

VINGLI

Instruction Manual for Pool Fence

Please read these instructions carefully and ensure that they are followed at all times.

If you need help or have questions about your order, please contact our support team at support@vingli.com

We hope you never have the need, but if you do, our service is friendly and hassle-free.

Note: Preparing the electric drill, chalk, hammer and tape measure.

Step1: Measuring and determining the distance between the pool fence and the pool; And decide where the opening of your pool fence will be. Mark on the pool deck with chalk for placement of initial pole.

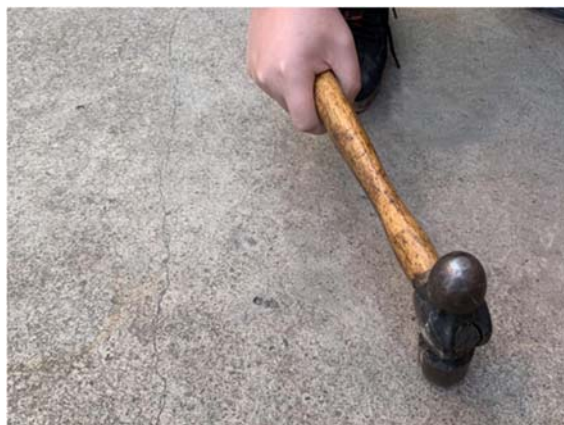

Step 2: Drawing hole around the entire pool with the chalk.

Step 3: Drilling hole around the entire pool with drilling guide. All holes should be drilled to a depth of 4", and at a direct 90° angle to the deck.

Step 4: After the step 4, clearing the holes of any drilling dust. Insert the plastic “feet” into the holes. If you are having trouble getting the feet to fit into the holes, tap them gently into place with a hammering, so as not to break them.

Step 5: Insert pool fence into the plastic feet. Fasten each section to the next with the “safety latch”.
