

Godrej

The most
advanced hi-tech
safety for homes,
now with stunning
good looks.

Advantis GSL D1.

Made in India, for the World.

The Advantis GSL D1 gives you multiple modes of access.

Mobile NFC:

Hassle-free access control without keys or cards, ideal for the elderly.

Remote Operation Over Wifi:

Unlock and monitor access history worldwide with added safety.

Mobile Bluetooth:

Easily unlock doors via Bluetooth with the Godrej Smart Locks App.

Biometric:

Secure access with fingerprint recognition, preventing unauthorised entry.

PIN Code:

Create strong, nearly unbreakable passwords with scrambled codes.

RFID Card:

Encrypted cards for enhanced safety, impossible to duplicate.

Mechanical Key Override:

High-level mechanical safety with EXS technology.

The Advantis GSL D1 smart door lock comes with easy-to-use features.

OTP: Generate a One Time Password through your mobile to enable one-time entry.

Time Limited Password*: Password (PIN) can be generated through the mobile app to access the lock for a limited-time duration.

Privacy Function: If the privacy button is turned on, the lock can't be opened from outside with a PIN, fingerprint, or RFID Card - only through a master password or mechanical override.

Passage Mode: The Passage mode in digital lock allows a temporary unrestricted access, ideal for events or occasions when frequent entries and exits are expected without the need for constant unlocking.

Anti-prank Alarm: Lock starts beeping after five failed attempts and generates a series of alarms.

Emergency Supply (Type C): A type-C cable can be used for emergency power supply instead of a 9V battery or Micro USB battery.

Audit Trail*: Stay updated with lock/unlock records over the app.

Voice Guided Function: Experience the convenience of a Voice guided function (in English & Hindi). For e.g. Door opening and closing, etc.

Break-in Alarm: This feature ensures you receive immediate alerts in case of unauthorised entry or intrusion.

Door Bell: Enjoy the convenience of a doorbell feature that alerts you when someone is at the door, enhancing your home safety.
