Please follow the troubleshooting steps below.

1. Switch on: Hold down the power button for three seconds and

Hear the power button, the light starts flashing blue.

2. Charging: Use the USB socket to charge, the light is on

always red.

3. Bluetooth connection: The connection name of the Bluetooth device is

"HEYSONG AQUA", the light is always blue to indicate that it

is connected.

4. Function of the test button: Test the switch on/function in each case

Tone adjustment/upward and downward curve.

5. Complete the test.
