

| Item                        | Test Method | Typical Value               |
|-----------------------------|-------------|-----------------------------|
| <b>Thickness</b>            | ASTM C1185  | 10mm                        |
| <b>Mass</b>                 |             | 13 kg/m <sup>2</sup>        |
| <b>Density</b>              |             | 1500-1600 kg/m <sup>3</sup> |
| <b>Roll size</b>            |             | 2.0m x 50m                  |
| <b>Area</b>                 |             | 100 m <sup>2</sup>          |
| <b>Compressive strength</b> | ASTM C109   | > 30 MPa                    |
| <b>Bending Strength MD</b>  | ASTM C1185  | > 15 MPa                    |
| <b>Bending Strength CMD</b> | ASTM C1185  | > 15 MPa                    |
