# **CLASSIC CANTABILE**

# GP-A 810 Digital Grand

# User manual

Item 00055903, 00055904 Version 01/2019\_2 Thank you for choosing the Classic Cantabile GP-A 810. We hope you enjoy your new Classic Cantabile GP-A 810.

Please read these instructions carefully to ensure that you can make full use of the practical features of the Classic Cantabile GP-A 810.

We also recommend that you keep this manual in a safe and easily accessible place for future reference.

# ⚠ Attention!

Before switching on and using the device for the first time, be sure to read the safety instructions to avoid injury and damage to the device.

### Safety instructions

Please read these instructions before operating the device and keep them in a safe place. Follow the safety instructions to prevent damage or injury from electricity, short circuits, or fire. This includes the following:

Do not remove the housing or rear panel; there are no parts inside the device that you can service yourself. If repairs are necessary, please contact a qualified repair shop.

- Do not expose the device to rain or other moisture, and avoid operating it in damp or wet conditions. Do not place any liquid-filled containers on top of the device to prevent splashes from entering the device.
- If the power cord or plug is damaged, if there is a loss of sound during use of the piano, if you notice an unusual smell or if smoke is emitted, please switch off the device immediately, disconnect it from the power supply and take it to a qualified repair shop.
- Only use voltages for which the device is approved. This is indicated on the type plate of the piano.
- · Always disconnect the device from the power supply before cleaning it. Never touch the plug or the socket with wet hands!
- Please check the condition of the plug regularly and remove any dirt or dust that may have accumulated on it.

### **Precautions**

- Do not place the power cord near heat sources such as radiators or heaters, do not bend it excessively, do not place heavy objects on it, and take care not to damage it in any other way. Lay it so that no one can trip over it or step on it and so that no objects can roll over it.
- If you wish to disconnect the device from the power supply, always pull on the plug and never on the cable.
- Do not operate the piano from a multiple socket, as this may result in sound loss, overloading or overheating of the
- Disconnect the piano from the power supply if you do not intend to use it for a long period of time and always during a thunderstorm.
- · Before connecting the piano to other devices, always switch off all devices, turn all volume controls to minimum, and then switch on the devices.
- · Do not expose the device to excessive dust or vibrations, heat or cold, or direct sunlight, and do not leave it in the car during the day. This will prevent discoloration and damage to the surface as well as damage to the electronics.
- Do not use the piano near televisions, radios, or speakers to avoid interference that could disrupt the operation of the
- Do not place the piano on uneven ground, as this will make it unstable and it may tip over.
- · Before transporting the piano, please disconnect all cables.
- If you wish to clean the device, please use a dry, soft cloth. Do not use thinners, solvents, other cleaning fluids, or chemically impregnated cloths. Do not place any vinyl products on the piano, nor any plastic or rubber objects. This could discolor the surface of the piano.
- · Do not sit on the piano or place heavy objects on it.
- Do not use force when handling buttons, keys, and plugs.
- Be careful not to trap your fingers in the key cover. Never put your fingers in the gap between the cover and the
- Make sure that no objects of any kind get into the gap between the cover and the keyboard. If this happens, disconnect the device from the power supply and take it to a qualified repair shop for inspection.
- Keep a distance of 3 cm between the wall and the piano. This is important for air circulation, which prevents the piano from overheating.
- · Read the chapter on assembly and initial operation carefully, as improper assembly may result in injury or damage to
- · Do not operate the piano at high volume for long periods of time, as this may cause hearing loss, which may be permanent. If you suspect that your hearing is impaired or if you hear noises such as ringing or whistling, please consult a doctor.
- Switch off the device during a thunderstorm and disconnect it from the power outlet.

# Safety instructions (brief overview)

Please read the following section carefully before using the instrument! Please keep this operating manual in a safe place.

# **Power supply**

Please connect the supplied power supply unit to a power outlet with the correct voltage. Do not connect the device to a power outlet that is not suitable for the device. Disconnect the power supply unit from the power supply when you are not using the instrument or during a thunderstorm.

# connections

Before connecting the instrument to other devices, please switch off all devices first. This will protect the devices from damage and help prevent malfunctions.

# **Environment**

To prevent deformation, discoloration, or more serious damage, do not expose the device to the following conditions:

- direct sunlight
- extreme temperatures
- extreme humidity
- dust or dirt
- strong vibrations or shocks magnetic fields.

# Interference

If radio or television sets are located near the instrument, interference may occur. If this is the case, please move the devices further apart.

# Cleaning

Please clean the instrument only with a soft, dry cloth. Do not use paint thinners, solvents, cleaning fluids, or chemically impregnated cleaning cloths.

# Handling

Please do not use excessive force when handling buttons and switches and ensure that no paper, metal, or other objects can get into the instrument. If this happens, please disconnect the device from the power supply immediately and take it to a specialist dealer for inspection.

Always disconnect all cables before moving the instrument!

# Assembly

Before assembly, please check that all parts shown in the illustration are included in the package. If any parts are damaged or missing, please contact Musikhaus Kirstein customer service.

| Α | Pedal bracket    |
|---|------------------|
| В | Right stand      |
| С | Left stand       |
| D | Rear stand foot  |
| E | Piano body       |
| F | Washer           |
| G | M12x45mm hexagon |
|   | screw            |
| Н | Ø3x15mm screw    |
| 1 | Copper rod       |
| J | Wrench           |

.

Now follow the instructions to attach the legs to the piano. You will need a Phillips screwdriver, which is not included in the delivery.

A) Turn the box upside down so that the bottom of the box is facing up and open the box. Remove the protective foam from the piano.

B) Place the left foot (C) on the left side of the piano body. Then align the pre-drilled holes so that they match those on the piano. Next, place a washer on each screw (G 2x) and tighten them with the wrench.

Repeat this step to mount the right and rear feet.

C) Use the screws (H) to attach the two copper rods to the rear of the pedal bracket.

D) Then place and secure the pedal bracket on the underside of the piano body.

# E) Now you can turn the piano over.

# Display & control unit Front control unit

# 1.Volume control

Adjust the volume here.

### 2.Brilliance control

Use this to adjust the brilliance or brightness of the sound.

# 3.Recording button

With USB stick inserted: Press to start audio recording.

**Without USB stick:** Press to start MIDI recording. Press and hold the button to access the settings.

# 4.Tempo (+/-) buttons

Use these buttons to adjust the speed.

## 5.Style selection button

Select a style here. Press the button once to select a primary style and press the button again to select a secondary style.

# 6.A.B.C. button

Press this button to turn the A.B.C. function on or off.

Press and hold the button to access the chord settings.

# 7.Fade in/out button

Press this button to turn fade in or fade out on or

Press and hold the button to access the fade function settings.

# 8.Intro/Ending 1 button

Plays the intro or ending 1 pattern.

# 9.Intro/Ending 2 button

Plays the intro or ending 2 pattern.

# 10.Main A button

**In style mode:** Plays the main pattern A. **In song mode:** Turns the right hand on/off.

# 11.Main B button

In Style mode: Plays the main pattern B.

**In song mode:** Plays the current song in a continuous loop.

### 12.Main C button

**In Style mode:** Plays the main pattern C. **In song mode:** Plays all songs in a continuous loop.

# 13.Main D button

**In Style mode:** Plays the main pattern D. **In song mode:** Plays the current song from the beginning

**In Bluetooth mode:** Plays the previous Bluetooth song.

## 14.Sync Stop button

**In Style mode:** Turns the Sync Stop function on or off.

In Song mode: Fast-forwards the current

playback.

In Bluetooth mode: Plays the next Bluetooth

song.

# 15.Sync Stop button

In Style mode: Turn the Sync Stop function on or

In Song mode: Pause playback.

In Bluetooth mode: Pause Bluetooth playback.

# 16.Start/Stop button

Start/stop playback of a song (including Bluetooth).

# 17.METRO button

Press the button to activate the metronome. Press and hold the button to access the settings.

# 18.FUNCTION button

Press the button to access the function menu.

# 19.Demo button

Press the button to enter demo mode.

# 20. Mixer button

Press the button to access the mixer menu.

## 21.STYLE button

Press this button to activate style mode.

## 22.USB button

This button activates USB mode. Press and hold the button to access the USB menu.

# 23.VOICE button

Press the button to activate voice mode.

# 24.SONG/BLUETOOT H button

When Bluetooth is disabled, press the button to activate song mode.

When Bluetooth is enabled, press the button once to activate Bluetooth mode and press it again to switch to song mode.

# 25.DATA knob

Use this to adjust parameters.

# 26.+/YES button

Increases the value of a parameter. Press [+/YES] and [-/NO] simultaneously to restore the default values.

# 27.-/NO button

Decreases the value of a parameter. Press [+/YES] and [-/NO] simultaneously to restore the default values.

## 28.BANK button

Select a memory bank

# 29.FREEZE button

Press the button to turn the freeze function on or off.

Press and hold the button to enter the settings.

# 30.STORE button

Save the current settings to a memory location.

Press STORE and M1 simultaneously to save the settings to M1.

# 31.VOICE Select buttons

This allows you to select a pre-installed voice directly. Press the button once to select the primary voice and press the button again to select a secondary voice.

# 32.M1-M6 buttons

In memory mode: Load settings from the corresponding memory location.

In O.T.S. mode: Load voices that match the current style.

# 33.O.T.S. button

Press this button to turn One Touch Setting on or off.

# 34.DUAL button

Press the button to turn dual mode on or off.

## 35.PIANO button

Press this button to activate piano mode.

# 36.LOWER button

Press this button to turn the LOWER function on or off. Press and hold this button to access the split point settings.

# 37.TWINOVA button

Press the button to activate or deactivate the Twinova function. Press and hold this button to access the Twinova split settings.

# 38.HARMONY button

Press the button to turn the Harmony function on or off

Press and hold this button to access the Harmony settings.

# 39.TRANSPOSE +/buttons

Adjust the transpose values.

# 40.DSP button

Press the button to turn DSP on or off. Press and hold the button to access the DSP settings.

# **Connections**

# 1.Pedal jack

Connect your pedal here.

# 2.MIDI OUT / MIDI IN / MIDI THRU jacks

You can connect external MIDI drives to the piano's jacks using standard MIDI cables.

The MIDI IN jack receives MIDI data from an external drive, while the MIDI OUT jack transmits MIDI data generated by the piano.
MIDI (Musical Instrument Digital Interface) is an international standard format for communication between electronic musical instruments. This means that all devices that have a MIDI terminal, e.g. electronic instruments or computers, can easily exchange data with each other without having to convert it.

# 3.USB socket

Here you can connect your keyboard to your computer, for example, to transfer songs or play the keyboard through your PC speakers.

# 4.Microphone jack

Before connecting your microphone, please ensure that the volume control is set to 0, as otherwise very loud noise may occur.

# 5.Microphone volume control

Use this to adjust the volume of the microphone.

# 6.AUX IN jack

This connection allows the piano to play sounds, songs, and other audio from the connected device through the speakers. Use an audio cable and connect it to the AUX IN connection on the piano and the "Output" connection on your device (e.g., MP3 player).

# 7.AUX OUT jack

This connection is used if you want to connect a more powerful external audio source (e.g., amplifier). Use an audio cable and connect it to the AUX OUT connection on the piano and the "Input" connection on the external device.

# 8. Power connection

Connect the supplied power supply unit here.

# 9.Headphone jack

Plug your headphones in here. The built-in speakers in the piano will automatically turn off when headphones are connected.

# 10.USB port

Connect your USB stick here to load or save files.

# **Power**

- **1.** Before switching on, check that the on/off switch is set to "Off" and that the volume controls are set to "0".
- **2.** Connect the power supply to the piano and to a 230V power outlet.
- 3. Press the POWER button

# Adjusting the volume

Turn the knob to adjust the volume. Note: Excessive volume can damage your hearing over time.

# Adjusting the brilliance

Brilliance determines the timbre of the piano. The more brilliance is added, the more dominant the sound of the piano becomes. This setting can also be adjusted using the rotary wheel.

# Playing demo songs

The piano offers a variety of demo/learning songs that you can use for learning or just for fun.

- **1.** Press the DEMO button.
- 2. Use +/YES or -/NO to select the desired song.
- **3.** Press START/STOP to stop playback.

Note: Note entry is disabled during playback.

# Selecting a voice

This piano has the ability to sound like high-quality acoustic pianos/grand pianos and at the same time sound like other instruments such as drums.

- 1. Press VOICE.
- 2. Use +/YES or -/NO to select the desired song.
- 3. Play with the selected voice

# Two voices simultaneously

- **1.** Activate the DUAL function using the DUAL button.
- 2. Select the desired song using +/YES or -/NO (shown as R2 on the display).
- 3. Play with the voices.
- **4.** Deactivate the DUAL function by pressing the DUAL button again.

# Different voices on both hands

Here, the piano is divided into two halves. Each half can use its own voice.

- 1. Press LOWER. The display now shows "L."
- 2. Select a voice using the data control wheel.

3. Changing the split point

Press and hold the LOWER button to enter the menu. You can then use the +/-buttons (or by pressing the desired point) to reset the split point. The default point can be set by pressing + and - simultaneously.

**4.** Press the VOICE button to activate or deactivate R2 and L.

# **Transpose**

This function allows you to change the pitch of the piano in semitone steps to match other instruments or singers. This makes it easy to change the key without having to adjust your fingering. For example, if Transpose F is selected, an F will sound when you play a C. In other words, you can play the piece in C major and hear it transposed to F major.

- **1.** Press Transpose+ / Transpose- to adjust the value.
- 2. Pressing + and simultaneously restores the default value.

# Piano mode

This mode is specifically designed for piano players, allowing the digital piano to reproduce the sound and feel of an acoustic piano.

 Press PIANO to activate/deactivate the mode.

# Twinova

This mode divides the piano into two identical sections, allowing two people to play together.

- 1. Press TWINOVA. The default split point is E3.
- **2.** To change this, press and hold TWINOVA and then press the desired split point.
- 3. The default point can be set by pressing + and simultaneously.
- **4.** Press and hold TWINOVA and then select TWINOVA OCTAVE to shift the octaves using +/-.

**Note:** The pedal functions change as follows in this mode:

Right pedal: Notes in the right range sound longer. Middle pedal: Notes in both ranges sound longer. Left pedal: Notes in the left range sound longer.

# **Automatic accompaniment**

This function provides you with a complete band or orchestra as accompaniment. Depending on the chords you play with your left hand, the automatic accompaniment adjusts itself automatically. The instrument has a wide selection of styles. Try out different ones; you will find a list of available styles in the appendix.

# Accompaniment plays only the rhythm

- 1. Press STYLE.
- 2. Use +/- to select the desired style.
- **3.** Press Start/Stop to start or stop the automatic accompaniment.

# Playing entire songs in a style

In this mode, the piano also plays the appropriate chords when chord mode is activated.

In chord mode, the piano offers the following options:

| Chord type     | Description  |
|----------------|--|
| Fingered       | Automatically recognizes all types of chords                 |
| Multi Finger   | Only recognizes multi-finger chords (C major 6, for example) |
| Bass inversion | Plays the inverted bass version of the chord being played    |
| Full Range     | Combines all of the above functions                          |

**1.** Press the A.B.C. button and select the desired mode by pressing it again.

If you only want to play certain chords, press and hold A.B.C. to access the settings and select the chord type using +/-.

**2.** Press SYNC START. This will start the automatic accompaniment after you have played a chord.

Alternatively, you can also play a song in the background by pressing START/STOP.

# **Accompaniment variations**

Other effects can also be added to increase the variation.

# **INTRO**

Adds a suitable intro.

# MAIN

This adds a suitable chord pattern.

# **FILL IN**

This adds a suitable sequence of chords.

# **END**

This adds a suitable ending. Once the ending is finished, the automatic accompaniment also stops.

INTRO/ENDING

MAIN

# Adjusting the speed

Each style comes with its own tempo, but you can change this as you wish.

- Press TEMPO+ or TEMPO- to adjust the speed. You can also turn the DATA CONTROL WHEEL.
- 2. The default value can be restored by pressing + and simultaneously.

# **One-touch setting**

This allows you to access all automatic accompaniment settings (including voice selection and digital effects).

- 1. Press O.T.S. to activate the function.
- **2.** Press M1-M4 to call up the settings that match the current style.

**Note:** In the OTS menu, you can specify exactly which functions should be activated and which should not.

# Metronome

The metronome provides a steady beat to help you play.

- 1. Press METRO.
- 2. Press METRO again to turn off the metronome.

# Metronome tempo and tone

Press and hold METRO to access the settings, then use +/- to change the tempo.

| 1 | Func METRO 4/4 |   |     |          |     |        |   |
|---|----------------|---|-----|----------|-----|--------|---|
|   |                | Ö | 4/4 | 00 1:0 1 | 096 | 0 1- 1 | Γ |
|   |                |   |     |          |     |        |   |

# **Equalizer**

Here you can adjust the volume of all effects and tracks to maintain balance.

- 1. Press MIXER.
- Select the desired parameter.
   Adjust the volume of the parameter using +/-. The default value can be restored by pressing + and – simultaneously.

| Parameter            | LCD Display   |     | Volume Range |
|----------------------|---------------|-----|--------------|
| Music volume         | MUSIC VOL:    | XXX | 0 - 32       |
| Voice R1 volume      | R1 VOL:       | XXX | 0 - 32       |
| Voice R2 volume      | R2 VOL:       | XXX | 0 - 32       |
| Voice L volume       | L VOL:        | XXX | 0 - 32       |
| Metronome volume     | METRO VOL:    | XXX | 0 - 32       |

# **DSP** effect

The DSP effect gives your sound a certain depth or its own ambience. This is achieved by simulating a real environment, such as playing in a large hall.

# The DSP effect is enabled by default and can be disabled using the DSP button.

- **1.** Press and hold the DSP button.
- 2. Select the desired parameter
- **3.** Change the parameter with +/-.

# **Harmony**

This function allows you to add different harmony notes to the right-hand notes, immediately giving your playing a more harmonious sound.

# Playing with the harmony function

- 1. Press HARMONY to activate the function; the indicator light will illuminate.
- 2. Turn on the A.B.C. function and play a chord with your left hand. When you play with your right hand, harmonies will be added automatically.
- 3. Press HARMONY again to turn off the function.

# **Setting the harmony variation**

- 1. Press and hold the HARMONY button to open the corresponding menu.
- 2. Use the +/YES and -/NO buttons to select a harmony type.

|   | Func HARMONY Duet |       |                  |          |     |                  |
|---|-------------------|-------|------------------|----------|-----|------------------|
| Γ |                   | TRANS | SIGNATURE<br>4/4 | 00 I:0 I | 096 | MEMORY<br>□ 1- 1 |
|   |                   |       | A 8 C            |          |     |                  |

**Please note:** Harmony types "1+5" and "Octave" are always available; the others are only available when you activate the A.B.C. function and play a chord in the left-hand area of the keyboard.

# **Function menu**

- 1. Press the FUNCTION button to open the menu; the current parameter appears on the display.
- 2. Use the rotary wheel to select a parameter. Use the +/YES and -/NO buttons to change the values. Press both buttons simultaneously to reset the value to the factory setting.

Please note: If no input is made within 10 seconds, the function menu will automatically close.

# **Voice settings**

This function changes the tuning of the entire keyboard in 2-cent steps within a range of  $\pm$  50 cents (100 cents).

- 1. Select the "Tune" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to change the value.

# Octave shift

This function allows you to change the pitch of a selected sound by one octave.

Select the parameter
 "Octave R1", "Octave R2" or "Octave L" from the
 function menu.

2. Use the +/YES and -/NO buttons to change the value.

Please note: The factory settings for the sounds may vary.

# **Touch sensitivity**

This function allows you to control the sound level via the touch sensitivity, just like on an acoustic instrument.

- 1. Select the "Touch" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to change the value.

**Please note:** The setting remains stored even when you switch off the instrument.

# Chord type setting

Here you can set the chord input variant.

- 1. Select the "Chord" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to change the value.

# Func CHORD Fingered

# Changing the split point

The split point "divides" the keyboard into two areas. When automatic accompaniment (A.B.C) is active, the left hand controls the playback of the automatic accompaniment. When automatic accompaniment is inactive, the left hand plays the lower voice.

- 1. Select the parameter
  - "Lower Split" in the function menu.
- 2. Use the +/YES and -/NO buttons to change the value.

# **Twinova Split Point / Octave Shift**

Here you can set the split point and octave for Twinova mode.

- 1. Select the "Twinova Split/Twinova Octave" parameter from the function menu.
- 2. Use the +/YES and -/NO buttons to change the value.

# **Harmony variant**

- 1. Select the "Harmony" parameter from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

| Harmony Type | LCD Display |
|--------------|-------------|
| Duet         | Duet        |

| Func                  | Н | ARM | IONY      |     | Duet   |

# **Equalizer**

The EQ controls the gain of the different frequency ranges. Different EQ values result in different sounds.

- 1. Select the "EQ" parameter from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

| Ì | Func EQ Piano |   |     |          |     |       |  |
|---|---------------|---|-----|----------|-----|-------|--|
|   |               | Ö | 4/4 | 00 1:0 1 | 096 | 0 1-1 |  |

# **String resonance**

When a piano sound is selected, pressing the sustain pedal produces a string resonance effect. The effect sounds like an acoustic grand piano.

- 1. Select the parameter "String Res."
- 2. Use the +/YES and -/NO buttons to make your selection. **Please note:** The setting will remain even if you turn off the piano.

|   | Func STRING RES. 8 |       |                  |          |     |        |  |
|---|--------------------|-------|------------------|----------|-----|--------|--|
| Г |                    | TRANS | SIGNATURE<br>4/4 | 00 1:0 1 | 096 | MEMORY |  |
|   |                    |       |                  |          |     |        |  |

# **Soft Pedal**

You can assign different functions to the soft pedal.

- 1. Select the "Soft Pedal" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

| Detailed description of the pedal functions |  |  |  |  |
|---|--|--|--|--|
| Function                                    | Description                                  |  |  |  |
| Soft  | Produces a softer sound for the notes played |  |  |  |
| Play  | Starts or stops playback of a style          |  |  |  |
| Memory                                      | Switches between memory locations            |  |  |  |

# Freeze

When the Freeze function is activated, style settings are not changed even when a memory is recalled.

- 1. Select the "Freeze" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

**Please note:** The settings are only available when the Freeze function is active.

# Metronome beat and tone

- 1. Select the "Metro" parameter from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

| Func METRO 4/4 |  |   |     |          |     |        |
|----------------|--|---|-----|----------|-----|--------|
| Г              |  | Ö | 4/4 | 00 1:0 1 | 096 | 0 1- 1 |
| l              |  |   |     |          |     |        |

# Fade setting

You can set the time for the fade in/out in seconds.

- 1. Select the parameter "Fade Time" from the function menu.
  - "Fade Time" from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

# **MIDI Out Channel**

Here you can set the MIDI Out channel for sound R1.

- 1. Select the "MIDI OUT CH" parameter from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

Please note: The setting will remain even if you turn off the device.

# Song Loop (continuous loop)

A loop is the continuous repetition of a playback. You can choose whether all songs should be repeated, only one song, or none at all.

1. Select the "Song Loop" parameter in the function menu.

2. Use the +/YES and -/NO buttons to make your selection.

make your selection

**Please note:** This setting is retained even when the device is switched off.

# **Auto Standby (APO)**

The device switches off automatically after 15 minutes of inactivity. You can deactivate this switch-off function or adjust the time to suit your requirements.

- 1. Select the "Power Off" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

**Please note:** This setting is saved even when you switch off the instrument. Only deactivate the APO function for stage use.

# System time settings

It may be useful to have an accurate time setting, as this is used for saving data, for example. The setting is retained even when you switch off the device.

- 1. Select the "Year / Month / Day / Hour / Minute" parameter in the function menu.
- 2. Use the +/YES and -/NO buttons to set the time.

# **Automatic Bluetooth connection**

This setting determines whether Bluetooth connections are established automatically or not. Once a Bluetooth device has been successfully paired, the piano can automatically establish a connection as soon as the device comes within range.

- 1. In the function menu, select the parameter "Bluetooth Auto" from the function menu.
- 2. Use the +/YES and -/NO buttons to make your selection.

| I | Func BLUETOOTH AUTO On |   |     |          |     |        |  |
|---|------------------------|---|-----|----------|-----|--------|--|
|   |                        | Ö | 4/4 | 00 1:0 1 | 096 | 0 i- 1 |  |
|   |                        |   |     |          |     |        |  |

# Resetting to factory settings

- 1. Select the "System Reset" parameter from the function menu.
- 2. Press +/YES; "Reset all settings?" appears on the display.
- 3. Press +/YES if you really want to discard all your settings.
- 4. The next question "Delete the user song?" appears on the display.

- 5. If you want to delete all your songs, confirm the question with +/YES.
- 6. The process may take some time. Please wait patiently!

**Please note:** Do not switch off the device during this process, as this may destroy the internal data of the instrument and lead to malfunctions.

# **Performance Memory**

The "Performance Memory" function allows you to save all your settings and recall them at the touch of a button.

**Please note:** To reset the memory to the factory settings, hold down the factory settings, hold down the

STORE and M1 buttons pressed while turning on the device. This will delete all memory locations.

# **Setting the panel**

- 1. There are 6 memory locations (memory banks), M1-M6.
- 2. Hold down the STORE button and press one of the

M1 to M6 memory buttons. Please note that this will overwrite the previous settings.

# **Recalling settings**

Press one of the memory buttons M1 to M6; your settings will be recalled immediately.

If the "O.T.S" function is active, no information can be recalled from memory.

# Selecting a memory bank

- 1. Press BANK; the current number appears in the display.
- 2. Select a memory location by pressing the BANK button repeatedly.

# Making certain settings unchangeable (freeze function)

When the freeze function is activated, some style settings cannot be changed even when a memory is recalled.

- 1. Press FREEZE to activate the function. The indicator light will illuminate.
- 2. Press FREEZE again to turn it off; the indicator light will go out.
- 3. Press and hold the FREEZE button to enter the corresponding settings menu. You can specify whether the settings for voice, style, or song settings should be "frozen."

# Recording a song

You can choose between audio and MIDI recordings.

# **MIDI** recording

You can save a MIDI recording as a user song in your piano. You can play it back there or save it to a USB flash drive.

# Preparing to record

Press REC to put the device into standby mode. The indicator light will illuminate and "Rec" will flash on the display.

**Please note:** If a flash drive is inserted, press and hold the REC button to open the settings menu and select "MIDI" as the recording mode. You can also choose whether you want to save the recording to the piano or to the flash drive. Once you have finished the settings, press REC to put the device into standby mode.

In standby mode, you can select the settings for sound, style, tempo, etc.

To exit standby mode, press REC.

# Starting recording

From Standby mode, you can start recording by pressing START/STOP or by starting to play. The indicator light on the REC button lights up and the display stops flashing.

# Stop recording

- 1. To stop recording, press REC; the indicator light will go out.
- 2. When the memory is full, recording stops automatically and the recording is saved.

# Playing back a recording

1. After stopping recording by pressing the REC button, song mode is activated and the recorded song is displayed. Press START/STOP to start playback.

2. In standby mode, you can press SONG to enter this mode. Use the +/YES and -/NO buttons to select a user song and then press START/STOP to play the song.

# **Recording settings**

- 1. Press and hold the REC button to open the settings
- 2. Select a parameter using the rotary wheel.
- 3. Change the settings using the +/YES and -/NO buttons.
- 4. You can then start recording as described.

| Rec Record Type: |   |     |          |     | MIDI   |  |  |

| Saving the MIDI Recording To | MIDI Save To: | XXX | Internal Flash, USB Flash |

# Please note:

- 1. The settings for the first and last parameters can only be changed when a flash drive is inserted. For more information, refer to the section entitled "Flash Drive."
- **2.** If you used DSP effects during MIDI recording, the preset DSP effects for sounds R1, R2, and L will be deactivated during MIDI playback and cannot be changed. They will be reactivated as soon as you pause or stop MIDI playback or exit MIDI mode.
- **3.** If you are using channels 4-8 for recording, please connect an external MIDI keyboard or similar MIDI device via the MIDI or USB port and adjust the MIDI Out channels accordingly.

# **Audio recordings**

When you make an audio recording, the recording is saved as an MP3 file on a USB flash drive. All sounds you hear during recording are saved faithfully.

- 1. Connect a USB flash drive and wait until the indicator light comes on.
- Press REC to start recording; the indicator light will illuminate. If you want to make a MIDI recording instead, hold down the REC button and change the recording type to MIDI in the settings as described above.
- During recording, you can use the automatic accompaniment, the keyboard, play songs or demos, play music via the Aux In jack or via a microphone. All these sounds will be recorded.
- 4. To stop recording, press the REC button. The indicator light goes out.
- 5. The recorded song is automatically saved as "AudioRec 001."

Press START/STOP to start playback.

**Please note:** Never remove the USB drive or turn it off while a song is being saved. This could damage both the file and the drive.

# **Preset songs**

The piano has a selection of beautiful piano pieces, which you will find in the song overview in the appendix.

# **Playing songs**

- 1. Press SONG to enter the mode; the number and name of the current song appear on the display.
- 2. Select a song using the dial wheel or the +/YES and -/NO buttons.
- 3. Press START/STOP to start playback.

# Please note:

- 1. You can use the loop function to play songs continuously.
- **2.** When Bluetooth is active, press the SONG button once to activate Bluetooth mode and a second time to switch to song mode.

# Song playback settings

- 1. Press button (15) to fast forward a song, (14) to rewind it, and 16 to pause it.
- 2. Pressing button (12) will repeat the current song continuously; press 13 to repeat all songs continuously.

# **Practicing songs**

The melody track can be turned off for all songs.

- 1. Press the LEFT button to turn off the melody for the left hand; the "L-Off" indicator will light up. You can now practice the part for the left hand.
- 2. You can practice the part for the right hand in the same way: press RIGHT; the "R-Off" light will light up.

# **Bluetooth**

- 1. The Bluetooth function is enabled by default; the Bluetooth name is "PIANO-AUDIO."
- 2. You can pair the piano with another Bluetooth device; once pairing is successful, this information is saved and the connection is always established automatically when the device is within range. You can disable this function in the function menu.

# **Playing Bluetooth songs**

- Once pairing is complete, the indicator will appear on the display. Press the SONG button (25) to activate Bluetooth mode.
- 2. Press START/STOP to start playback.
- 3. You can select a Bluetooth song using buttons (14) and (15). You can also use the +/YES and -/NO buttons.

# **Ending the Bluetooth connection**

 Use the rotary knob to select "Disconnect" and then press +/YES. The display shows "Disconnect Bluetooth?" appears on the display.

| <b>∦Song</b> |   | Disconnect |          |     |        |
|--------------|---|------------|----------|-----|--------|
| 6            | Ü | 4/4        | 00 1:0 1 | 095 | 0 1- 1 |
|              |   |            |          |     |        |

2. Press +/YES to disconnect.

Please note: In Bluetooth mode, you can press SONG to switch to song mode.

# Connecting a USB flash drive

The instrument recognizes USB flash drives between 32 MB and 128 GB that are formatted in FAT32 and are not partitioned. We recommend formatting the flash drive before using it in the instrument.

A flash drive in FAT 32 format supports up to 512 files in its root directory. Anything beyond that cannot be saved.

# Playing files from a USB stick

- Press USB to open the menu. All MIDI and MP3 songs in the root directory of the USB stick appear on the display.
- 2. Use +/YES and -/NO to select a song.
- 3. Press START/STOP to start playback. You can also activate a loop; see the "Function menu" chapter.
- 4. Press START/STOP again to stop playback.

# USB AudioRec001

# Saving files to a USB stick

- 1. Press and hold the USB button to open the menu and select "Save MIDI" with the dial wheel.
- 2. Press +/YES to save the song in the root directory.

  directory of the flash . . . .

  The name of the song is

- "UserSong00X\_YYMMDD\_NUB.MIDI." If the user song does not contain any data, the device displays "NoFile!"
- 3. After successful storage, the device displays "User song save successful!" and returns to the USB menu.

# Composition of the song name:

- "UserSong00X" is the name and number of the user song,
- "YYMMDD" is the year, month, and date of recording, and
- "NUB" is the sequential number (001-512).

# Loading a file from USB

- 1. Press and hold the USB button and select "Load MIDI" with the rotary wheel.
- 2. Press +/YES; the display shows all MIDI files (\*.mid) in the root directory. Use the rotary wheel to select one.

- 3. Press +/YES; "Load MIDI successful!" appears on the display to indicate that the song has been loaded successfully.
  - loading process. If the user song in the instrument is not empty, the display will ask "Overwrite the User Song?". If you want the song to be overwritten, press +/YES. If you do not want this, press -/NO.
- 4. After the loading process, the display returns to the USB menu.

**Please note** that overwriting will delete the original song on the instrument!

# Formatting the USB stick

- 1. Press and hold the USB button to open the menu. Use the dial wheel to select "Format USB."
- 2. Press +/YES; "Format USB Flash Drive?" appears on the display.
- 3. Press +/YES to format the drive or -/NO to cancel the process.
- 4. After formatting, the device returns to the USB menu.

# MIDI

# What is MIDI?

MIDI (Musical Instrument Digital Interface) is a worldwide standard for communication between electronic musical instruments and computers. By exchanging information between devices, MIDI instrument and drive systems can be created that are more versatile and flexible than isolated instruments. You can connect computers, sequencers, expanders, or other keyboards to your keyboard. MIDI signals can be divided into two groups: channel signals and system signals. The Pino has a USB port that can be used for both MIDI In and MIDI Out.

**Troubleshooting** 

| Problem   | Possible cause and solution  |
|---|--|
| You hear a "pop" when the device is turned on or off.                         | This is normal and not a cause for concern.  |
| Noises occur during use of a mobile phone.                                    | A mobile phone near the instrument may cause interference. cause interference. Turn off the phone or move further away from the device.                              |
| Problem   | Possible cause and solution  |
| You cannot hear anything when playing the keyboard.                           | The volume may be set too low. Turn it up a little. Check whether headphones are connected. Check whether the volume for R1/R2/L is set too low on the mixer.        |
| The automatic accompaniment does not start even though it is in standby mode. | Try starting the automatic accompaniment in the right-hand range. To start it synchronously, you must press a key in the left-hand range.                            |
| Certain notes sound wrong.  | Check that the tune value is set to 0. You can reset the instrument to the factory settings by holding down the +/YES and /NO buttons while turning on the keyboard. |
| The keyboard is not recognized after connecting to a computer.                | Check that the USB cable is properly connected and, if necessary, try connecting the keyboard to a different USB port.   |
| The pedal does not work.  | Check that it is connected correctly.  |
| Reading/writing to a USB flash drive does not work.                           | Only unpartitioned flash drives in FAT32 format are recognized. Please format the flash drive before use.  |
| The device switches off after a while.  | The device switches off automatically after a certain period of time. You can deactivate this function in the function menu.   |
