut down when charging

Magnetic Charging Cable

Charging

Charging Completed

When the headset is at low battery, there will be a “charge me” prompt and the red light will flash intermittently. Use the corresponding magnetic charging cable for charging.

The LED indicator will turn red during the charging process and the headset will automatically turn off. The LED indicator will turn from red to blue when charging is complete.

Moisture Detection Alert

How it Works:

These headset can detect liquid such as water, sweat, or rain. If the headset this plugged into the charger while wet, the LED indicator will flash red and blue. The headset will then emit a beep. If this happens, remove the charging cable, dry them completely, then proceed with charging.

Storage and Maintenance

- Store the headset in a cool, dry place. The working temperature should be 0~45°C(32~113°F). Working in a cold/hot environment, a highly humid area, or an extremely low air pressure may reduce the battery life.
- Keep the product away from heat sources, direct sunlight, combustible gas or other liquids.
- Keeping the charging port dry before connecting to the charger will reduce the risk of damage.
- This headset is water-resistant, but is not waterproof. Please do not submerge the headset in water.
- Clean the headset with a soft dry cloth.
- Do not charge right after exercising, in case there's sweat inside the charging port, which could lead to circuit burning while charging.
- After storage for a long period, please charge the headset before using again.

BC

Note

Design and specification are subject to change without notice. For the most up-to-date product information, please visit <https://shokz.com>.

Warning

To avoid the risk of explosion, fire, or leakage from toxic chemicals, please do not disassemble the product or replace, deform, or mutilate the battery.

Warranty

Your headset are covered by a warranty.

Visit our website at <https://shokz.com/pages/warranty-landing> for details of the limited warranty.

*Failure to register will not affect your limited warranty rights.

Regulatory and Legal Information

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without testing of specific absorption rate (SAR).

Responsible party (contact for FCC matters only):

AfterShokz LLC.

3200 Gracie Kiltz Lane, Suite 400 Austin, TX 78758 USA
