 - Add a Garment function allows you to add items mid cycle
 - 4.5 star water and energy rating

DIMENSIONS

Height	850mm
Width	600mm
Depth	665mm

FEATURES & BENEFITS

- 13 fabric care cycles**
- With 13 fabric care cycles including Quick, Bulky and Handwash. The specially-designed cushioned drum provides a gentle, effective washing action, protecting clothes while delivering an optimal wash performance.
- SmartDrive™ technology**
- SmartDrive™ Technology is a gentle, quiet, and efficient combination of smart electronics and a direct drive motor that senses the load, to deliver better fabric care.

Quick cycles

When time is short, you can select a quick 30 minute wash without compromising cleaning and fabric care. Vortex Wash allows most cycles to take less than 1 hour to complete. Water is forced from the bottom of the drum, so detergent and heat reach your clothes faster, cleaning quickly and avoiding over-washing.

Wash larger loads

The large 12kg drum can wash both small and large loads as well as bulky items like a king size feather doona. The wide door opening makes it easy to load and unload. Large capacity is time saving, as a full week's laundry can be done in just a few loads. Accurate water level sensing makes it highly efficient at washing different load sizes.

Add a Garment

Clearly labelled compartments make it easy to see where to put washing powder and softener. It is cleverly shaped to minimise spills and is easy to remove and clean.

Designed to match

The complete package for a beautiful laundry. The 12kg washing machine is designed to match our 9kg Heat Pump Condensing Dryer. With outstanding aesthetics and complementary wash and dry cycles, they become the perfect pair to deliver complete fabric care.
