NEMO^{USA}

Made in Italy

EVERY DAY NEMO BRINGS IDEAS INTO LIGHT AND LIGHTING PROJECTS INTO EXPRESSIVE CREATIONS

Our collections march to the exciting new beat of LED technology. We build fascinating and unique products that shake lighting preconceptions and shape spaces into attractive and timeless settings. NEMO is committed to being a leader in the LED movement both for our partners who use our products and for us who envision them.

La Luce exhibition at Biennale Interieur 2016, Courtrai Belgium

CONTEMPORARY

*We like the search for the new.
Among other things, because
there are no given rules,
but infinite possibilities for
charismatic ideas.*

IN THE WIND

Arihiro Miyake

Floor and pendant lamps for warm and widespread LED lighting. The body is manufactured through a technology of torsion and misalignment of the extruded aluminum bar allowing for 360° LED emission. This technology was extensively studied by Nemo. Heads are in die-casted aluminum. Diffusers are in opal metacrylate. Heads, base and arms are painted in matt white, matt black, titan grey or gold. For the floor version, switch and dimmer are on the cable.

In The Wind pendant vertical gold

“In a time in which the light source itself can even be designed according to each object, the question would be how the lighting design should meet technology and how the light should look like. My answer is a simple, yet very fresh attempt, free from ready-made ideas, and rules based on classic lighting sources. In The Wind is a way to the future”.

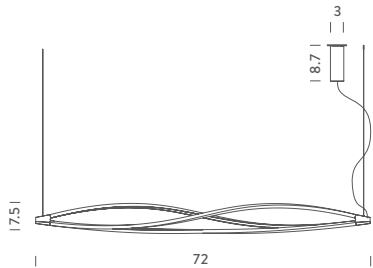

Arihiro Miyake

PENDANT HORIZONTAL LED

Linear LED | diffused, 360° | 3x20W | CCT 3000K |

TRU

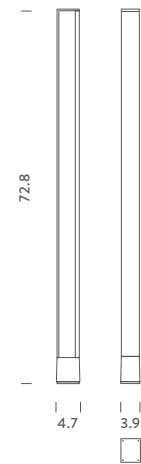

Roberto Paoli

Floor lamp with body in extruded aluminum, heads and base in die-casted aluminum, diffusers in opal and transparent metacrylate. Structure painted in matt white or black. The uplight LED source provides a warm and diffused flood, while the back LED creates an indirect ambient lighting.

“Try to move while looking at the Tru and crossing an observation point. You find that you lose the perception of the vertical element holding the light source and the lamp will look like a very thin object mysteriously lit”.

Roberto Paoli

FLOOR LED

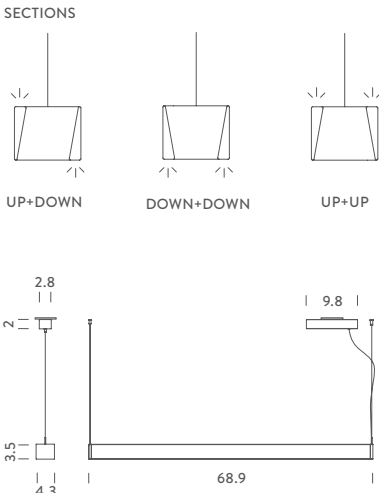

Linear LED+LED board | up+back, indirect |
41+16W | CCT 3000K | typ cri 83 | 4080+2660lm |

note metal cable length 9.8', electric cable length 16.4'

○ TRU LWW 5C *structure white*

Tru pendant horizontal down + down white

KEPLER

Arihiro Miyake

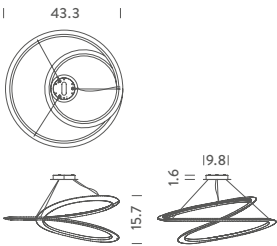

Kepler downlight black

“Kepler is a lighting sculpture with many faces. It could be one of the new aesthetics resulted from the developments of industrial technique and design methods”.

Arihiro Miyake

Kepler uplight white

Pendant lamp in epoxy-coated aluminum, in matt white or black. Available in uplight and downlight versions for widespread and comfortable lighting. The endless line is made through a 3-dimensional deformation process of extruded aluminum, designed using the mathematics of Moebius ribbons.

SPIGOLO

Studiocharlie

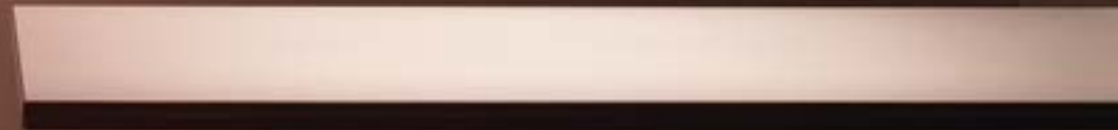

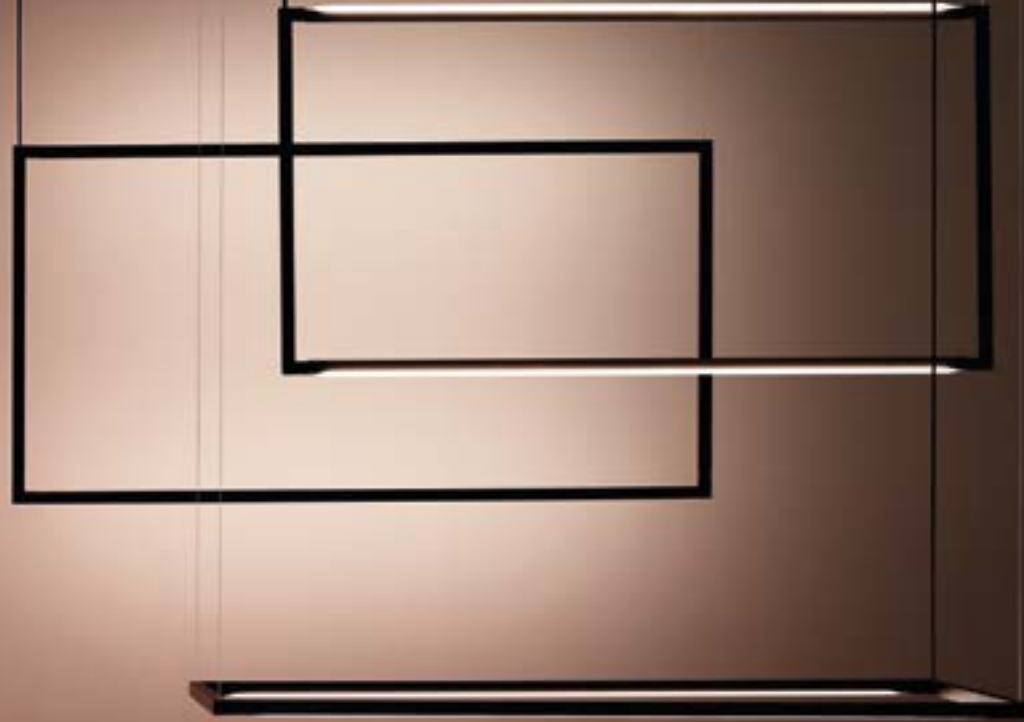

Floor, wall/ceiling, pendant and table lamps based on an extruded and tubular aluminum structure connected with molded ABS joints. In white or black painted finish and polycarbonate opaline diffuser. The joints enable the profiles to house LED sources which can be rotated 360° to produce direct or indirect lighting. The floor version is designed to provide a virtual divider of ambience, while the wall/ceiling versions provide a versatile and comfortable ambience. LED sources are dimmable with a warm tone.

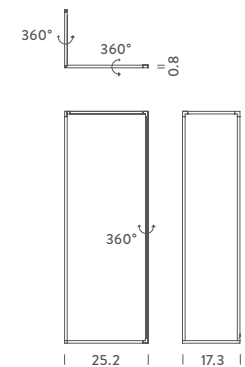

“Spigolo light is architecture itself: with its subtle profile it designs places and suggests new interpretations of the space”.

Studiocharlie

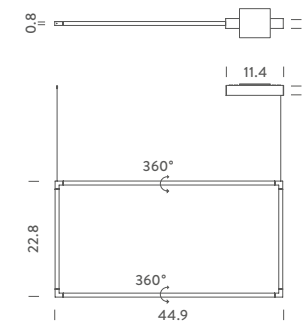

Spigolo wall, pendant vertical and horizontal, black finishing

MAIS PLUS QUE CELA JE NE PEUX PAS

Rudy Ricciotti

Floor and table lamp, raw metal, for warm and widespread lighting.
Available also in the Mini version.
Each lamp is handcrafted with small aesthetic and finishing
differences making each lamp unique.

*“This project was born with industrial
wastes but less than
this I am not able.
And so, this lamp is called
Mais plus que cela
je ne peux pas”.*

Rudy Ricciotti

Mais plus que cela je ne peux pas

NUVOLA

Mario Bellini 1974

“My ‘cloud’ designed to illuminate the office (and, why not, the home too) might today be thought of as a prescient allusion to Steve Jobs’ vision of the ‘cloud’”.

Mario Bellini

Pendant, wall/ceiling lamps in natural opal polyethylene, in rotational molding. Full lighting for widespread and comfortable output. The pendant version is fastened to the ceiling with three adjustable suspension cables, with a template included. White canopy freely adjustable on the ceiling. The wall/ceiling version is composed of one of the two blocs (deep or flat). For the pendant version, DALI driver on request.

MASTERS

“ We call it the Master collection. If you look around our boutique then you’ll notice that we make no special distinction. Because however important the design heritage may be for us, it is equally important that we develop coherent products from it today.”

BORNE BÉTON

Le Corbusier 1952

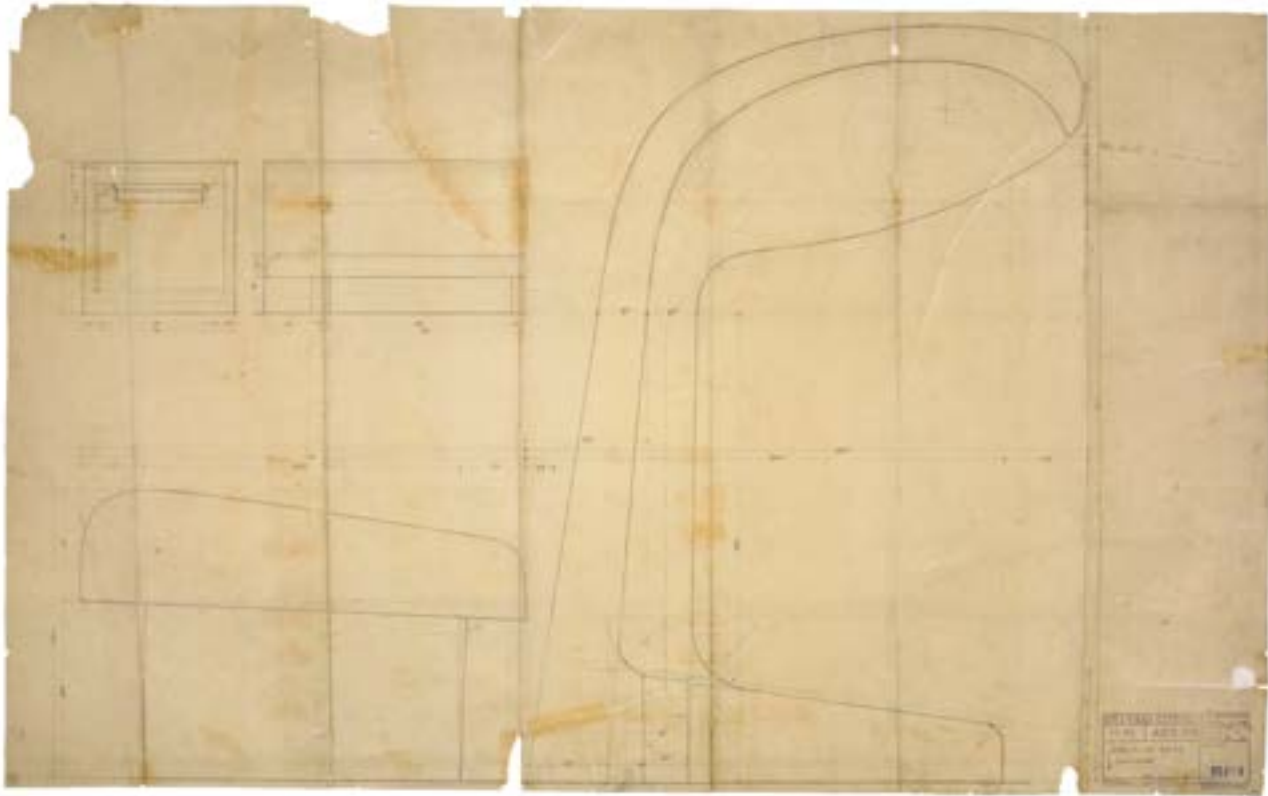

Concrete floor and table lamps, conceived for the Unité d'Habitation de Marseille and for Bhakra Dam, Sukhna Dam in India in 1952. Each lamp is a handcrafted product: small aesthetic and finishing differences between one lamp and the other, make them unique.

Borne Béton Grande

*“Contour and profile are
a pure creation of the mind;
they call for the plastic artist”.*

Le Corbusier

Lampe de Marseille

Pablo Picasso

LAMPE DE MARSEILLE

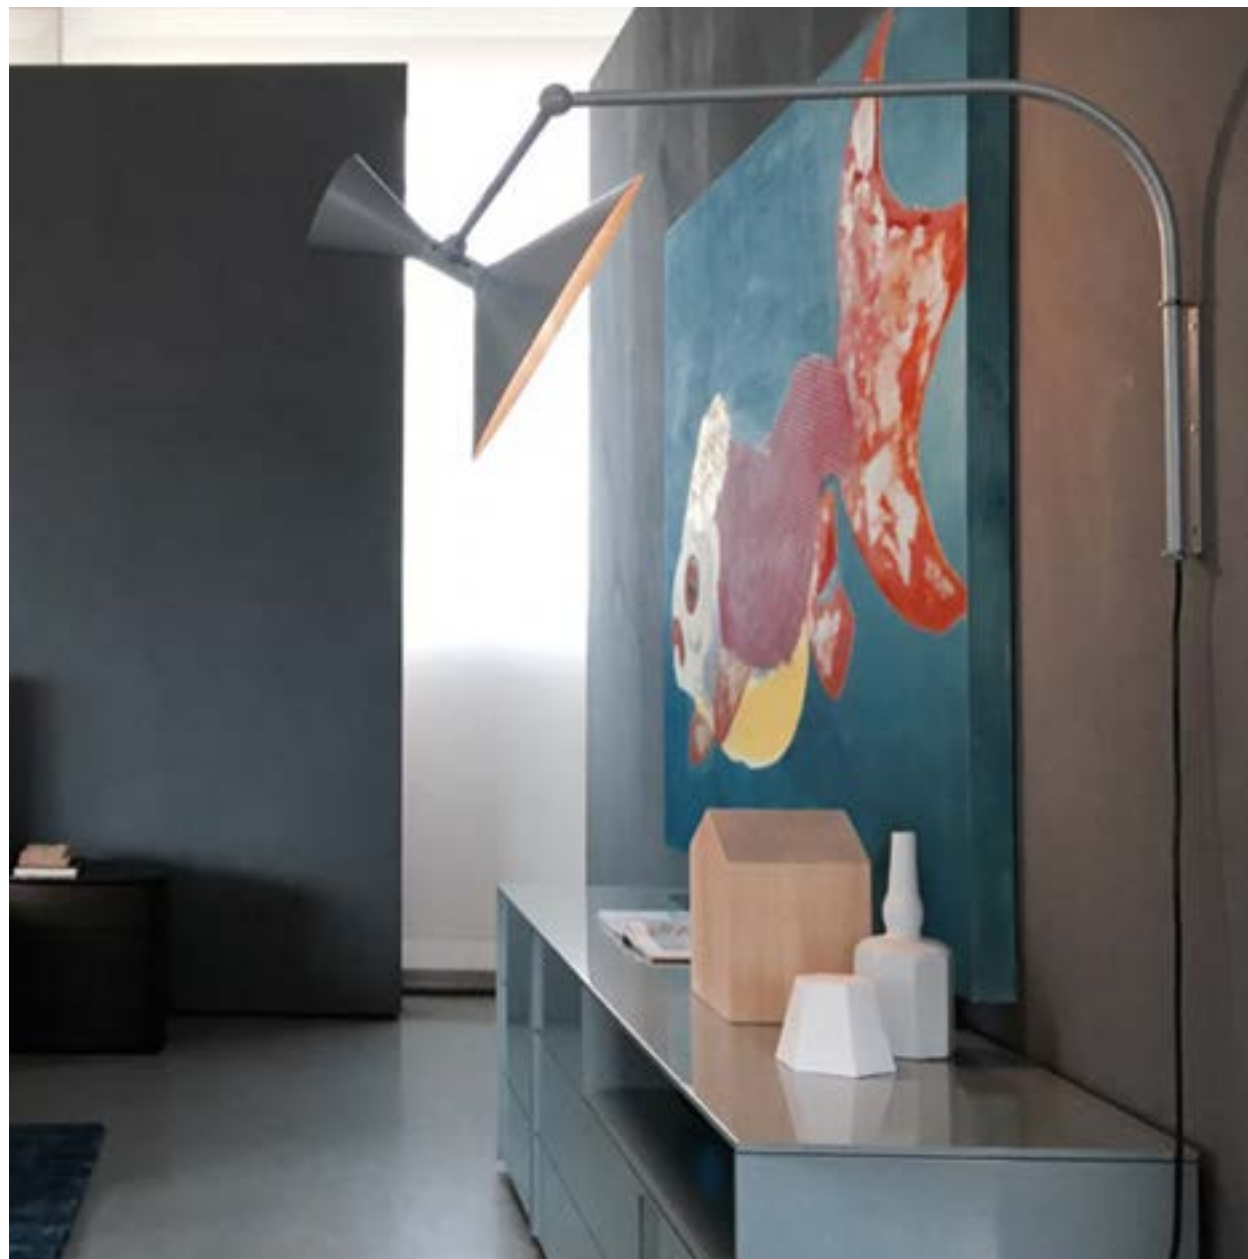

Le Corbusier 1949/52

Designed by Le Corbusier for the Unité d'Habitation of Marseille in 1949/1952, it is an adjustable wall lamp with two joints on the arm and a rotating wall fixing. Spun aluminum diffuser available with matt grey or whitewash body and white interior. Double switch on the cable for functional and adjustable direct and indirect lighting.

WALL HALO/FLUO/LED

E26 Ø4.3" (down)+A60 (up) | double emission,
direct+indirect | 2x70W | mono switch, on cable |
120V | IP 20 (indoor, dry location) | *note* installation
with cable+plug, cable length 4.9'+4.2'

● LDM EDD 31 *structure* matt grey
● LDM EWW 31 *structure* whitewash

“In his Decorative Art, Le Corbusier writes about “machines for sitting, for classifying, for lighting”, in 1924. Among the illustrations of the famous essay, he uses a suspension of industrial production as an up-to-date object, counter-posed to the nonsense of the period lightings, so widely available at that time. He starts his battle for the affirmation of a functional and linear design, practical and versatile, with durable materials and formal choices, that goes far beyond the moods of decorative fashions.”

Lampe de Marseille grey

Domitilla Dardi, design historian

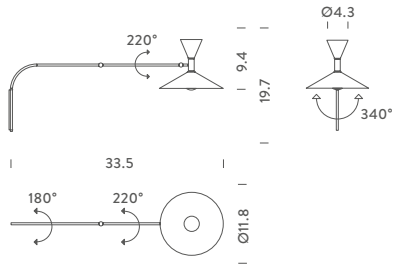

Mini version of the Lampe de Marseille. Aluminum with spun aluminum diffuser available in matt grey or whitewash body and white interior. Switch on the cable. Functional and adjustable light output.

CLARITAS

Vico Magistretti, Mario Tedeschi 1946

Claritas is the first lamp designed by Vico Magistretti, produced with Mario Tedeschi in 1946. The lamp is made of bent metal tubes, painted in black. Parts of the structure are in chromed metal. Aluminum diffuser painted in black with white interior.

FLOOR HALO

E26 A60 | indirect, orientable | 100W |

location)

note dimmer on cable, cable length 7.2'

● CLA ENN 21 *structure* black

“The most important thing for me is conceptual simplicity, which is usually translated into constructive clarity. A conceptually simple object could be made just using the telephone”.

Vico Magistretti

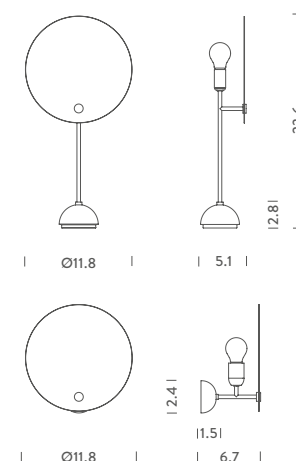

KUTA

Vico Magistretti 1979

Table and wall lamps with a circular reflector in aluminum, which shields the lighting distribution, giving the effect of a solar eclipse. The circular screen is painted in white and black, the stem and the small metal parts are chromed and base in white marble.

LINESCAPES SYSTEM

Nemo Studio

Linescapes is a modular system that is completely changing the approach to high performance diffused direct and indirect lighting. The singular modules are connected by quick molded ABS connectors, which enable rapid jack installation and a 360° rotation. The different elements allow the composition of continuous lines and edges, with luminous efficiency and an excellent diffusion degree, through an opaline polycarbonate diffuser. The system has been studied to provide user friendly maintenance. Nemo has efficiently solved the problem of replacing LED built-in sources, whereby the singular lighting elements can be easily changed.

JANEIRO K

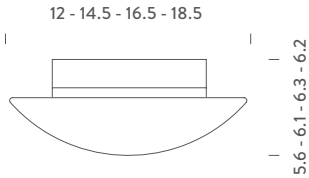

The Janeiro K offers the same triplex glass features as the Janeiro series except the glass twists and locks into place. The Janeiro K also has an additional 21.5” option and is available in LED for all sizes. Janeiro K Emergency has an electronic ballast, high power factor, class 120/277V battery back up included with test switch and LED indicator light.

10 - 12 - 15.5

MAGA

Pendant and wall/ceiling lamp with diffuser in opal blown glass. Spring transparent plastic fixing or chromed wall fixing.

HALO/FLUO/LED

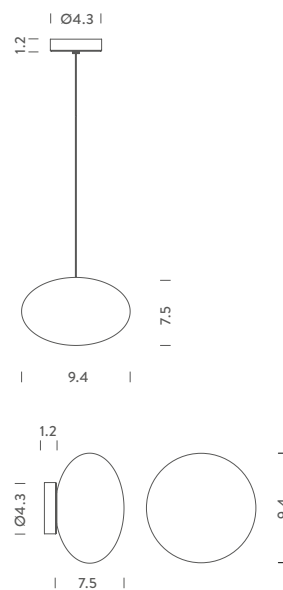

E26 | diffused | 100W | 120V |
IP 20 (indoor, dry and damp location) |
dimmable according to bulb

Pendant

○● MGA EWW 51 *structure chrome*

Wall/Ceiling

○● MGA EWW 31 *structure chrome*

EASTON

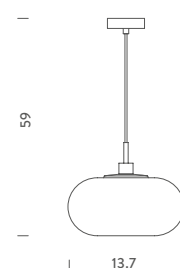

Pendant lamp with matt opal white triplex glass diffuser and either a white or red cord. Chrome particulars.

PENDANT

E26 A19 | diffused | 100W / 75WLED | 120V | dimmable according to bulb | IP 20 (indoor, dry location)

○ EASTON-WHT *cord white*

● EASTON-RED *cord red*

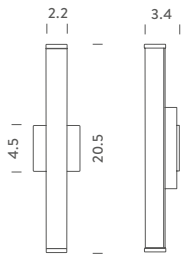

VANA

Horizontal or vertical wall mount fixture. Opal white glass, polished chrome trim. Integrated LED line light, dimmable, driverless. Mount to standard 4” octagonal junction box.

WALL LED ADA

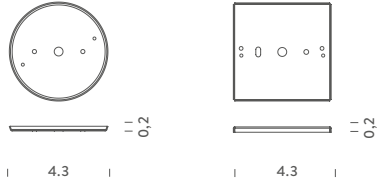

LED | diffused | 44W | 3000K | 1800lm | typ cri 90 | dimmable | 120V | IP 20 (indoor, dry and damp location) | *note* horizontal or vertical mount

○● VANA2CH *structure* polished chrome

NEMO G9 LED KIT

NEMO developed, specifically for its products, a dimmable G9 LED source of small size, with a 360° emission. The G9 LED kit has two different color temperatures (2700K or 3000K). Kit of 6 bulbs.

2700K 120V

G9 LED | diffused, 360° | 2.2W | 220lm | typ cri 81 | 83lm/W | dimmable according to dimmer specification | 120V

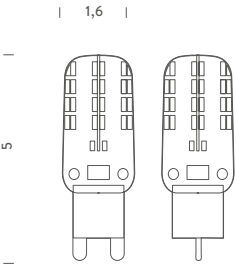

LED D62 71

3000K 120V

G9 LED | diffused, 360° | 2.2W | 220lm | typ cri 81 | 93lm/W | dimmable according to dimmer specification | 120V

LED D63 01

This document supersedes and updates all previous catalogues and publications in relation to the products listed here in.

The author has made every effort to ensure the accuracy of the information within this catalog was correct at time of publication and invites any person or organization that might posses any right on the published material to contact Nemo.

Dimensions are indicated in inches. Luminaires are normally supplied without light sources, except when otherwise indicated. Products with anodized finishes could show different color shades due to the industrial galvanic process. Shades have to be considered as aesthetic elements of the product. Polishing process is hand-made. Shades are therefore due to this manual process. Dimensions of products made with deformations of extrusions could be subject to changes of $\pm 0.393701''$. As blown glass is produced by traditional craft techniques, its thickness, color and finish are subject to variations, a feature that makes each piece unique. NEMO reserves the right to make any technical or formal alterations to its products without giving prior notice, especially for LED sources. Information concerning luminous flux/power consumption are expressed in nominal values. Effective data are indicated in the technical sheets available on the website. Warranty Conditions are indicated in a tag attached to each luminaire. When a certain lamp is supplied with the bulb, the same shall be seen as a pure service to the customer. The cost of the bulb is not included in the price of the product and therefore NEMO shall not be held responsible for any replacement in case of malfunctioning of the bulb. In case of discrepancy between the information contained in the printed materials and the website, this latter shall prevail.
