

Quick Start Guide

D-BOX
HaptiSync Hub

Each Haptic Seat Package Includes:

- 1x D-BOX Haptic Seat (at least)

- 1x Power Cord

- 1x IEC Plug-Lock Insert

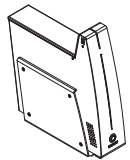

- 3 or 4x Stabilization Cups (varies per model)

- 1x CAT.5E Shielded Cable

HaptiSync Hub Package Includes:

- 1x HaptiSync Hub

- 1x Antenna

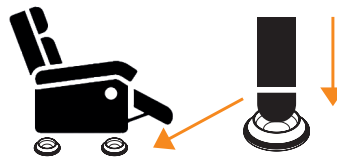

- 1x Power Cord

Complete User Manual is accessible at:
<https://www.d-box.com/en/downloads/>

1 Prepare your Haptic Seat

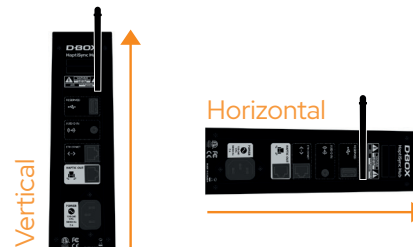

- Follow the manufacturer's instructions to assemble your Haptic Seat.
- Insert the IEC plug lock on the female end of the power cord and connect it.
- Install the stabilization cups underneath your Haptic Seat:

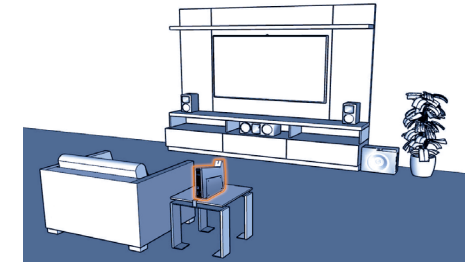

- Make sure nothing will be pinched or damaged while the Haptic Seat is moving.

2 Prepare your HaptiSync Hub

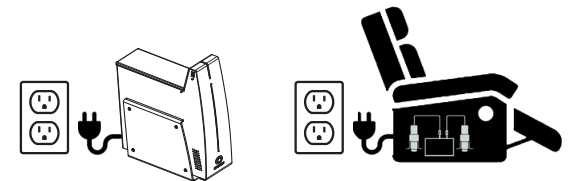

- Screw the antenna on the back of your HaptiSync Hub. Place the antenna upwards for optimal reception.

- Install your HaptiSync Hub on a flat surface with sound sensor toward your front speakers. Ensure it is located in an optimal location to maximize sound reception performance.

- Connect the HaptiSync Hub to the Haptic Seat using the CAT.5E shielded cable provided with the seat. **See other side of this page or the user manual for specific wiring diagrams.**
- Connect the power cable to your HaptiSync Hub

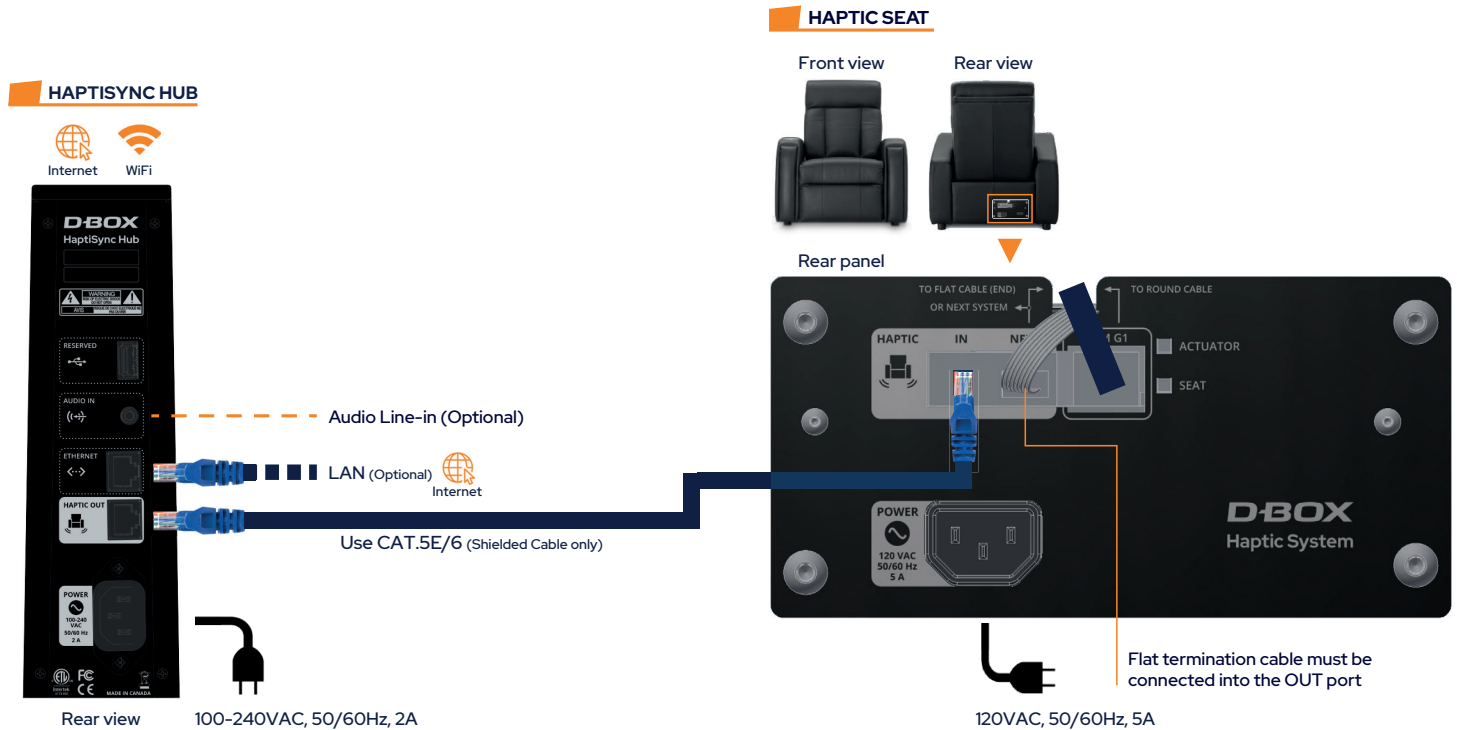

3 HaptiSync Configuration

- Go to the D-BOX Connect website:
<https://connect.d-box.com>
- Create an account using a valid email address.
- Follow HaptiSync Configuration instructions on D-BOX Connect website.
